June 8, 1833. SUPPLEMENT TO

SIX MONTHS IN A CONVENT. USSELL, ODIORNE & CO. are stereotyping, and will soon publish, in a volume, corresponding in size and form to

that of "Six Months in a Convent," the Supplement to Six Months in a Convent, 3t-14 with some further explanations of the Nar- wounds-stopping bleeding instantly. Sethe system of Cloister Education, by the son--with an Appendix.

"'Tis Education forms the common mind, Just as the twig is bent, the tree's inclined."

More than half of the above work, has already gone through the press. Its publication has been delayed to wait the promised "Documentary Evidence," which the "Lady Superior," and her "Preliminary" in her answer to Miss Reed, pledged themselves to produce immediately. It is understood that the design is abandoned. Should it not have been, the Committee are desirous to meet all evidence that can be produced to discredit order. the "Narrative." They are also particularly desirous to obtain copies of the Novice's and other Directories, and the genuine Rules of St. Augustine, which were in use at the Convent. These documents, which would fully confirm Miss Reed, the triends of the Convent withhold from the public.

The publishers are confident that the Supolement' will be found equal in interesting detail to the original Narrative, and that it will be greatly superior as a sound and convincing demonstration of the dangers of CLOISTER EDUCATION. An equal amount of important facts, proofs and argument in a popular form, have probably never been collected and arranged in so small a space, in the whole history of the Catholic controversy. The object is truth and argu-

ment, not abuse and invective. Editors who publish the above notice, and forward a copy of the paper containing it to the 'American Traveller, Boston,' shall receive a copy of the work.

Carpenter's Compound Fluid Extract of BUCHU.

NOR disenses of the bladder, obstructions of urine, &c. &c. The Buchu leaves have been highly recommended for diseases of the bladder, by some of the most distinguished physicians of Europe. "A variety of remedies have been advised (says Doctor M'Dowell,) for chronic inflammation of the bladder: most of them I have repeatedly tried with little or no effect, beyond that of being in some degree palliative. The Compound Buchu having been lately strongly recommended, I was induced to make trial of it, and my experiments have resulted in the satisfactory manner, having succeeded in saving the most inveterate cases, in which

I had no hope of success." The above medicine has been frequently prescribed by, and found to answer the fullest expectations of the principal physicians of the cities.

CARMINATIVE BALSAM IF HEALTH RESTORATIVE,

In the Malignant, Spasmodic, or Asiatic, Cholera, Cholera Morbus, Diarrhoea or Looseness, Dysentery, Sick or Nervous Head-Ache, Cholera Infantum or Summer Complaint, Cholics, Cramps, Sour Stomachs, &c. &c.

TO THE PUBLIC. THIS medicine has been before the public for three or four years past and has ac-

larity, than any article ever before introducwork in the most APPROVED and FASHIONA. hope to receive the encouragement of the ed into general use. It contains no noxion article, nor mineral or metallic substance and is carefully compounded so as to always be of uniform strength and consistency. It will keep good for years and grows more pleasant by age. Children are gen-

erally very fond of it, and none will refuse to take it. It is so well adapted to the various complaints of children, that every family should always keep it in their houses, as most families who have used it, now do .-carry it with them. This medicine is put up in round brass

moulded vials of two and four ounces each with the words "Dr. D. JAYNE'S CARMI-NATIVE BALSAM" blown on them, and the written signature of D. Jayne to the bottom of each direction—none others are genuine.

This medicine is not recommended as 'Panacea" to cure all diseases to "which flesh is heir to" but as a remedy in Diarrhwa. The beginning and latter stages of Dysentery, Cholera Morbus, the Spasmodic or Malignant CHOLERA, Cramps, Cholics, Sick and nervous Headache. Dr. D. JAYNE—Dear Str.—The curative powers of your Carminative Balsam appears to be fairly established in all Bowel Complaints, &c.; and from the experience I have had with the medicine, I am disposed to think very favorably of it. I have lately tried it on one of my children, who was severely handled, and with complete success, without the use of any other medicine. So far as my practice has extended, I think it a desidera-tum in medicine, especially among children, who are apt to be affected this way; and which every practitioner in medicine has found to be a very troublesome disease. ILE original Hygein Universal Vegetable Medicine, prepared by W. Miskin, Esq. Member of the Royal College of Surgeons, Licentiate of Apothecary's Companv. Fellow of Bolt Court Society, Surgeon to the Royal Union Pension Association, Lancaster Place, Waterloo Bridge, and perpetual pupil of Guy's and St. Thomas's Hosnitals, London.

This valuable medicine, the result of wenty years experience and unparalleled success in the extensive and highly respectable practice of the proprietor, patronised by the faculty and nobility, is now introduced to the notice of the American public, at the earnest solicitation of a number of gentlemen of long and high standing in the profesion. It is hoped, as a preliminary step, to check the cvils and fatal consequences arising from the use of the numerous deleterious postrums toisted upon the public by the aid of fabricated proofs of miraculous cures, and other frauds, by a set of mercenary, unprincipled pretenders, so totally ignorant of medical science that it is impossible the monstrous delusion can any longer go down with the intelligent people of this country. These pills, mild and agreeable in their nature, should be kept in every family in cases of sudden illness, for by their prompt administration, cholera, cramps, spasms, fevers, and other alarming complaints, which too often prove fatal, may be speedily cured or prevented. In fact, all those who value good health should never be without them. They are sold in packets, at 50 cents, \$1, and \$2 each, by every respectable druggist, bookseller, and vender of medicine in the United States and the Canadas, with copious directions, together with testimonials of professional ability from the following eminent gentlemen: Sir Astley Cooper, J. Abernethy, Jas. Blandell, M. D., W. Back, M. D.,

J. Aston Key, A. Frampton, M. D., and numerous others. The originals may be seen in possession of the general agent by whom the medicine is imported into this country, and to whom all applications for a-
