The Carrier's Address To the Patrons of the Star and Republican Banner. JANUARY 1, 1835.

Whar Hol my masters! Here I come

To greet you with my annual New-YEAR's strain.

You know I promised last year that I would, And Printers' Devils (he it understood) Are men of honor, as you may have heard,

ANOTHER YEAR, on Time's e'er flowing

Here, standing on Time's isthmus, as it were, The link that joins the past and future year, Wo'll call a halt, if you have no objection, And spend a little time in retrospection-MAN, being reasonable, ought to strive,...

To make each passing year its tribute give Of sound instruction, striving still to learn To best advantage every hour to turn. Tis fit we ask, "Have we ourselves impro-"Through the past year, our time as it be-

In the past year, some queer things have occurr'd;

The Drops are also given with success for violent eruptions after the measles; red blotches, festering eruptions and pimples on the face; and in connection with Dr. Jens's Liniment, they remove white swellings of the The Scrofula, in its early shapes of mere tumours behind the cars and under the chin, and swelling of the upper lip and nose, will not only quickly yield to this preparation, but scrofulous ulcers, which have spread to such an extent and depth, as to corrode the cartileges and affect the bones with caries, have been gradually and per manently healed, by the persevering administration of this powerful medicine; the sunken squall id countenance restored to its florid hue, the vitaenergy re-established, and the whole system purified and invigorated. INTERESTING CASES.

UTA Lady, to whom reference can be made, was for years afflicted with humours on her neck, accompanied with frequent itching eruptions, and running sores. She had tried various remedies and had taken the best medical advice, but could get no permanent relief, and her case daily becoming worse, fears were entertained of a fatal termination of her complaint, when a friend providentially recommended the Botanical Drops, four bottles of which effected a complete cure, to the surprise and joy of herself and friends.

8 years, had lost the use of his arms, one leg was almost crippled, hip dropped out of place, thigh and arms swollen and broke open in several places, and many of the seres had penetrated down to the bone. On taking these Drops he recovered the use of his limbs, the sores healed up, and he was restored to health, although tho't ıncurable. ITA young Man, near Boston, was reduced so

low by eruptions and sores in various parts of his body, especially his neck and hands; weakness at the stomach, loss of appetite, general debility, and gradual decline of the whole system, so as to threaten an approaching Consumption. He was entirely cured, and restored to a fine state of health, by five of six bottles of these Drops. LTA married Lady was for years afflicted with eruptions on the face, head, ears and various parts of the body, aftended with violent itching, burn-

fect; was confined to her room, and declined all company. She was cured by taking four bottles of those Drops.

(IFA Lad belonging to Saugus, whose head was covered all over with sores and blotches, was whol-

A Correspondent writes thus: "I have had Ulcers on my legs so bud that I expected to lose the use of them, and could only walk on crutches; two pieces of bone came away from my right leg; when hearing of your Relfe's Botanical Drops, after try ing every thing else that I thought would allay my sufferings, on using three bottles, I found myself nearly well; the ulcers began to heal up and

coase running." A Gentleman writes, he had been sorely afflic-Biles all over his b next. And those having claims against the having tried all kinds of remedies without suc-Estate of said deceased, are requested to cess, by the use of these Drops he was perfectly cured.

Another Gentleman writes: "I have been seriously afflicted with the Salt Rheum on my head, &c. and resorted to the use of many medicines without affecting a cure, or doing any essential good, until I obtained some of your Botanical Drops, which, on using a short time, entirely cured me. I therefore recommend it to every person afflicted with this complaint."

Ur"I was afflicted," writes a person, "for six years with intolerable burnings all over my body, drondful ulcer on on my left leg, and every oth-N pursuance of notice given by the State or day a return of headache. ATKINSON'S CASKET.

Gems of Literature, Witand Sentiment, For 1835-Enlarged and Improved.

The Publisher of this periodical, which has now reached its ninth volume, would respectfully announce, that he is now engaged in making such arrangements as will considerably increase the attractions of the volume for the year 1835. Profitting by the experience of the past, as it has made him more fa-miliar with the literary taste of his readers, and desi-

miliar with the literary taste of his readers, and desirous of showing his gratitude for the liberal patronage
which has hitherto been extended to the Casket by a
discerning public, the proprietor feels assured that he
can do much towards promoting the intellectual gratification of his readers; and he is resolved to spare neither labor nor expense in carrying into full effect, the
improvements he designs to make. In general terms,
the contents of the Casket for 1935 will be as follows:

1. Biography. Sketches of distinguished Americans
and others, eminent for patriotism, learning, philauthropy, or devotion to science. This department is one
rich in instruction for all classes of readers, as there is
no species of literature so profitable to the mind, as that
which teaches by crample. This department will occasionally be illustrated with engraved portraits.

