Highly Important to the Afflicted. It will no doubt be gratifying to our reader to learn the wonderful success which has attended Mt. P. O'Neill, in the use of his valuable Anti-Rheumatic Medicine, which has been ascertained to be a specific not only in Rheumati in White Swelling, disease of the Hip Joint, Scro. fula, &c. &c. We are urged to make these re marks, not from the certificates of unknown per sons, but from our own knowledge of several im portant cures effected by his medicine, which have created general astonishment. The most impor tant one is that of Miss E. Rohr, the daughter of tering, has been relieved solely by the use of Mr. O'Neill's medicine-the Medical Faculty having tried every thing in vain. Those are Miss Rohr' own statements. The high reputation of Mr O'Neill's endorsers justify us in saying that their

From the Baltimore Chronicle. We are not in the habit of expressing an opin ion of the efficacy of l'atent Medicines, but in the case of the above mentioned remedy for Rheuma tism, we feel called on, by principles of humanity to state that it has had the most surprising effects. The inventor is a gentleman in whom the greatest reliance can be placed; but he has other than his own testimony in favor of the medicine which he offers to the public. Clergymen, phy sicians, and those who have been relieved, have borne voluntary witness to its astonishing effica cy; and those who have the mistortune to be afflic ted with this distressing complaint may be assured of immediate relief by resorting to this remedy.

The following is from the Fredericktown Her ald, edited by Win. Ogdon Niles, Esq. April 6th,

Mr. O'Neill's Rheumatic Medicine, offered to the public in this day's paper, if we form an opinion from the character of the maker, and numersay that the pains have entirely ceased, and that our certificates in his possession from highly res his joints have completely recovered their natural pectable individuals, who have been cured by the use of it, is one of the most valuable of recent discovery. Its effects upon those afflicted with chronic and inflammatory rheumatism, have been truly marvellous; a few bottles enabling them to dispense with crutches, flannels and bandages, with which for years they have protected their limbs and bodies. Mr. O'Neill merits the gratitude of the ufflicted, and the testimony of respectable physicians forbids those imputations which are generally attached to venders of panaceas. Piles or Hamorrhoids.

CT TO THE AFFLICTED PUBLIC T is considered of great importance for the public to know the following facts: About four years ago, Solomon Hays, the person to whom the celebrated Dr. Gradey had, on his death bed, imparted the secret of making a I imment to cure the Piles, authorized it to be put up and sold under the name of Hays' Lini ment, and enjoined that all who would use one bottle for the Piles, and return the empty bottle,

should have the price refunded. Since that time, upwards of fifty thousand bot tles have been sold, out of which, not ten have been returned, and those only because the persons did not use it properly!! Such wonderful success, probably, never attended any other article. It is now determined by the proprietor, that the public shall be made more fully acquainted with its virtues, so that those suffering with that dreadful complaint may avail themselves of its use.

There are many thousand certificates of the most respectable and suthentic character, many of which may be examined where the article is sold. It is used as an external application, and for many other complaints enumerated in the wrapper, is considered remarkably effective; but for the Pilks it has no equal, and the agents are now, bound to refund in all cases where it does not cure. It is being used in Hospitals in our principal

cities with great effect. No Fiction .- This extraordinary chemical composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public was invested with the solounity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr Gridley's last confession, that "he dared not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant S. Hays, the secret of his discovery.

It is now used in the principal hospitals, and the private practice in our country, first and most certainly for the cure of the Picks, and also so extensively and effectually as to bafille credulity, unless where its effects are witnessed. External ly in the following complaints:

Those medicines cure by purging, and yet the weak, the feeble, the infirm, and the nervous, the delicate, are in a few days strengthened by their operation, because they clear the body of its bad numors, and invariably produce sound sleep; they are the satest and most efficacious medicine to

take to sea, preventing scurvy, costiveness, &c.
The operation of this mild medicine, which conveys immediate conviction of its utility, from the first dose, is as beneficial to the mind as to the body, first calming, then curing; all mental derangements, eccentricities, nervous affections, irritabilities, and restlessness, from whatever source -complaints which have hitherto not been prop erly understood, as the Hygeists have found them all to proceed from acrimonious humors in the blood, and, happily for the present and future tace of mankind, discovered a cheap and univer sal mode of purifying, curing, and preventing.

The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain cedure; perseverance in the Vegetable Universal Medicines will always resto e nature to her due course. The literary and sedentary, of both sexes, whose pursuits so much impair the freulties, will find a sure remony in the Universal Medicines for preserving the energy and sprightliness of the agination, and improving their bealth; old ago will be attained by the use of them, and passed

free from pain and infirmities. They are not enveloped with the mysteries of other medicines; they only require to be persovered in with sufficiently large doses, and the patient will come off well; when a disease is ob stinate, patients frequently do not take doses large

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No. 1 and No. 2; the first is a most powerful, but mild and gentle apperient, or opening medicine, detacking and partially removing the bilious ropy humors, whilst the No. 2 pills carry off those and the serous acid and putrid humors incidental to the body; and act together as a ferret in a warren, never resting until overy avenue to the human frame is thoroughly searched, and cleansed of

nd 25 and 50 cent boxes—the two former consist of three boxes each, viz. one box of No. 1, and two boxes of No. 2-the latter, one large box with a division; the powders are in separate boxes at 371 cents each.

TIn consequence of the repeated solicitations of the Agents, and for the convenience of the Public in general, boxes of 50 cents, and 25 cts each; can now be had of all the Agents. MORISONIANA, the Family Adviser of the

British College of Health, 3d Edition, price 92,75; and PRACTICAL PROOFS of the flygeian System of Physiology, including the "Origin of Life."
"Treatise on Small Pox," "Letter on Cholera Morbus," and many attested cures affected in this country, as well as in Great Britain. 6th Edition, price 37½ conts.

The Hygenian Medicines are all imported into this country as a great expense. this country at a great expense, notwithstanding

which, they are sold at the same price as in Eng. land. They have been six years before the American public; their preeminent success in the rollef of the afflicted, thousands can testify.

CAUTION.—In consequence of the high

estimation in which Murrison's Pills are held by the public, it has induced an innumerable host of unprincipled counterfeiters to attempt imitations under deceptive terms thus to delude the unwary. and foist their nestrums for the Genuine Hygoian Medicine; in consequence of which the Agent has taken the precautionary measure of having an Extra Yellow Label fixed on each Packet, signed by the Agent of each State and District, and by their Sub-Agents, in every County; the imitation of which will subject the forger to the severest punishment the I aw can inflict; and it is further to be noticed, that none of the above Medicines can be obtained in any Drug Store throughout the Union; the Drug Stores being the principal source through which the Counterfeiters vend their spurious articles.

TRespectable parties may be appointed A. pents on liberal terms, by applying to the General Depot, No. 31 SOUTH SEVENTH STREET. three doors below Market street, Philadelphia and at No 10 North street Baltimere, nearly opposite the Post Office, where the Cenuine Medi-

cine may always be obtained.
