The Washington Mirror. SECOND VOLUME.

THE subscriber having purchased the Wasn-

increa Minnen from its former proprietor, will in future be its conductor. The general plan of the Minnon is, we believe, satisfactory to all our subscribers-offording a comprehensive view of city affairs in a manner unattempted by any other paper. This plan will be strictly adhered to. Our leading object being "to loy hold of those local subjects and occurrences which have not been noticed in the daily papers," including Police Reports, and all such matter as is of general interest, we have engaged the valuable services of Mr. WILLIAM TROMP-

tiring exertions to establish this paper have been so eminently successful. We propose to furnish brief abstracts of all udicial decisions which shall more particularly interest the citizens of this District. Also, brief but comprehensive summary of Congres-

sional proceedings. We propose further, during the Session o Congress, to publish an Evening Epirion, by which arrangement our distant subscribers will receive the latest Congressional Intelligence

one day and a half sooner than through any other Washington paper. We intend, if possible, to furnish a weekly list of all New Palents, a Bank-note Table, and

Prices Current of Washington, Alexandria, and Georgetown, corrected with the greatest accuracy: also, Stage, Steamboat, and Rail Road

We shall exert our best endeavors to elevate the literary character of the Minnon. This can only be done by the co-operation of those sanc Sadler. minds which are able and willing to aid in the advancement of letters. We cannot, however, be so unjust to our subscribers as to make the Minnon an arena for the unskilful, since far more desirable, it must be allowed, would be judicious selections than mediocre originality, [-We believe that the prospects of Washington demand such a paper as we intend to pub-

lish. She is already closely allied, by her rail road, to a great and flourishing city, and is destined to be her compeer, rather than rival, in exchanging the products of the country; by means of her stupendous canal, she is about to be thrown, as it were, intuithe centre of an immense territory, where the resources of industry defy the reach of imagination, and where an amount of capital must soon be created, which will astonish the most sanguine sconoprovements are, A ONE AND A HALF STORY mist. Washington and Bultimore, as one mighty heart, must receive and return the current which will give vitality to the commerce of twenty millions of men. Such, in fact, are our advantages, that prosperity must come in spite causes which conspire to oppress us; but a sens of duty, carried out into action, will relieve our embarrassments, and produce results of incal

culable magnitude. We propose, then, to supply a paper in some degree adapted to the wants of an important community; a literary and miscellaneous family paper--a journal of current literature--a re pository of commercial intelligence. And ve-

to sustain us in our undertaking. Terms of the paper-two dollars, payable is all cases semi-annually in advance.

PROSPECTUS OF THE

Harrisburg Chronicle Published by Hugh Hamilton & Son. TWICE A WEEK.

THE approaching Session of the Legislature must be one of unusal interest to the people of Pennsylvania. The accusations brought against the present administration with respect to laxes. extravagance, internal improvement, and the school law, would seem to indicate that the new rulers just elected, are opposed, totally and without re serve, to the policy of Gov. Wolf; and it is of great interest to the people to know what poli cy shall be substituted for that which has been loudly condemned.

Abuses in all the departments of government have been charged against the present adminitration, and reform has been promised, and it i of great interest to the people to know exactly the extent of the abuses, and the measure of the

Democratic State Journal

THE Editors of the STATE JOURNAL have made arrangements for publishing at length, the proceedings & debates of the next Legislature. From the peculiar relations of parties, and the principles and professions of the majority in the lower house, the coming session is beheld with great curiosity, and expected to be one of uncommon interest. Much has been said of the unworthiness of Free-Masonry, and the greatest number of members, owe their elections to anprehensions which have been excited on this subject. It may therefore be presumed that the mysteries of the lodge will be thoroughly scan-

ned, by those professing the distinctive princi-

ples of Anti-Masonry, who have the power of

proving to the world the truth or falsity of the

allegations upon which the Anti-Masonic excite ment is based. The same party have also spoken "loud and long" of manifold abuses and corruptions, tole rated and encouraged by the present adminis tration, and have accompanied their censures with promises of reform and patriotic profes sions, which would do credit to the most re nowned sages and benefactors of mankind that ever adorned our own, or any other age of the

world. The movements of men who have vol

untarily assumed such grave obligations, wil

afford a speciacle replete with interest and in struction. TERMS .- THE STATE JOURNAL will be pub lished at Harri-burg, Pa once a week during the Summer and Fall, and semi-weekly during LARS per annum -- or Two Dollars during the Session, payable in advance.

of January, 1934. HENRY LOUTHAN, Frederick county, Va.

Leesburg, Virginia. Dear Sir:-I have used the Balsam of Health which I procured from you, with great benefit, if not with entire relief .--When I procured it I was sorely afflicted sing symptoms, headaches, giddiness, heartburn, and the thousand nervous affections, which accompany it, in its worst stages.that I was bed ridden. I think I can say, that the first relief, if not the entire cure, was produced by the use of the Balsam. CHAS. W. BINNS. Jan. 1st.
