

VARIETY.

We understand (says the Staunton Spectator,) that Mr. Shaw, the Engineer of Virginia, who has been engaged for some weeks, in an examination of the country, between this place and James River, speaks most encouragingly of its adaptation to a Rail Road improvement. From what we have heard, the cost of a considerable part of the work, on either side of the mountain, would not be more than that of the Petersburg Rail Road—say 6 or \$7,000 a mile.

AMERICAN INGENUITY.—From the Cincinnati Republican, we gather the following particulars of a new Quadrant, invented by a gentleman there for Mr. Clayton, to ascertain the velocity of his balloon in his ascension, which took place the 4th of July last. "Dr. Locke has invented and made for Mr. Clayton a Quadrant, by means of which he can ascertain his velocity in the high regions of the air. The instrument plumbs itself by a weight, and has three pair of fixed sights. The first pair range perpendicularly; the second to 40 degrees from a perpendicular; the third to 63 degrees. These three lines, projected from the balloon, will strike the earth at points including two distances, each equal to its altitude, which is known by the barometer. An object noticed in advance of the balloon, will first come in the range of the line of 63 degrees, and lastly in that of the perpendicular. The instrument may then be reversed, and the same object noticed by the watch. The velocity over a distance equal to four altitudes is at once obtained, without any calculation. This is more simple and exact than the reckoning by casting the log at sea. "Dr. J. has also prepared for him a Phosphoric Lamp, without fire, by which this instrument can be read in the night. Our enterprising Aeronaut, thus furnished with the barometer, watch, compass, chart, quadrant, or motor, and lamp, will be enabled, by his reckoning; to know what part of the country he may at any time be traversing, and may be trusted on his trackless journey with less anxiety than we previously suffered on his account."

Who that is familiar with the state of society both of the South and the North, but will acknowledge the full force of the following brief paragraph from the pen of Major Noah?—*Nat. Intel.*

"Talk of the slavery of the South!—Would that our free negroes were half as well off—as comfortably clothed and fed—as well taken care of, and provided for in sickness and calamity. It is the name of slavery, not the reality. Here we have slavery, whites and blacks—there is liberty under the name of slavery. A field negro has his cottage, his wife and children, his easy task, his little patch of corn and potatoes, his garden and fruit, which are his revenue and property. The house servant has handsome clothing, his luxurious meals, his admitted privileges, a kind master, and indulgent mistress. In the South we see nothing of the poverty, crime, and abandonment of the blacks that we have at the North. Let fanaticism rave—let false philosophy have away—this is the truth of the picture, and men of sense must admit it."—*Even. Star.*

We find in the U. S. Telegraph, a most loving and moving epistle from Miss Siley Johnson, (daughter of Col. R. M. Johnson) to Mr. Stevenson, president of the late Van Buren Convention, expressing the thanks of herself, mother, sister Prissy, uncles Cuffy, Cudjo, &c. for his exertions in procuring the nomination of Col. Johnson as Vice President. The family group had just received the Globe containing the organization of the Convention—when the following dialogue ensued:

Col. J.—"My dear, I shall be nominated in preference to Rives; for I see that Stevenson is elected President of the Baltimore Convention."

"Bless de Lord?" ejaculated my mother, "I always said I loved Mr. Stevenson better than any body in de world except my husband."

Sister Prissy and I could say nothing; but we poured forth tears of gratitude to the Convention and its venerable head.

Uncle Cuffy, could not contain himself—He sprang up and began involuntarily to pat 'Juba' as if his heart was in his hands, and his soul was in his feet.

But Uncle Cudjo was not so sanguine—not that he doubted your friendship, my dear sir, but because the experience of sixty years has taught him to rejoice at nothing which is not certain.

"Stop," said he, "bro'er Dick! Read dat ting agin; I want my own ear fo' hear um."

Papa then read over the whole proceedings. When he had concluded—

"Well," said Uncle Cudjo, Mas. Stevenson strait enough then: but how he gwine to make all dem duckeramen do what he want um?"

"Oh," said Papa, "Cudjo, he will not influence them. This is not what I expect; but their choosing him, shows that they go for me."

"Ah, dat de way you work um, ha! Well, may be he work right; but I tell you now, you better not laugh before de fun come; for white man mighty unsartin."

Should Col. Johnson be elected, he cannot do less than advance Uncle Cuffy and Cudjo to auditor's births, and marry the young ladies, Miss Siley and Miss Prissy, to a couple of his friends in Congress.

