About two years ago I was severely afflicted with the dyspepsia, which I had for the last fifteen years, previous to the above named time, which was very much increased by my having a blood vessel ruptured upon my lungs, occasioned by lifting-which increased my complaint, dyspepsia and general weakness and debility to such a degree, that for two years previous to my using the Garlegant Balsam I never eat a meal but my stomach became so painful that I had

Having been made acquainted with the in redients composing Dr Jayne's Carminative Balsam, I believe it to be a a very happy combination, and a useful medicine in many com plaints which almost constantly occur in our country, such as Bowel Affections of children, Cholic, Cramps, Looseness, Dyspeptic Disorder f the Stomach. Coughs, and Affections of the Breast, together with all those diseases attended with Sourness or the Stom ch; and believe that the regular physician will often find it a useful remedy in his hands, and one that is proper for domestic use, and can be put into the hands of persons at-large with safety

Baltimore, March 27th, 1833. Dr. JAYNE-Dear Sir-You ask me who proofs I meet with of the efficacy of your mediine. I can safely say that I never prescribed medicine for Bowel Complaints that has give in me so much satisfiction, and my patients so speedy and perfect relief as this. Whenever

ntroduced into a family, it becomes a stunding remedy for those ailments, and is called for again and again; which I think a pietry good roof of its efficacy and u-etolness. In the Summer Complaint of children, it has frequently appeared to snatch the little victims, as it were, from the grave. "It saved the life of my child, and of such and such a child," I have re-

Cedarville, Oct. 9th, 1832. Dr. D. JAYNE--Dear Sir. - The curative powers of your Carminative Balsam appears to be fairly established in all Bowel Complaints, &c. and from the experience I have had with the medicine, I am disposed to think very favorably of it. I have lately tried it on one of my children, who was severely bandled, and with complete success, without the use of any other medicine. So far as my practice has extended, I think it a desideratum in medicine, especially mong children, who are apt to be affected this way; and which every practitioner in medicine has found to be a very troublesome disease.
