CHEAP TRAVELLING. The York Gazette, under the head 'Cheap Travelling,' announces that the fare from York to Philadelphia, by the Good Intent line of Coaches and Cars, has been reduced totwodollars and sixty-two and a half cents. We understand the charge by the same line, from Columbia to Lancaster, has been reduced to 37½ cents, and from Lancaster to Philadelphia to one dollar and seventy-five

How to Evade the Law.—A London baker advertises that every person, purchasing a four-penny loaf from him, shall be entitled to a glass of gin for nothing. This is a trick to avoid the excise law, which requires all sellers of spirituous liquors to have a license. This generous baker presents his customers with the essence of death to pay them for buying the staff of life.

ANTI-CORSET SOCIETY .- The young ladies of Peterborough, N. H., and Atkinson, Maine, have formed, in each town, an anticorset society. In Peterborough only three fair ones held out and refused to sign-being, we suppose, determined to retain their artificial corsets until they obtain the natural ones of a husband's arms.

FRENCH-ENGLISH .-- A French gentleman was one day caressing a dog, when an English friend remarked that he seemed very fond of it. "Y-a-s," answered Monsieur, "I am; for dis dog, he brings to my recollection, my own ver pretty little dog at 'ome." "You love dogs, then?" "O, y-a-s! I love de dogs, and de cats, de 'osses and de asses; and in short, I love every thing dat isbeastly."

LARGE HAIL STONES .-- It is stated in The papers that during a severe squall in Gallatin, Tenn. hail stones fell in the form of solid chunks of ice many weighing a quarter of a pound—and average from eight to sixteen inches in circumference! One of them was picked up after storm which weighed a pound! It must have been rather awkward to have been caught out in such a shower.

WASHINGTON COLLEGE.—We learn from the Washington (Pa.) Reporter, that the Hon. Chas. F. Mercer, of Virginia, has consented to address the Literary Societies of Washington College, at the annual com-mencement, next fall. It is expected that the spacious Hall of the New College Building, now being erected, will be finished and fitted up for the occasion.

STEAM BOATS IN THE WEST .- It appears from a statement in Bradford's Comprehensive Atlas, that the whole number of steam boats which have been built in the West, is about 500. And in Japuary 1834 the whole number employed in the Western waters was 234-whose aggregate amount of tonnage was 39,000 tons. They were built at a cost of about \$3,000,000.

The manner of the deed was unusual. At a late meeting of the Washington Bible Society, Mr Shackford rose and presented the fol-

lowing resolution, which was read by Mr. Clark, the President of the Society.

Resolved, (by divine permission) I will pay to the Sccretary of the American Bible Society, for value received, \$1000 in four annual instalments of \$250 each, payable on the first day of February, in the years 1836, 1837, 1838 and 1839, without defalcation.

R. HULL'S RECENTLY IMPROVED TRANSPORTED TO THE PROPERTY OF THE VED TRUSS .- The distinguished surgeons and medical faculty of the cities generally, and elsewhere, have come to the onclusion that this Truss, in its present improved state, is the only instrument surgically adapted to the disease of Rupture, and the only one that patients can rely upon for the safe retention of the bowels and the final

cure of the disease. In confirmation of which the following of New York city, with many others, have expressed a dedided preference for this instrument, are respectfully added:

"For the last twelve months, the curative powers of Dr. Hull's Truss have been tested under my own observation with the most gratifying success in cases of great difficulty, in which the mutilated imitation Trusses so common in our market, had only aggravated the disease. Dr. Hull is an experienced surgeon, who has displayed not a little surgical skill and mechanical ingenuity in bringing this unrivalled instrument to its present state of perfection, rendering it, I know, the best I ever saw for securing, comforting and curing the ruptured patient, and is in my opinion, the only instrument of the next, to accept or refuse, to take the real kind that is entitled to patronage of the profession, and the confidence of the people.

IF HEALTH RESTORATIVE, In the Malignant, Spasmodic, or Asiatic, Choleia, Cho-lera Morbus, Diarrhoea or Looseness, Dysentery, Sick or Nervous Head-Ache, Cholera Infantum or Summer Complaint, Cholics, Cramps, Sour Stomachs, &c. &c.

TO THE PUBLIC.

THIS medicine has been before the public for three or four years past and has acquired probably a greater degree of popu larity, than any article ever before introduc ed into general use. It contains no noxious article, nor mineral or metallic substance and is carefully compounded so as to always be of uniform strength and consistency.