The individuals charged with stealing Seven Slaves and 3 free Indians from the neighborhood of Fort Mitchell, (Alabama), have been arrested at Charleston, and lodged in prison.

BRIDGE ACROSS THE OHIO.—A company has been formed in Louisville to construct a bridge over the Ohio river from that city to Jeffersonville, Ind. Two thousand shares of the stock at \$50 each, were subscribed by the citizens of

Louisville alone, and but one thousand more were required to be taken to enable the company to go into operation. The cost of the work is estimated at about \$300,000.

A public dinner has been given to Mr. Livingston, late minister to France, in New York and in Philadelphia. Both are said to have been well attended, but their proceedings highly unctured with party.

A New York paper states that Dr. Webster, of that city, has recently cured, by a mode exclusively his own, some of the most obstinate cases of deafness that have ever been presented to an aurist, in this or any other country.

CARMINATIVE BALSAM

AND HEALTH RESTORATIVE, In the Malignant, Spasmodic, or Asiatic, Cholera, Cholera Morbus, Diarrhoea or Looseness, Dysentery, Sick or Nervous Head-Ache, Cholera Infantum, or Summer Complaint, Cholera, Cramps, Sour Stomach, &c. &c.

TO THE PUBLIC.

THIS medicine has been before the public for three or four years past and has acquired probably a greater degree of popularity, than any article ever before introduced into general use. It contains no noxious article, nor mineral or metallic substance and is carefully compounded so as to always be of uniform strength and consistency.

It will keep good for years and grows more pleasant by age. Children are generally very fond of it, and none will refuse to take it. It is so well adapted to the various complaints of children, that every family should always keep it in their houses, as most families who have used it, now do.—Sailors and travelling persons should always carry it with them.

This medicine is put up in round brass moulded vials of two and four ounces each, with the words "DR. D. JAYNE'S CARMINATIVE BALSAM" blown on them, and the written signature of D. Jayne to the bottom of each direction—none others are genuine. This medicine is not recommended as a "Panacea" to cure all diseases to which "flesh is heir to" but as a remedy in Diarrhoea. The beginning and latter stages of Dysentery, Cholera Morbus, the Spasmodic or Malignant Cholera, Cramps, Cholera, Sick and nervous Headache. For the Summer Complaint or Cholera of children it is unrivalled by any other combination of medicine ever used. It has repeatedly effected cures, when every other means had failed aided by the attendance and skill of the ablest physicians, that could be procured.—Obstinate Diarrhoeas of years standing, have been relieved by the use of a few bottles of it; violent Dysenteries arrested and Cholera Morbus cured. The Spasms attending the Malignant Cholera have always been suppressed in from one to three minutes time, and that much dreaded and fatal disease repeatedly cured without the aid of any other article of medicine. In fact its power over spasmodic diseases of every kind seem to be absolute as it has never yet been known to fail of giving relief in a single instance.—Gripping pains, tormina and tenesmus Cholera, Cramps &c. are also soon removed by it.

Hundreds of females and sedentary persons can attest to its superior excellence in sick and nervous Headaches as two or three teaspoonfuls generally gives them relief in the course of half an hour.

Children laboring under the Summer Complaint, have been cured in a short time after all known remedies had failed—those too who have been almost protruded through their skins, and all hope of recovery abandoned, by all who saw them, have by a few weeks use of this medicine been restored to perfect health.

CERTIFICATES.
Certificate from Dr. William Bacon, Pastor of the Baptist Church at Pittsgrove, Salem Co., N. J. Having been made acquainted with the ingredients composing Dr. Jayne's Carminative Balsam, I believe it to be a very happy combination, and a useful medicine in many complaints which almost constantly occur in our country, such as Bowel Affections of children, Cholera, Cramps, Looseness, Dyspeptic Disorders of the Stomach, Coughs, and Affections of the Breast, together with all those diseases attended with Sourness of the Stomach; and believe that the regular physician will often find it a useful remedy in his hands, and one that is proper for domestic use, and can be put into the hands of persons at large with safety.

Wm. BACON, M. D. Pittsgrove, Salem Co. N. J. May 4th, 1831.

Certificate from Dr. Wm. Steelling.
This may certify that I have used Dr. Jayne's Carminative Balsam very extensively in Bowel Complaints, and have not the least hesitation in declaring it superior to any preparation that I have met with, for the relief of those diseases.

WILLIAM STEELLING, M. D. Bridgeton, July 19th, 1831.

From Dr. M. L. Knapp, late Physician to the Baltimore Dispensary, and Agent for the Maryland Vaccine Institution.
Baltimore, March 27th, 1833.

