diately be suspended.

The committee offer the following resolution:

of the testimony taken by the committee,w road will be 43 miles; there will be 48,000 amount that each contractor would receive historical persons. The length of the road from the summit by That amount would carry out the contraction of time or own works and conduct to Do. the length of the summit by that amount would carry out the contractions. The Gattysburg railroad iffican do any locate the route. Mr. Bailey located the Waynesboro' through Hagerstown to Wil- tors to the first of November, at which time himself stamped, which were picked out, obliteration by the stamped of the stam timore. The Gottsburg railroad stead of the proof of the food from the food from Wrightsville thro? York to gotting will aid in accomplishing that object, because admitting the road to be made to Hagers of the road from Wrightsville thro? York to fow, it is at least 35 miles nearer to Baltimore. This is the only would finish the grading of the road form Wrightsville to York—produce and passengers would take the most advantageous route—that to Baltimore. The length of the road from Gettysburg to the first section on South Mountaine for the works now in progress, to penetrate before the works now in progress, to penetrate Pennsylvania and concentrate in Baltimore and Susquandaman rail road is complete the Solitoners. The Baltimore and Susquandaman rail road is complete the first of the road from Baltimore and Susquandaman rail road is complete the first of the road from the food finish the grading of it. I have engineer on the road from Wayneshorn through Hagerslown to viriation to viriation the road to work and the charge of the shed of the shed of the road from Wayneshorn through Hagerslown to viriation to viriation to viriation the finite state of the finite for the road from Wayneshorn through Hagerslown to viriation to viriation the road from Wayneshorn through Hagerslown to viriation to viriation the finite state of the finite for the road from Wayneshorn through Hagerslown to viriation to viriation the finite state of the finite for the road from Wayneshorn through Hagerslown to viriation the finite state of the finite for the finite state of the finite for the road from Wayneshorn through Hagerslown to viriation to viriation the case was the finite throad the finite state of the finite for the finite for the road I have necessed to the the case and high years of the finite for the finite for the finite for the road I have necessed to the the case and high years of the finite for the finite for the road I have necessed to the the case and high years of the finite for the finite for the finite for the finit thing, will aid in accomplishing that object, be- route. I have been engineer on the road hamsport will be 301 miles. I am engineer the funds were exhausted. ad within fourteen miles of York, and will be completed to York in the course of the ensuing summer. This read will abstract from Philadelphia the products, grain, lumber, coal. &c. of some of the Pennsylvania live from Hagers road. It is 12 miles by rail road from the ware on the first of November, that the continuance is designated upon which that discretion is to be the most fertile districts in the State, and conduct town. I do not know how many miles from bridge at Wright-ville to York. A part of appropriated was exhausted. The power is limitless to transfer from them to Bultimore, and that city will send in re- Hagerstown to Harper's Ferry. If the road the route between Gettysburg and York has ed no communication from the Canal Com vote between the General and Mr. Anams as can one point to another—to divide or concentrate; and turn a few thousand dollars worth of groceries to didates for the Presidency; and when instantly a no specification whatever is made of the causes, or their clerk since the 19th of didates for the Presidency; and when instantly a no specification whatever is made of the causes, or Pennsylvania. The effect of all the works which ponetrate Pennsylvania and concentrate in Balti bout sixteen miles from the head of section 1, tysburg has been located. No part of the December, except a resolution from the fierce war was declared against him: and all the instances, or contingencies on which it is to be more is to take our produce from Philadelphia and to the line. From the Pennsylvania terminational has been graded. I believe the compational board requiring me to make a report in dogs of the party let loose upon him. distribute in Maryland. The Gettysburg raid is an adjunct to the Maryland system of ab stracting the trade from the Pennsylvania works and concentrating it in that state.

Total the first trade from the Secretary may draw as he pleases and the first trade from the Secretary may draw as he pleases of the first trade from the Secretary may draw as he pleases of the first trade from the Secretary may draw as he pleases of the Secretary may draw The Gettysburg rail road as a distinct work is characterized by no ordinary features. Embank rail road and one of the principal stockholders, bands employed on that route at present — Franklin county, Mr. Fullerton was burnt in unbroken, as I was always unhurt—yet unsubduction for the purpose of carrying out the design of acments approaching ninety feet in height—exca who told me that they had made a number of The suspension was caused by a misunder effigy, during last fall, probably in Decem ed, unawed, unterrified; ready to denounce the customing the people to the issue of Government? vations through solid rock of forty and sixty feet surveys, the most southern one passing thro, tunnels six hundred feet in length through mountains of almost impenetrable rock—curva.
