MASONHY-THE CHURCH--The Masonic witnesses who refused to be sworn or examined on the subject of Masonry, before the committee of the Legislature, have since their discharge published a statement about Masonry which they have sworn to before Justices of the Peace and Alderman. Masonic Omnipotence.

What is Masonry? "A wicked conspiracy against the laws of God and man, which ought to be put down." Thus spoke the renowned Jurist and Statesman, Wm Wirt,of the Masonic institution. And has it not fully shown itself as such, by the late refusal of its sembly of this Commonwealth, entitled "An members, who were called upon to testify Act to Establish a General System of Edubefore a Committee of the Legislature? CARMINATIVE BALSAM

F HEALTH RESTORATIVE In the Malignant, Spasmodic, or Aslatic, Cholera, Cho-lera Morbus, Diarrhoea or Looseness, Dysentery, Sick or Nervous Head-Ache, Cholera Infan-

tum or Summer Complaint, Cholics, Cramps, Sour Stomachs, &c. &c.

TO THE PUBLIC. THIS medicine has been before the public for three or four years part and has acquired probably a greater degree of popularitv. than any article ever before introduced into general use. It contains no noxious article, nor mineral or metallic substance and is careful-

strength and consistency. It will keep good for years and grows more pleasant by age. Children are generally very fond of it, and none will refuse to take it. so well adapted to the various complaints of children, that every family should always keep it in their houses, as most families who have used it, now do. Sailors and travelling perons should slways carry it with them.

This medicine is put up in round brass moulded vials of two and four ounces each, with the words "DR. D JAYRE'S CARNINATIVE BAL-DAN" blown on them, and the writen signature of D Jayne to the bottom of each direction-

none others are genuine. This medicine is not recommended as a "Panacea" to cure all diseases to "which flesh is heir to" but as a semedy in Diarrhwa. beginning and latter stages of Dysentery. Cho-lera Morbus, the Spasmodic or Malignat Cho-Lera, Cramps, Cholics, Sick and nervous Head-ache. For the Summer Complaint or CHOLERA of children it is unrivalled by any other combination of medicine ever used it has repeatedly effected cures, when every other means had failed aided by the attendance and skill of the ablest physicians, that could be procured. Griping pains, tormina and tenesmus

Cholics, Cramps, &c. ere also removed by it. Hundreds of females and sedentary persons can attest to its superior excellence in sick and nervous Headaches as two or three teaspoonfulls generally gives them relief in the course of half

Having been made acquainted with the ingredients composing Dr Jayne's Carminative Balsam, I believe it to be a a very happy combination, and a useful medicine in many complaints which almost constantly occur in our country, such as Bowel Affections of children. Cholic, Cramps, Looseness, Dyspeptic Disorder of the Stowach. Baltimore, March 27th, 1833. Dr. Jayne-Dear Sir-You ask me what proofs I meet with of the efficacy of your med:cine. I can safely say that I never prescribed a medicine for Bowel Complaints that has given me so much satisfaction, and my patients so speedy and perfect relief as this. Whenever introduced into a family, it becomes a standing remedy for those ailments, and is called for again and again; which I think a pretty good proof of its efficacy and usefulness. In the Summer Complaint of children, it has frequently appeared to snatch the little victims, as it were, from the grave, "It saved the life of my child, and of such and such a child," I have repeatedly heard said. In dysenteric affections adults, I have time and again seen it act like a charm, and give permanent relief in few hours, I may say in a few minutes In fine. it is a valuable medicine, and no family should be Respectfully, M. Cedarville, Oct. 9th, 1832. Dr. D. JATNE--Dear Sir. - The curative powers of your Carminative Balsam appears to be fairly established in all Bowel Complaints, &c. and from the experience I have had with the medicine, I am disposed to think very favorably of it. I have lately tried it on one of my children, who was severely handled, and with comple'e success, without the use of any other medicine. So far as my practice has extended, I think it a desideratum in medicine, especially among children, who are apt to be affected this