It will keep good for years and grows nore pleasant by age. Children are generally very fond of it, and none will refuse to take it. It is so well adapted to the various complaints of children, that every family should always keep it in their houses, as being in some degree palliative. The Commost families who have used it, now do --Sailors and travelling persons should always carry it with them.

This medicine is put up in round brass moulded vials of two and four ounces each, with the words "Dr. D. JAYNE'S CARMI-NATIVE BALSAM" blown on them, and the written signature of D. Jayne to the bottom of each direction-none others are genuine.

This medicine is not recommended as a Panacea" to cure all diseases to "which flesh is heir to" but as a remedy in Diarpepsia, Affections of the Liver, Costiveness, rhwa. The beginning and latter stages of Loss of appetite, Dysentery, common bowel Dysentery, Cholera Morbus, the Spasmodic or Malignant CHOLERA, Cramps, Cholics. Sick and nervous Headache. For the Sum Directions accompany each bottle. Price mer Complaint or CHOLERA of children it is unrivalled by any other combination of medicine ever used. It has repeatedly effected cures, when every other means had failed aided by the attendance and skill of the ablest physicians, that could be procured.-Obstinate Diarrhoas of years standing, have been removed by the use of a few bottles of it; violent Dysenteries arrested and Cholera Morbus cured. The Spasms attending the Malignant Cholera have always been suppressed in from one to three minutes time, and that much dreaded and fatal disease repeatedly cured without the aid of any other article of medicine. In fact its power over spasmodic diseases of every kind seem to be absolute as it has never yet been known to fail of giving relief in a single instance.-Griping pains, tormina and tenesmus Cholics, Cramps &c. are also soon removed by it.

Hundreds of females and sedentary persons can attest to its superior excellence in sick and nervous Headaches as two or three teaspoonfulls generally gives them relief in

the course of half an hour. Children laboring under the Summer Complaint, have been cured in a short time after all known remedies had failed:--those soo who have been so extremely emaciated that their bones almost protruded through their skins, and all hope of recovery abandoned, by all who saw them, have by a few weeks use of this medicine been restored to perfect health.

### CERTIFICATES.

Certificate from Dr. William Bucon, Pastor of the Baptist Church at Pittsgrove, Salom Co., N. J. Having been made acquainted with the ingre lients composing Dr. Jayne's Carminative Balam, I believe it to be a very happy combination. and a useful medicine in many complaints which names of distinguished medical gentlemen almost constantly occur in our country, such as of New York city, with many others, have Bowel Affections of children, Cholic, Cramps, Looseness, Dyspeptic Disorders of the Stomach Coughs, and Affections of the Breast, together with all those diseases attended with Sourness o the Stomach; and believe that the regular physician will often find it a useful romedy in his hands and one that is proper for domestic use, and can be put into the hands of persons at large with safety. Dr. JAYNE-Dear Sir .- You ask me what proofs meet with of the efficacy of your medicine. I ann safely say that I never prescribed a medicine for Bowel Complaints that has given me so much satisfaction, and my patients so speedy and perfect relief as this. Whonever introduced into a family, it becomes a standing remedy for those ailments, and is called for again and again; which I think a pretty good proof of its efficacy and usefulness. In the Summer Complaint of children, it has frequently appeared to snatch the little victims, as it were, from the grave. "It saved the life of my child, and of such and such a child," I have repeatedly heard said. In dysenteric affections of adults, I have time and again seen it act like a charm, and give permanent relief in a few hours, I may say in a few minutes. In fine, it is a valuable medicine, and no family should be with-Respectfully, M. L. KNAPP, M. D.

Cedarville, Oct. 9th, 1832. Dr. D. JAYNE - Dear Sir .- The curative power of your Carminative Balsam appears to be fairly established in all Bowel Complaints, &c.; and from the experience I have had with the medicine, I am disposed to think very favorably of it. I have lately tried it on one of my children, who was severely handled, and with complete success, without the use of any other medicine. So far as my practice has extended, I think it a desideratum in medicine, especially among children, who are apt to be affected this way; and which every practitioner in medicine has found to be a vory o discase. To the former they can only refferate the assurance so often conveyed, that as the Mirror has now sneeded in preserving their good will through the arduous period of its infancy and youth, so in maturity it will endeavour still to deserve the applause which its earlier efforts received. To the latter they would observe, that no expense shall be spared and no exertions relaxed to render it at least as given not long since, that the paper should attractive and popular as any of its contemporaries.
