THE subscriber wishes to mform his patrons, and others who may wish to patize hum in future, that he has recently purchased Mr. Calliban's Patent Right for the use of his valuable improvement in mak-

Spring-seat SADDLES

Notwithstanding the prejudices against these Saddles heretofore, be feels justifiable in saying, that he hopes to gain the confidence and patromage of the public-as he is enabled, on the present principle, to ensure all his saddles without any extra charge .-That a soft, easy suddle is desirable to all persons who ride much, and particularly to those who may not be favored with a very pleasant horse; I presume all persons will unhesitatingly patronize the spring saddles, when they will be ensured as long as the purchaser may deem necessary.

The elasticity of the Saddle acting in harmony with the symetry of the barse and rider, not only affords ease to the man, but incalculable advantage to the horse. All persons of judgment and experience must know, that a dead, unelastic weight on a horse is oppressive. The Spring in the Girth affords the following advantages: 1st Maying or yielding with the borse's chest in breathing, no cramps or cholics or any disease can rise therefrom. 2d. The girth will outlast two or three of the common kind. because the yielding of the spring on the sudden expansion of the chest prevents the girth from breaking, and saves the rider from falling; many falls have been the fruits of breaking girths.

GENTLEMEN and LADIES are invited to apply, as the little difference in the cost of these and the hard Saddles is so trifling, and incomparable with the difference in comfort and safety.

N. B. Saddlers in the country can be accommodated with Township or Shop Rights at a trifling cost.

The subscriber returns his thanks to the public for the very liberal support extended to him, and would respectfully state that in exchange for work." he has at all times

NOTICE.

SADDLES! THE Subscriber respectfully informs the

- Public generally, that he has purchase ed the Patent Right for making and vending Spring-Seated Saddles of the

the Seal, And also a Spring attached to the Girth or Girths and to the tree. The saddle is made with or without a Pommel, just as persons may fancy.

Saddles made upon this plan are incom parably superior to any heretofore in use, in point of strength, durability and elasticity, to the horse and rider. The application of the spring to the girth is productive of ease and comfort to the horse, and protects him from injuries arising from violent or sudden exertions. The Spring is also applicable to LADIES' SADDLES.

Crit is deemed unnecessary to state any and judge for themselves.

The Subscriber returns his succere barn to hold it. From 250 to 300 general, for the very liberal support extend-

ed to him, and would respectfully inform them that he has at all times A LARGE AND GENERAL ASSORTMENT OF Saddles, Bridles, Martin-

> gals, AND ALL KINDS OF

Carriage, Wagon and Cart HARNESS
