5. Because they are recommended as a standard medicine by the regular faculty. 6. Because by keeping the system in a natural state

of action, they cure almost every disease which the human frame is incidental to.

7. Because they are cheap and profitable, and will retain all their virtues in full vigor, in any elimate, and

for any length of time. 8. Because notwithstanding their simplicity and milduess, they are one of the speediest purgative me-

dicines which has yet been discovered. 9. Because they are an unfailing remedy for pro

curing a good appetite. 10. Because in case of spleen or despondency, by

their healthy influence on the excited state of the bo dy, they have a most happy effect in calming and in igorating the mind. 11. Because they effect their cures without the usual

The Spring in the Girth affords the following advantages: 1st Moving or yielding with the horse's chest in breathing, no cramps or cholics or any disease can rise therefrom. 2d. HEALTH SECURED BY THE USE OF THE HYGELAN VEGETABLE UNIVERSAL MEDICINES OF THE BRITISH COL-LEGE OF HEALTED

LONDON!

HICH have obtained the approbation and recommendation of thousands who have been cured in Consumption, Cholers Morbus, Influmations, internally or externally, and all diseasea of the Liver, Yellow Fever, Gout, Rheuma-tism, Lumbago, Tic Deloreux, Dropsy, St. Vitus's Dance, Epilepsy, Apoplexy, Paralysis, Palsy, Green Suckness, and all obstructions, to which the female form is so distressingly liable, and which send so many o. iront portion of creation to their un-timely graves; Small Pox, Measles, Whooping Cough, Scarlet Fever, Asthma, Jaundice, Gravel, Stone, and all Urinary Obstructions, Fistula, Piles, imagination and overwhelming the judgment .- | Strictures, ruptures, and Syphilis in all its stages; Constinated Bowels, Worms, Scurvy, Itching o the Skin, King's Evil, and all cutaneous disorders; in short, every complaint to which the human frame is so direfully subject, under all their varied forms and names, as the Hygeian conviction is, that MAN IS SUBJECT TO ONLY ONE REAL DISEASE, that is, to the IMPURI-TY OF THE BLOOD-from which springs every complaint that can possibly assail his complicated frame; and that it is the perpetual struggle of this vital, pure stseam of life (the milt of Almighty power) to disoncumber itself of its viscous acrid humors, with which it has become commixed.

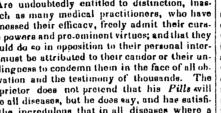

This valuable medicine, being composed only of vegetable matter, or medicinal herbs, and warranted on oath as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongental to the nature of man. and therefore destructive to the human frame.) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the moscertain in searching out the root of every com, plaint, however deep, and of performing a cure that was ever offered o the world. This wonder ful effect, too, is produced by the least trouble to the patients, by merely swallowing a certain num ber of pills and being called a few extra times to the purposes of ovacuation, with the least possble sensation of pain, exhaust.on of bodily strength, and without the fear of catching cold, or attention to dress, or diet, in any way different from their accustomed habits.

These pills cure in all cases, and cannot be taken to excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, and the nervous, the delicate, are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariably produce sound sleep; they are the salest and most efficacious medicine to take to sea, preventing scurvy, costiveness, &c.

The operation of this mild medicine, which conveys immediate conviction of its utility, from the first dose, is as beneficial to the mind as to the body, first calming, then curing, all montal deangoments, eccentricitios, nervous affections, irritabilities, and restlessness, from whatever source - complaints which have hitherto not been prop. erly understood, as the Hygeists have found them all to proceed from acrimonious humors in the blood, and, happily for the present and future usco of mankind, discovered a cheap and univer sal mode of purifying, curing, and proventing.

The being cured of any disease, infirmity, or ore, is now no more a dubious or uncertain procedure; porseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary, of both sexes, whose pursuits so much impair the faculties, will find a sure renfody in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old a will be attained by the use of them, and passed free from pain and infirmities. They are not enveloped with the mysteries of other medicines; they only require to be persovered in with sufficiently large doses, and the patient will come off well; when a disease is ob stinate, patients frequently do not take doses large enough. The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No. 1 and No. 2; the first is a most powerful, but mild and gentlo apperient, or opening medicine, dotaching and partially removing the bilious ropy humors, whilst the No. 2 pills carry off those and the serous acid and putrid humors incidental to the body; and act together as a forret in a warren, never resting until overy avenue to the human frame is thoroughly searched, and cleansed of its impuritios. The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, clease, and do tuch the acrimonious phlegm, are cooling, and allay the thirst. One, two, or three powders may he taken throughout the day, mixed in half a tumbler of water. The pills are sold in packets of \$1, \$2 and \$3, and 25 and 50 cent boxes-the two former consist of three boxes each, viz. one box of No. 1, and twoboxes of No 2-the latter, one large box with a division; the powders are in separate boxes at 374 cents each. III consequence of the repeated solicitations of the Agents, and for the convenience of the Public in general, boxes of 50 cents, and 25 cts each, can now be had of all the Agents.

The Hygenian Medicines are all imported into. this country at a great expense, notwithstanding which, they are sold at the same price as in England. They have been six years before the A-merican public; their preeminent success in the relief of the ufflicted, thousands can testify.

EFCAUTION .-- In consequence of the high estimation in which Morrison's Fills are held by the public, it has induced an innumerable host of unprincipled counterfoitors to attempt imitations. under deceptive terms thus to delude the unwary, and foist their nostrums for the Genuine Hygeian Medicine; in consequence of which the Agent has taken the precautionary measure of having an Extra Yellow Label fixed on each Packet. signed by the Agent of each State and District, and by their Sub-Agents, in every County; the imitation of which will subject the forger to the severest punishment the I aw can inflict; and 8 s further to be noticed, that none of the above Medicines can be obtained in any Drug Store throughout the Union; the Drug Stores being the principal source through which the Counterfaitera vend their spurious articles.
