DR. HULL'S RECENTLY IMPROVED TRUSS.

The distinguished surgeons and medical faculty of the cities generally, and elsewhere, have come to the conclusion that this Truss, in its present improved state, is the only instrument surgically adapted to the disease of Rupture, and the only one that patients can rely upon for the safe retention of the bowels and the final cure of the disease.

In confirmation of which the following names of distinguished medical gentlemen of New York city, with many others, have expressed a decided preference for this instrument, are respectfully added:

Valentine Mott, M. D. George Bush, M. D. Alex. A. Stevens, M. D. David Hosack, M. D. John B. Beck, M. D. Samuel Ackerly, M. D. Cyrus Perkins, M. D. David M. Rice, M. D. John Scarus, M. D. Wm. Anderson, M. D. Also, the following extract of a late certificate of Dr. Mott, of N. York: "For the last twelve months, the curative powers of Dr. Hull's Truss have been tested upon my own observation with the most gratifying success in cases of great difficulty, in which the mutilated imitation Trusses so common in our market, had only aggravated the disease. Dr. Hull is an experienced surgeon, who has displayed not a little surgical skill and mechanical ingenuity in bringing this unrivaled instrument to its present state of perfection, rendering it, I know, the best I ever saw for securing, comforting and curing the ruptured patient, and is in my opinion, the only instrument of the kind that is entitled to patronage of the profession, and the confidence of the public. VALENTINE MOTT, M. D. Park Place, Feb. 20, 1834. Letters Patent of the United States have been granted to Dr. Hull for 14 years from the last improvement, dated July 5th, 1833. PULMONARY CONSUMPTION;

Cutthroat and Asthmatic Disorders! MORE than one tenth of all the annual deaths in this country and Great Britain, are stated to be caused by that insidious destroyer of human life, the

CONSUMPTION!

Easily overcome in its infancy, it rapidly arrives, if neglected, at an unconquerable and terrific maturity. An obstinate, violent, and convulsive cough is the inevitable forerunner, when neglected, of the PULMONARY CONSUMPTION, and its attendant train of horrors; increased heat and pulse; nausea; oppression of the breast; greenish and bloody spittle; loss of appetite and increase of thirst; ulcerated lungs; clammy sweats and hectic fever; general emaciation of the body; shrivelled extremities; excessive and weakening discharges; sinking of the eyes; prostration of strength; burning palms and flushed cheeks; swollen feet and legs; and, at length, while the wretched sufferer is sanguine of life, cold extremities and an agonizing death. These evils may be nipped in the bud by the timely administration of that long tried and invaluable Medicine,

DR. RELF'S ASTHMATIC PILLS,

which has been known to cure persons supposed to be far gone in a Consumption, and exhibiting all the appearance of approaching dissolution.

The Pills also constitute an excellent PRELIMINARY MEDICINE. Those therefore who are troubled with the common coughs occasioned by acrid humours, tickling in the throat, or defluxion upon the lungs, depriving the patient of refreshing sleep, and gradually introducing the train of Pulmonary affections, will receive from the use of the Pills, certain, and frequently the most sudden and cheering relief. They appease the cough, promote easy expectoration, relieve and often cure protracted, obstinate and most distressing cases. Common Colds are generally removed by the Pills in a few hours.

These Pills also afford immediate relief in the harassing and suffocating complaint of the ASTHMA. In attacks of this disease characterized by difficulty of breathing; tightness and stricture across the breast and in the lungs; oppressive flatulence; wheezing; coughing and hoarseness; costiveness and other Asthmatic symptoms, the timely administration of Dr. Relf's Pills, invariably mitigates the attack, often ensures permanent relief, and sometimes effects a radical cure.

The Pills may be taken with the most perfect safety, as they require, in ordinary cases no confinement, and may be administered with the utmost confidence to all ages and classes of people.

These popular Pills have been used by multitudes with unexampled success, in a vast variety of cases, from those of the slightest, to others of the most confirmed character. Their powerful agency has been known to revive from the bed of sickness, the pallid, dejected and emaciated victim, and send him back again to "the busy hum of men" an active man of business in the full enjoyment of the blessings of health.

As proof of which, the following multitude of testimonials, are respectfully submitted: "I have tried your Dr. Relf's Asthmatic Pills, in Asthma, difficulty of breathing, and Consumption, when all other medicine had failed, and have found them most excellent." Another Physician writes: "I have tried your Relf's Asthmatic Pills with a patient of mine, whose case had resisted every thing; the cough has certainly long since ceased, and he is now perfectly cured." A correspondent writes: "The Asthmatic Pills give such astonishing relief in cases of common colds, coughs, &c. as no one can believe unless they make the trial."