2. Historical Sketches—Reterence to important events in the history of civilized nations, with occasion-

vents in the history of civilized nations, with occasional glunces at the peculiar situations of foreign powers, and notices of prominent rulers.

3. Progress of Science. Under this head, we design to furnish occasional articles calculated to show the rapid advances of science and the arts, particularly in the US trace. It will be one design to avoid proligity and

U.States. It will be our desire to avoid prolixity and technicalities, and to give only such matters as will be of general interest.

4. Natural History.-Condensed notices of remarkable productions of the animal kingdom, and reference to botanical and mineralogical curiosities, occusionally illustrated with engravings.

5. Literature:-In this department, we include tales, essays, poetry, humorous readings, and those various electers, which, united, form an agreeable melauge. Copious extracts from all prominent new publications U.States. It will be our desire to avoid prolixity and

pions extracts from all prominent new publications within our reach, will be given, in order to awaken and keep alive literary interest; and due encouragement well be given, as usual, to competent American writers to favor us with their productions. In previous volumes of the Casket, a large portion of the reading matter has been furnished by approved correspondents; and it is our desire to give an equal quantity in the forthcoming volume, provided it can be obtained of an unexceptionable interesting and instructive character. tionable, iinteresting and instructive character.
6. Plates of Fashions. - In the course of the year, two

handsome colored engravings, of the latest London & Parish fashions, procured engraved expressly for this work, will be given, with appropriate letter press descriptions.
7. Engravings.-Each number of the Casket will contain one handsome steel or copper-plate engraving and two or more wood cuts, of superior workmanship,

illustrative of architecture, scenery, fancy sketches, &c.
In this department the Casket has hitherto stood proeminent, and the exertions of the publisher will be strenuously directed to increase rather than diminish the attractions of the volume for 1935, in this particular lar. A number of beautiful designs are already in the

lar. A number of beautiful designs are aircady in the hands of competent engravers.

8. Music.—An approved piece of music, arranged for the piano forte or guitar, will be given in each number. Finer and better paper than usual will be used for the Casket for 1835, & great attention will be bestowed upon the typographical appearance of the work. It is the intention of the proprietor, in short, to introduce such improvements as he feels assured will be gratifying to his numerous patrons, & tend to give the work still stronger claims upon the patronage of the public. In addition to the improvements noticed above, there will be an addition of twelve pages of reading matter to each number of the Casket, without any additional charge. The publisher has been induced to incur the charge. The publisher has been induced to incur the expense of this enlargement, on account of his having been compelled, in many instances during thr past year to omit articles which we would gladly have furnished. The enlargement will be equivalent to the addition of one-fifth of the whole. Instead of 48 pages of matter, 60 will be furnished and the volume, at the end of the year, will comprise 720 pages, instead of 600 as formerly. In the additional 12 pages, a

LITERARY PORTFOLIO,

will be furnished, containing notices of new publica-tions, with occasional sketches of their contents, and a variety of miscellaneous and literary readings. It is cenfidently believed that these improvements and ad-ditions will be met by a corresponding liberality on the part of the reading community.

JANUARY, 1835 .- The first No. of the Casket for 1835, which will be published about the middle of January inst. will be embellished with a handsome *Map* of Pennsylvania, engraved expressly for the work. It of Pennsylvania, engraved expressly for the work. It will be beautifully colored, and will contain, carefully and legibly marked, all the rail-roads, canals, public roads, completed or in progress, and coal-beds in the State. This matter has been undertaken by the pro state. This matter has been undertaken by the proprieter, under a conviction that the subject is one of vast & increasing importance. The internal improvements of Pennsy Ivania have now become of great magnitude, and every citizen should be familiar with their value, extent and character. This map will be valuable for reference, and the accompanying description in letter, press, will be full, ample and satisfactory.

ter, press, will be full, ample and satisfactory.

FEBRUARY, 1836.—The February No. of the Casket, which will be published early in that month, will
be ornamented with a plate of the latest London and
Paris Fashions, handsomely colored, expressly engraved for the work. It will be accompanied with descriptions of the dresses and materials worn by the
fashionable belies of Europe, and much relating to embroidery, &c.
