GEN. HAMILTON'S LETTER. GEN. JAS. HAMILTON, formerly Member of Congress, and subsequently Governor of South Carolina during the Nullification crisis. has addressed a long letter to Nicholas Biddle touching the present deplorable state of the country and currency, and the necessity and prospect of a speedy resumption of specie payments. He insists that the evils which have befallen us are not principally or mainly the result of the currency measures of the late National Adminis tration, though materially aggravated b those measures. He recommends the adoption of such amendments to the Federal Constitution as shall prohibit the chartering of Banks by any State beyond a certain amount, having for its basis the population and exports of said State—the aggregate of eration. Bunk capital in the Union to be reduced and kept permanently lower than at present. le further recommends that the Bank of dering one-half its capital to its Government, to be used in necessary branches, not by ble action on the part of the Government.
