ted in the same way. Yours, &c. JACOB BOWER, Court Crier. Hagerstown, Sept. 1834.

About two years ago I was severely afflicted with the dyspepsia, which I had for the last fifteen years, previous to the above named time, which was very much increased by my having a blood vessel ruptured upon States of Virginia, Maryland, my lungs, occasioned by lifting-which increased my complaint, dyspepsia and general weakness and debility to such a degree, that for two years previous to my using the Garlegant Balsam I never eat a meal but my stomach became so painful that I had immediately to throw it up. Seeing Garlegant's Balsam of Health advertised, I was induced to try a bottle; after taking the very first dose it appeared to strengthen my stomach; and every dose of the first bottle helped me so much, that in the course of a few days my stomach began to retain and digest every thing I eat. I continued to use the Balsam until I used seven bottles, which cured me entirely, and restored me to pertect health, which I have enjoyed ever since, and not before for lifteen years. I cheerfully recommend it to all persons who are afflicted with dyspepsia or debility of stomach. Given under my hand this 11th day of January, 1834.

PR. HULL'S RECENTLY IMPRO-VED TRUSS .-- The distinguished surgeons and medical faculty of the cities generally, and elsewhere, have come to the conclusion that this Truss, in its present improved state, is the only instrument surgically adapted to the disease of Rupture, and the only one that patients can rely upon for the safe retention of the bowels and the final cure of the disease. In confirmation of which the following names of distinguished medical gentlemen of New

Also, the following extract of a late certificate of Dr. Mott, of New York:

"For the last twelve months, the curative powers of Dr. Hull's Truss have been tested inder my own observation with the most gratifying success in cases of great difficulty, in which the mutilated imitation Trusses so com non in our market, had only aggravated the disease. Dr. Hull is an experienced surgeon who has displayed not a little surgical skill and mechanical ingenuity in bringing this unrivalled instrument to its present state of perfection, ren dering it. > ITS STEEL ENGRAVINGS .- The most distinguished artists have been employed to furnish designs and execute the plates for the Beautiful Series of Pictorial Embellishments, illustrative of American scenery, incidents, and personages, intended to grace the new volume; among which, from a chef d'œuvre of INMAN, will be a splendid engraving and perfect likeness of Mr. HAL-LECK, the only acknowledged portrait ever taken of the gifted and universally admired author of "Fanny." The flattering and general testimonials of writers, scholars, and contemporary journals, on both sides of the Atlantic, have unequivocally asserted that there is no work which gives such valuable equivalents for the amount of subscription, (five dollars per annum,) or which possesses more strong and undeniable claims to the efficient support of the American people.