An agent writes: "Your (Dr. Relf's Asthmatic) Pills have performed a miraculous cure in this town. A man about 50 had been confined some months; his feet and legs badly swollen; a bad cough; respiration difficult, and was given over by his physician and friends, who considered him in a confirmed consumption; after taking three boxes of these Pills all the threatening symptoms are removed, and he is fast recovering!" A Gentleman of Plymouth, 70 years of age, was cured of an Asthma, by three boxes, after having been afflicted upwards of thirty years. A young Lady of Boston, was severely afflicted for three years with a violent cough, difficulty of breathing, spitting of blood, pain in the side, deprived of sleep, and universally debilitated. In this distressing state, after having tried other medicine in vain, and considered as past relief, on taking only two boxes of these Pills, her cough and the whole of her symptoms left her, sleep was restored, and her health was perfectly established. Price \$1 for whole boxes of 30 Pills, and 50 cts. for half do. of 12 Pills, with directions.

The Saturday Evening Post,

A FAMILY NEWSPAPER, Devoted to Literature, Science, History, Biography, the Drama, Agriculture, Amusements, and the current News of the day. Published Weekly, on a Mammoth Sheet, at 2¢ per Annum--Payable in Advance.

THE general character of the Saturday Evening Post, is so well known in Pennsylvania, and throughout the United States--it being one of the oldest Literary papers in the country--that a particular exposition seems almost unnecessary. Since its establishment, many years ago, it has steadily increased its circulation, and it is now forwarded weekly to every principal town in the Union. While the size of the paper has been increased from a superroyal to an extra imperial, the original price has not been changed--and the plan of publication adopted with the first number, has been steadily maintained. Should the paper be again enlarged, the alteration will not be attended with any advance in the price of subscription.

The proprietor and those by whom he has been assisted in the publication of the Post, have labored, from year to year, to give additional interest to the paper, by availing themselves of every possible improvement, and the continued accession of names to the subscription list, affords ample evidence that they have not labored in vain. These progressive exertions are still continued, and the publisher is induced to expect that the Post for the current year will present still stronger claims for public patronage than it did during the past. Arrangements have been made, by which the services of several able writers have been secured for its columns, and additional expense has been incurred, with the view of placing before the editor every possible facility for preparing an acceptable sheet.

An outline of the general contents of the Post, may be summed up as follows: Notices of New Publications issued from the American press, with copious extracts from all works of merit. Literary Tales and Essays, original and selected--the latter principally from foreign periodicals. Also, translations from the French & German publications. Historical and Biographical Sketches, with particular reference to the career of distinguished American soldiers, statesmen and authors. Agriculture and Rural Economy, with notices of improvement in farming. The Drama & other Public Amusements, Poetry, &c. The Current News of the Day, Foreign and Domestic, presenting a careful synopsis of all leading events at home and abroad--Congressional and Legislative proceedings--remarkable events, and a summary of varieties from English papers. The Post is also frequently embellished with handsome wood cuts, representing favorite specimens of Architecture, and views of remarkable scenery, &c. In preparing the weekly summary of news, great care is taken to condense the details into as short a space as possible, in order to furnish a greater variety of topics, and to afford more speed in the delivery of a power press worked by steam, but the publisher is now procuring an newly-invented apparatus, which will print double the number of sheets in the same time. Terms--\$2 if paid in advance, \$2 50 if paid within the year; and \$3 if not paid during the year. For six months, \$1 25 in advance. A remittance of \$10 will secure six copies of the Post for one year. Papers discontinued only at the option of the publisher, when arrears are due. Small notes of solvent Banks received at par value for subscriptions, &c. by mail. No advertisement from the country will be inserted unless accompanied with the money. S. C. ATKINSON'S CASSETTE,

OR Gems of Literature, Wit and Sentiment, For 1835--Enlarged and Improved.

THE Publisher of this periodical, which has now reached its sixth volume, would respectfully announce, that he is now engaged in making such arrangements as will considerably increase the attractions of the work for the year 1835. From the experience of the past, it has made him more familiar with the literary taste of his readers, and desirous of showing his gratitude for the liberal patronage which has hitherto been extended to the Cassette by a discerning public, the proprietor feels assured that he can do much towards promoting the intellectual gratification of his readers; and he is resolved to spare neither labor nor expense in carrying out full effect, the improvements he designs to make. In general terms, the contents of the Cassette for 1835 will be as follows:

1. Biography. Sketches of distinguished Americans and others, eminent for patriotism, learning, philanthropy, or devotion to science. This department is one rich in instruction and due encouragement to those who teach by example. This department will occasionally be illustrated with engraved portraits.

