TEHE undersigned takes pleasure in announc. ing to the public that he has discovered a Soversign Remedy for Rheumatism &c. It never fails to cure where the medicine is taken agreeably to the directions which accompany each

Innumerable instances might be given of the appy offects and powerful virtues of this propaation, in the cure of those painful and distressing liseases which have been named above, and against whose resistless attacks the artillery of redical science has so long been directed in vain." The transcendent morits of this proparation, its sanative powers and unparalleled efficacy in the cure of Rheumatism &c. have drawn forth the voluntary plaudits of thousands, who by its uso have been restored from pain and torture, stiffness and decrepitude, to ease, strength, activity and vigorous health; credulity and scopticism must lisappear before the powerful array of testimonials voluntarily furnished by Physicians of high reputation, who use it in their practice and have the honesty to give it the character it so justly norits.

OCTAIl those who have not taken out unhesitatingly patronize the spring saddles, which accompanies it, and that it has banished when they will be ensured as long as the purchaser may deem necessary.

The elasticity of the Saddle acting in har edy, mony with the symetry of the horse and rider, not only affords ease to the man, but incalculable advantage to the horse. All persons of judgment and experience must know, that a dead, unelastic weight on a horse is oppressive. The Spring in the Girth affords the following advantages: 1st Moving or yielding with the horse's chest in breathing, no cramps or cholics or any disease can rise therefrom. 2d. The girth will outlast two or three of the common kind, sons, but from our own knowledge of several imbecause the yielding of the spring on the sud-

Your ob't. servant &c.

JOSEPH GETZENDANNER, M. D. From the Frederick Times and Dem. Advocate,

Highly Important to the Afflicted.

It will no doubt be gratifying to our readers olearn the wonderful success which has attended Mr. P. O'Neill, in the use of his valuable Anti-Rheumatic Medicine, which has been ascertained to be a specific not only in Rheumatism, but also in White Swolling, disease of the Hip Joint, Scrofulu, &cc. &co. We are urged to make these remarks, not from the certificates of unknown perportant cures effected by his medicine, which have created general astonishment. The most impor-tant one is that of Miss E Rohr, the daughter of our worthy Post master, who, after years of suffering, has been relieved solely by the use of Mr. O'Neill's medicine-the Medical Faculty having tried every thing in vain. These are Miss Rohr's own statements. The high reputation of Mr. O'Neill's endorsers justify us in saying that their statements morit universal credence.

From the Baltimore Chronicle.

We are not in the habit of expressing an opin-ion of the efficacy of Patent Medicines, but in the case of the above mentioned remedy for Rheumatism, we feel called on, by principles of humanity, to state that it has had the most surprising o fects. The inventor is a gentleman in whom the than his own testimony in favor of the medicine which he offers to the public. Clurgymen, phy sicians, and those who have been relieved, have borne voluntary witness to its astonishing officacy; and those who have the misfortune to be afflic. ted with this distressing complaint may be assured of immediate relief by resorting to this romedy.

The following is from the Fredericktown Her ald, edited by Win. Ogden Niles, Esq. April 6th

Mr. O'Neill's Rheumatic Medicine, offered to the public in this day's paper, if we form an opin-ion from the character of the maker, and numerous certificates in his possession from highly res peciable individuals, who have been cured by the use of it, is one of the most valuable of recent dis covery. Its effects upon those ufflicted with chro nic and inflammatory rheumatism, have been truly marvellous; a few bottles enabling them to disponse with crutches, flannels and bandages, with which for years they have protected their limbs and bodies. Mr. O'Neill morits the gratitude of the afflicted, and the testimony of respectable physicians forbids those imputations which are generally attached to venders of panaceus.
