HEN a medicine comes before the public, ed with the names of the medical profession and distinguished men, and warranted by the seal of uniform success, the proprietor makes no unreasonable demand upon the public when he claims for it a superior consideration. PETERS' VEGETABLE PILLS.

Are undoubtedly entitled to distinction, Inasmuch as many medical practitioners, who have witnessed their efficacy, freely admit their curative powers and pro-ominont virtues; and that they should do so in opposition to their personal inter-est must be attributed to their candor or their unwillingness to condemn them in the face of all ob. servation and the testimony of thousands. The proprietor does not protend that his Pills will cure all diseases, but he does say, and has satisfied the incredulous that in all diseases where a cathartic or an aperiont Medicine is needed, if used according to the directions for a fair period of time, they will effect a speedy and certain cure, and this much is placed beyond doubt by the tos. limony and references of individuals already given to the public.

PETERS' VEGETABLE PILLS Are now regarded by those who have had an opportunity to docide upon their merits, as an ines-timable PUBLIC BLESSING.

More than two millions of boxes of these colebrated Pills have been sold in the United States since January, 1835.

Dr. Peters has received upwards of FIFTEEN HUNDRED CERTIFICATES, all given in consequence of the good done by his medicines; and it will at once be seen by this evidence that no remedy for the prevailing diseases of the Southern and Wostorn states has ever been presented to the notice of the afflicted with stronger claims for their attention. Founded upon the surest and soundest of all principles, viz. actual experiment, these Pills have been wonderfully successful in restoring the sick to health, and in spite of doubts and prejudices, the use of them in those parts of the country, which the proprietor has been able to supply, has been rapidly extending. It is highly encouraging to him that, among the list of the who have been either personally benefitted by them, or have witnessed their effects on others are the names of many of the most respectable and intelligent men in the South; who have cheerfully given their written tostimony to that offect. Without an exception in any age or country

no Medicine has spread with such rapidity and given such universal satisfaction.

HICH have obtained the approbation and recommendation of thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all disea-ses of the Liver, Yollow Fever, Gout, Rheumaism, Lumbago, Tic Doloreux, Dropsy, St. Vitus's Dance, Epilepsy, Apoplexy, Paralysis, Palsy, Green Suckness, and all obstructions, to which the female form is so distressingly liable, and which send so many of the fairest portion of creation to their untimely graves; Small Pox, Measles, Whooping Cough, Scarlet Fover, Asthma, Jaundice, Gravel. Stone, and all Urinary Obstructions, Fistula, Piles, Strictures, ruptures, and Syphilis in all its stages Constipated Bowels, Worms, Scurvy, Itching c the Skin, King's Evil, and all cutaneous disorders; in short, every complaint to which the human frame is so direfully subject, under all their varied forms and dames, as the Hygeian conviction is, that MAN IS SUBJECT TO ONLY ONE REAL DISEASE, that is, to the IMPURI-TY OF THE BLOOD-from which springs every complaint that can possibly assail his complicated frame; and that it is the perpetual struggle of this vital, pure stseam of life (the gift of Almighty power) to discucumber itself of its viscous acrid humors, with which it has become

commixed. This valuable medicine, being composed only of vegetable matter, or medicinal herbs, and warranted on oath as containing not one particle of mercurial, mineral, or chomical substances, (all of which are uncongental to the nature of man. and therefore destructive to the human frame,) is found to be perfectly harmless to the most ten der age, or weakest frame, under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the mos-certain in searching out the root of every com. plaint, however deep, and of performing a cure that was over offered to the world. This wonder ful effect, too, is produced by the least trouble to the patients, by merely swallowing a certain num ber of pills and being called a few extra times to the purposes of evacuation, with the least possble sensation of pain, exhaust.on of bodily strength, and without the fear of catching cold, or attention

to dress, or diet, in any way different from their accustomed habits. These pills cure in all cases, and cannot be taken to excess. Experience, which is the touch stone of all human knowledge, has long borne estimony to the fact, and extensive use of them

has already verified its truth in this country. These inclucines cure by purging, and yet the veak, the feeble, the infirm, and the nervous, the delicate, are in a few days strongthened by their operation, because they clear the body of its bad umors, and invariably produce sound sleep; they are the satest and most efficacious medicine to take to sea, preventing scurvy, costiveness, &c. The operation of this mild medicine, which conveys immediate conviction of its utility, from he first dose, is as beneficial to the mind as to the ody, first calming, then curing, all montal derangements, eccentricities, nervous affections, iritabilities, and restlessness, from whatever source -complaints which have hitherto not been prop erly understood, as the Hygeists have found them ill to proceed from aerimonious humors in the blood, and, happily for the present and future race of mankind, discovered a cheap and univer

al mode of purifying, curing, and preventing. The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain proccdure; perseverance in the Vegetable Universal Medicines will always restore nuture to her due course. The literary and sedentary, of both sexes, whose pursuits so much impair the faculties, will find a sure removy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age

UNIVERSAL PILLS, to produce copious evacutions, will assist nature to restore every organ to a state of health. This is on the principle of draining. We drain a mar-shy piece of land, and from a state of storility soon produce a most abundant fertility, and so it is with the human body. It will no doubt be grutifying to our readers to learn the wonderful success which has attend-ed Mr. P. O'Neill, in the use of his valuable Anti Rheumatic Medicine, which has been ascertained to be a specific not only in Rheumatism, but also in White Swelling, disease of the Hip Joint, Scrofula, &c. &c. We are urged to make these re marks, not from the certificates of unknown per sons, but from our own knowledge of several im portant cures effected by his medicine, which have croated general astonishment. The most important one is that of Miss E Rohr, the daughter of our worthy Post master, who, after years of suf fering, has been relieved solely by the use of Mr. O'Neill's modicine-the Medical Faculty having tried overy thing in vain. These are Miss Rohr's own statements. The high reputation of Mr. O'Neill's endorsers justify us in saying that their statements merit universal credence.

## From the Baltimore Chronicle.

We are not in the habit of expressing an opin ion of the efficacy of Patent Medicines, but in the case of the above mentioned remedy for Rheumatism, we feel called on, by principles of humanity to state that it has had the most surprising ef fects. The inventor is a gentleman in whom the greatest reliance can be placed; but he has other han his own testimony in favor of the medicine which he offers to the public. Clergymen, phy sicians, and those who have been relieved, have borne voluntary witness to its astonishing offica cy; and those who have the misfortune to be afflic

ted with this distressing complaint may be assur ed of immediate relief by resorting to this remedy

The following is from the Fredericktown Her ald, edited by Wm. Ogden Niles, Esq. April 6th 1833: Mr. O'Neill's Rheumatic Medicine, offered to

the public in this day's paper, if we form an opinion from the character of the maker, and numer ous certificates in his possession from highly res pectable individuals, who have been cured by th use of it, is one of the most valuable of recent discovery. Its effects upon those afflicted with chro nic and inflammatory rheumatism, have been truly marvellous; a few bottles enroling them to dis ponse with crutches, flannels and bandages, with which for years they have protected their limbs and hodies. Mr. O'Neill merits the gratitude of the ufflicted, and the testimony of respectable

physicians forbids those imputations which are generally attached to venders of panaceas. IT For sale at the Drug Store of
