JOSEPH GETZENDANNER, M. D.

From the Frederick Times and Dem. Advocate. Highly Important to the Afflicted.

It will no doubt be gratifying to our readers to learn the wonderful success which has attended Mr. P. O'Neill, in the use of his valuable Anti-Rheumatic Medicine, which has been ascertained to be a specific not only in Rheumatism, but also in White Swelling, disease of the Hip Joint, Scrofula, &c. &c. We are urged to make these remarks, not from the certificates of unknown persons, but from our own knowledge of several important cures effected by his medicine, which have created general astonishment. The most important one is that of Miss E. Rohr, the daughter of fering, has been relieved solely by the use of Mr. O'Neill's medicine—the Medical Faculty having tried every thing in vain. These are Miss Rohr's own statements. The high reputation of Mr. O'Neill's endorsers justify us in saying that their statoments merit universal credence.

From the Baltimore Chronicle. We are not in the habit of expressing an opin on of the efficacy of Patent Medicines, but in the case of the above mentioned remedy for Rheuma tism, we feel called on, by principles of humanity to state that it has had the most surprising of fects. The inventor is a gentleman in whom the greatest reliance can be placed; but he has other than his own testimony in favor of the medicine which he offers to the public. Clergymen, phy sicians, and those who have been relieved, have borno voluntary witness to its astonishing efficacy; and those who have the misfortune to be afflic ted with this distressing complaint may be assur ed of immediate relief by resorting to this remedy

The following is from the Fredericktown Her-ald, edited by Win. Ogdon Niles, Esq. April 6th

1833: Mr. O'Neill's Rheumatic Medicine, offered t the public in this day's paper, if we form an opin ion from the character of the maker, and numer ous certificates in his possession from highly res poctable individuals, who have been cured by the use of it, is one of the most valuable of recent dis covery. Its effects upon those afflicted with chronic and inflammatory rheumatism, have been truly marvellous; a few bottles enabling them to dis pense with crutches, flannels and bandages, with which for years they have protected their limb and bodies. Mr. O'Neill merits the gratitude o the afflicted, and the testimony of respectable generally attached to vendors of panaceus.
