SADDLES! Important Improvement in Spring-seated SADDLES!

HE Subscriber respectfully informs the Public generally, that he has nurchased the Patent Right for making and vending Spring-Scaled Saddles of the Zig Zag or W spring in

And also a Spring attached to the Girth or Girths and to the tree. The saddle is made with or without a Pommel, just as persons may fancy.

Saddles made upon this plan are incom parably superior to any heretofore in use, in point of strength, durability and elasticity to the horse and rider. The application of the spring to the girth is productive of ease and comfort to the horse, and protects him from injuries arising from violent or sudden exertions. The Spring is also applicable to LADIES' SADDLES.

Orit is deemed unnecessary to state any thing more. The public are invited to call and judge for themselves.

We are urged to make these remarks, not from the certificates of unknown per sous, but from our own knowledge of several important cures effected by his medicine, which have created general astonishment. The most important one is that of Miss E. Mr. O'Neill's Rheumatic Medicine, offered to the public in this day's paper, if we form an opin-ion from the character of the maker, and numerous certificates in his possession from highly respectable individuals, who have been cured by the use or it, is one of the most valuable of recent discovery. Its effects upon these afflicted with chronic and inflammatory rheumatism, have been truly marvellous; a few bottles enabling them to disneuse with crutches, flannels and bandages, with which for years they have protected their limbs and bodies. Mr. O'Neill merits the gratitude of the ufflicted, and the testimony of respectable physicians forbids those imputations which are generally attached to venders of panaceas.
