WE CANNOT WAR.

We cannot war!—the Briton thinks
Our arms were fram'd to toil—not bleed! He little dreams how scythes are swords
When comes the bloody hour of need.
He little recks the self-same strength

Which swings in peace the summer blade, Will mow as broad a swath among The files where carnage is a trade.

Mark the great oaks! they sway their leaves
To every breath of noon or night;
Gentle, as gentlest things of earth—
Sleeping upon their sense of might.
The storm is up!—they cast their leaves And on the hill-side greenly fixed, They meet the storm in stern array.

We cannot war! our checks will blanch Before the fierce breath of the foe:-When Carnage looks on us her first
To coward's burial we shall go.
WE, who have trod beneath our heel The forest serpent and her young; We, who have grappled with the wolf, And met the panther as he sprung.

If we could be thus base-thus vile, A solemn train of men would spring
Forth from the sod—the pilgrim sires!
Their manly voices then would ring.
Like death-knells; "Sons—once sons of ours,
We give you to the curse ye seek!
No more look back to us as sires—
But hear the vengenues kings can reak."

But bear the vengeauce kings can reek."

But where is Gaul? her sons can tell If ours is frozen, coward blood;
Ask of the Indian! he can say
If ours are trusty swords and good.
The fort o'erturned—the ambushed foe
Mark'd down by his own glancing eyes—
Th' averted brand, which madly blaz'd
A meteor is the midigitation.

A meteor in the midnight skies-These, and a thousand rays of soul
Shot from the darkness of our days, The firm resolve-the hardy toil-The free-born thought (the this is praise,)
Attest the hearts, whose noblest wish Is but to dream—to dare—to die In breathing, battling, suffring for The stolen hope of-Liberty!

After some altercation with the other passengers, the driver shut the coach door and left me within alone. Presently I heard the smack of the whip, and the horses started. The Texian Victory.

Head Quarters of the Army, San Jacinto, April 25.
To His Excellency D. G. Burnett,

President of the Republic of Texas. Sin: I regret extremely that my situation since the battle of the 21st has been such as to prevent my sending you my official report

I have the honor to inform you that on the march of fifty-five miles, which was effected was taken, from which I learned that Gen. Lynch's Ferry, on the San Jacinto, burning Harrisburg as they, passed down. The army was ordered to be in readiness to march early on the next morning. The main body effected a passage over Buffalo bayou, below. Harrisburg, on the morning of the 19th, having left the baggage, sick, and a sufficient camp guard in the rear. We continued the march throughout the night, making but one halt in the prairie for a short. time, and without refreshment. At daylight we resumed the line of march, and in a short distance our scouts encountered those of the enemy, and we received information that Gen. Santa Anna was at New Washington, and watch. It was half pasttwo! "Heavens!" exclaim- and pronouncing the clives the poorest pickles he | would that day take up his line of march for had ever tasted-not to be compared to "aunt, Anahuac, crossing at Lynch's. The Texian army halted within half a mile of the ferry, in some timber, and were engaged in slaughtering beeves, when the army of Gen. Santa Anna was discovered to be approaching, in battle array, having been encamped at Clopper's Point, 8 miles below.

Disposition was immediately made of our

forces, and preparation for his reception.-He took a position with his infantry and artillery in the centre, occupying an island of timber, his cavalry covering the left flank. The artillery then opened upon our encampment, consisting of one double fortified medium brass 12 pounder. The infantry in column advanced with the design of charge ing our lines, but were repulsed by a diswhich he rallies. Hundreds of newspapers, speak. tillery, consisting of two six-pounders. The the enemy withdrew to a position on the bank of the San Jacinto, about three quarters of a mile of our encampment, and commenced a fortification. A short time before oun-set our mounted men, about 85 in number, under the special command of Col. Sherman, marched out for the purpose of reconnoitering the enemy. Whilst advancing, they received a volley from the left of the enemy's infantry, and after a sharp rencontre with their cavalry, in which our's acted extremely well, and performed some feats of daring chivalry, they retired in good order, having had two men wounded severely, and several horses killed. In the meantime the infantry under the command of Lieut. Col. Millard, and Col. Burleson's regiment, with the artillery, had marched out for the pur-pose of covering the retriet of the cavalry, if necessary; all then full back to our ens-campment, in good order, about sun set, and remained without any astensible action until the 21st, at half past three o'clock, taking the first refreshments which they had enjoyinfantry so as to occupy the extreme point of a skirt of timber on the bank of the San Jacinto, and securing their left by a fortification about five feet high, constructed of packs and baggage, leaving an opening in the con-tre of the breastwork, in which their artiflery was placed, their cavalry upon their left
