Since that time, upwards of fifty thousand bot tles have been sold, out of which, not ten have been returned, and those only because the per sons did not use it properly!! Such wonderful success, probably, never attended any other arti-cle. PETERS' VEGETABLE PILLS. Are undoubtedly entitled to distinction, iurs much as many medical practitioners, who have witnessed their efficier, freely admit their cura ivo powers and pre-eminent victues; and that they should do so in opposition to their personal interest must be attributed to their candor or their unwillingness to concemn them in the face of all observation and the testimony of thousands. The proprietor does not pretend that his Pills will ure all diseases, but he does say, and has satisfi ed the incredulous that in all diseases where cathartic or an aperient Medicine is needed, i used according to the directions for a fair period of time, they will effect a speedy and certain cure and this much is placed beyond doubt by the testimony and references of individuals already giver

PETERS' VEGETABLE PILLS Are now regarded by those who have had an op

portunity to decide upon their merits, as an inceumable PUBLIC BLESSING. More than two millions of boxes of these celebrated Pills have been sold in the United States

since January, 1835. Dr. Peters has received upwards of FIFTEEN HUNDRED CERTIFICATES, all given in conequence of the good done by his medicines; and it will at once be seen by this evidence that no remedy for the prevailing diseases of the Southern and Western states has ever been prosented to the notice of the afflicted with stronger claims for their attention. Founded upon the surest and oundest of all principles, viz. actual experiment. these Pills have been wonderfully successful in restoring the sick to health, and in spite of doubts and prejudices, the use of them in those parts of the country, which the proprietor has been able to supply, has been rapidly extending. It is highy encouraging to him that, among the list of those who have been either personally benefitted by them, or have witnessed their effects on others, are he names of many of the most respectable and intelligent men in the South; who have cheerfully given their written testimony to that effect.

Without an exception in any age or country no Medicine has spread with such rapidity and given such universal satisfaction.

From the Baltimore Chronicle. We are not in the habit of expressing an opin ion of the efficacy of Putent Medicines, but in the case of the above mentioned remedy for Rheumatism, we feel called on, by principles of humanity, to state that it has had the most surprising effects.