2. Historical Sketches--References to important events in the history of civilized nations, with occasional allusions to the peculiar situations of foreign powers, and notices of prominent rulers.

3. Progress of Science--Under this head, we design to furnish occasional articles calculated to show the rapid advances of science and the arts, especially in the United States. It will be our desire to avoid prolixity and technicalities, and to give only such matters as will be of general interest.

4. Natural History--Condensed notices of remarkable productions of the animal kingdom, and reference to botanical and mineralogical curiosities, occasionally illustrated with engravings.

5. Literature--In this department, we include tales, essays, poetry, humorous readings, and those various extracts, which, united, form an agreeable mélange. Copious extracts from all prominent new publications within our reach, will be given, in order to awaken and keep alive literary interest, and due encouragement will be given, as usual, to competent American writers to favor us with their productions. In previous volumes of the Cassette, a large portion of the reading matter has been furnished by approved correspondents, and it is our desire to give an equal quantity in the forthcoming volume, provided it can be obtained of an unexceptionable, interesting and instructive character.

6. Plates of Fashions--In the course of the year, two handsome colored engravings, of the latest London & Paris fashions of men and women, engraved expressly for this work, will be given, with appropriate letter press descriptions.

7. Engravings--Each number of the Cassette will contain one handsome steel engraving, by the best artists and two or more wood cuts, of superior workmanship, illustrative of architecture, scenery, fancy sketches, &c. In this department the Cassette has hitherto stood prominent, and the exertions of the publisher will be steadily maintained, in order to keep the work in the ranks of the most valuable of its kind. A number of beautiful designs are already in the hands of competent engravers.

8. Music--An approved piece of music, arranged for the piano forte or guitar, will be given in each number. Finer and better paper than usual will be used for the Cassette for 1835, & great attention will be bestowed upon the typographical appearance of the work. It is the intention of the proprietor, in a short time, to introduce such improvements as he feels assured will be gratifying to his numerous patrons, & tend to give the work still stronger claims upon the patronage of the public. In addition to the improvements noticed above, there will be an addition of twelve pages of reading matter to each number of the Cassette, without any additional charge. The publisher has been induced to incur the expense of this enlargement, on account of his having been supplied with the materials for a handsome quarto volume, which we would gladly have furnished. The enlargement will be equivalent to the addition of one-fifth of the whole. Instead of 48 pages of matter, 60 will be furnished; and the volume at the end of the year, will consist of 624 pages, instead of 600 as formerly. In the additional 12 pages, a LITERARY PORTFOLIO, will be furnished, containing notices of new publications, with occasional sketches of their contents, and a variety of miscellaneous and literary readings. It is confidently believed that these improvements and additions will be considered by the public as a liberal gratuity on the part of the reading community.

JANUARY, 1835.--The first No. of the Cassette for 1835, which will be published about the middle of January next, will be enlarged with a handsome quarto volume of Pennsylvania, engraved expressly for the work. It will be beautifully colored, and will contain, carefully and legibly marked, all the rail roads, canals, public roads, completed or in progress, and a handsome map of the State. This matter has been undertaken by the proprietor, under a conviction that the subject is one of vast & increasing importance. The internal improvements of Pennsylvania have now become of great magnitude, and it is believed that a handsome quarto volume, of the value, extent and character. This map will be valuable for reference, and the accompanying description in letter-press, will be full, ample and satisfactory.

FEBRUARY, 1835.--The February No. of the Cassette will be published early in that month, and will be embellished with a plate of the latest London and Paris Fashions, handsomely colored, expressly engraved for the work. It will be accompanied with descriptions of the dresses and materials worn by the fashionable belles of the metropolis, and a handsome brocade, &c. This engraving, as well as that designed to be furnished in the January number, will be prepared by the first artists in the city. The value of these two numbers alone, will be fully equal to the whole cost for one year.

TELEMS--Each number of the Cassette will contain 60 royal octavo pages of letter-press, on fine white paper, and 4 pages of colored paper, forming a cover, making in each number 64 pages. The work forms, at the end of the year, a volume of about 720 pages, to which an engraved title-page and a general index, will be added.

Subscription, in advance, \$3 if not paid until the end of the year. Agents, at a distance, remitting six subscriptions, are entitled to a copy gratis, & 10 per cent for collections. Clubs of five persons, remitting \$10 in advance, receive 10 per cent discount, will be furnished with copies for one year.

Complete sets of the Cassette for 1828, 1829, 1830, 31, 32, 33 and 34, may be obtained at the publication office. Address, S. C. ATKINSON, Pr. No. 36 Carter's Alley, Philadelphia. January 6, 1835.