Dr. JAYNE—Dear Sir,—You ask me what profits I meet with of the efficacy of your medicine. I can safely say that I never prescribed a medicine for Bowel Complaints, but I have given me so much satisfaction, and my patients so speedy and perfect relief as this. Whenever introduced into a family, it becomes a standing remedy for those ailments, and is called for again and again; which I think a pretty good proof of its efficacy and usefulness. In the Summer Complaint of children, it has frequently appeared to snatch the little victims, as it were, from the grave. "I saved the life of my child, and of such and such a child," I have repeatedly heard said. In dysenteric affections of adults, I have time and again seen it act like a charm, and give permanent relief in a few hours, I may say in a few minutes. In fine, it is a valuable medicine, and no family should be without it.

Respectfully,
M. L. KNAPP, M. D.

From Dr. L. Lawrence.
Cedarville, Oct. 9th, 1832.

Dr. D. JAYNE—Dear Sir,—The curative powers of your Carminative Balsam appear to be fairly established in all Bowel Complaints, &c; and from the experience I have had with the medicine, I am disposed to think very favorably of it. I have lately tried it on one of my children, who was severely handled, and with complete success, without the use of any other medicine. So far as my practice has extended, I think it a desideratum in medicine, especially among children, who are apt to be affected this way; and which every practitioner in medicine has found to be a very troublesome disease. Respectfully,
LEONARD LAWRENCE, M. D.

From Dr. Charles Hammond.
Dr. JAYNE—Dear Sir,—I have made use of the Carminative Balsam prepared by you for Complaints of the Bowels, with complete success in every case and I do not hesitate to recommend it to the patronage of the public as a medicine, worthy of their particular notice.
CHARLES HAMMOND. Leesburg, Va. Oct. 5th, 1834.

From the Rev. Charles J. Hopkins, Pastor of the Baptist Church at Salem N. J.
Dr. JAYNE—Dear Sir,—Understanding you were about to publish certificates respecting your valuable Carminative Balsam, I thought it would be of any service to you, I would wish to bear a public testimony in its favor; as we have proved its excellency very frequently in our family, and

also administered it to our friends, who have visited us, and always found it gave them speedy relief.
Yours Respectfully,
CHARLES J. HOPKINS.

DR. HULL'S RECENTLY IMPROVED TRUSS.—The distinguished surgeons and medical faculty of the cities generally, and elsewhere, have come to the conclusion that this Truss, in its present improved state, is the only instrument surgically adapted to the disease of Rupture, and the only one that patients can rely upon for the safe retention of the bowels and the final cure of the disease.

In confirmation of which the following names of distinguished medical gentlemen of New York city, with many others, have expressed a decided preference for this instrument, are respectfully added:

Valentine Mott, M. D. George Bushe, M. D.
A. A. Stevens, M. D. David Hosack, M. D.
John B. Beck, M. D. Samuel Ackerly, M. D.
Cyrus Perkins, M. D. David M. Rice, M. D.
John Stearns, M. D. Wm. Anderson, M. D.

Also, the following extract of a late certificate of Dr. Mott, of New York:
"For the last twelve months, the curative powers of Dr. Hull's Truss have been tested under my own observation with the most gratifying success in cases of great difficulty, in which the mutilated imitation Trusses so common in our market, had only aggravated the disease. Dr. Hull is an experienced surgeon, who has displayed not a little surgical skill and mechanical ingenuity in bringing this unrivalled instrument to its present state of perfection, rendering it, in my opinion, the best I ever saw for securing, comforting and curing the ruptured patient, and is in my opinion, the only instrument of the kind that is entitled to patronage of the profession, and the confidence of the people."

VALENTINE MOTT, M. D.
Park Place, Feb. 20, 1834.

Letters Patent of the United States have been granted to Dr. Hull for 14 years from the last improvement, dated July 5th, 1833.

Carpenter's Compound Extract of ICELAND MOSS, CARRAGEEN, SLIPPERY ELM, HOREHOUND, &c.

A VALUABLE remedy in colds, coughs, dyspepsia, dysentery, diarrhoea, catarrh and affections of the breast and lungs.

The Iceland Moss has long been well known as a valuable medicine in affections of the breast—the Carrageen or Irish Moss has long been in use in Ireland for the same affections. Slippery Elm Bark and Horehound are also well known and appreciated for their beneficial effects in the same diseases.

Prepared only by G. W. Carpenter, Philadelphia. And for sale by
