THE Subscriber, having sold the proper ty whereon he now resides, takes this method to inform the public that he has reserved the privilege of remaining upon it for two years from next spring, and will be able to accommodate all who may call upon him for FRUIT TREES during that

As the purchaser has no wish to engage in that line of business, I calculate upon selling out my stock on hand as much as I can within that term. But previous to my making sale of my property, I had made preparations for planting another lot of trees next spring. Those trees I would rather not plant myself, as they could not be allowed to remain upon the ground until large enough to be transplanted into Orchards; Hardware & Queensware: they ought to be planted where they could remain for at least three years before they would be removed.

As I do not expect to engage in the same business again in this part of the country, I wish to dispose of the young stock, I have prepared for next spring's planting. They are all engrafted in the root, standing in the cellar, planted in boxes of earth, where they are to remain until spring, when they wil be ready for transplanting into a nursery Those boxes, with their contents, can be removed to any reasonable distance in a wagon without the slightest injury done to the trees. As nursery of well selected fruit would be a convenience in this county and parts adjacent, it would at the same time yield a profitble income to the owner, provided he gave it proper attention, and was careful that his assortments did not get mixed, so that persons might have confidence that they could get the kinds of fruit they wanted.

There can be from 25 to 30 thousand trees set upon one acre. They are planted in rows, four feet a part, and about 5 or 6 inches distant from each other in the row. The rows are laid out and planted by a line, in order to have them straight. One person can transplant 2,000 in a day from the boxes to the nursery. This is counted a moderate day's 200 boxes Raisin work. He can also graft and set into the 100 quarto do. hores 500 per day. This we count a day's work also.

Any person desirous of engaging in the bers mentioned concern, can have my lot of grafts to next apring's planting, AT ONE DOLLAR PER concern, and shall have grafts, at all times while memain here, any information on the subject for or grafts of any kind of fruit I have at all for grafting or buding, free of charge. I fee from 50 to 75 of the best varieties of the Aparal about 50 varieties of the Peach—also Cherries, Plams, Apricots, Nectarines, to of many varieties.

Spring-seat

Notwithstanding the prejudices against hese Saddles heretofore, he feels justifiable in saying, that he hopes to gain the confidence and patronage of the public—as he is enabled, on the present principle, to ensure all his saddles without any extra charge. -That a soft, easy saddle is desirable to all persons who ride much, and particularly to disappear before the powerful array of testimo those who may not be favored with a very pleasant horse; I presume all persons will unhesitatingly patronize the spring saddles, when they will be ensured as long as the purchaser may deem necessary.

The elasticity of the Saddle acting in har mony with the symetry of the horse and rider, not only affords ease to the man, but incalculable advantage to the horse. All know, that a dead, unelastic weight on a horse is oppressive. The Spring in the Girth affords the following advantages: 1st Moving or yielding with the horse's chest in breathing, no cramps or choics or any dison of the chest prevents the girth from breaking, and saves the rider from full ing; many falls have been the fruits of break ing girths.

and Mecurial RHEUMATISM.

TItalso cures LUMBAGO and SCIATICA, and it will be seen by some of the certificates given from Physicians and others, that it is a sovereign remedy for SCROFULA, WHITE SWELLING DISEASE OF THE HIP JOINT, and all afflic ions arising from an IMPURE STATE OF THE BLOOD

APPIE undersigned takes pleasure in announc ing to the public that he has discovered a Sovereign Remedy for Rhoumatism &c. It never fails to cure where the medicine is taken agreea bly to the directions which accompany each

Innumerable instances might be given of the happy effects and powerful virtues of this prepa-ration, in the cure of those painful and distressing iseases which have been named above, and a gainst whose resistless attacks the artillery o medical science has so long been directed in vain The transcendent merits of this preparation, its

sanative powers and unparalleled efficacy in the cure of Rheumatism &c. have drawn forth the veluntary plaudits of thousands, who by its use have been restored from pain and torture, stiffness and decrepitude, to ease, strength, activity and vigorous health; credulity and scopticism must reputation, who use it in their practice and have the honesty to give it the character it so justly morits.

Letter of Dr. Jos. Getzendanner of Montgome ry Co., Md., who was long and severely afflicted with Chronic Rheumatism, and finally cured by two bottles of O'Neill's Medicine:

Dear Sir:- In compliance with your request cheerfully add my testimony in favor of your Anti-Rheumatic Medicine, and no selfish consid persons of judgment and experience must eration could induce me to withhold it. My motte s, "honor to whom honor is due." I was great ly afflicted with Chronic Rheumatism, and dis covered that the "Materia Medica" contained nothing that would reach my disease. It is un necessary here to state in detail, how much I suffered; suffice it to say, that I have been severely and that I obtained two bottles of your Anti-Rheu outlast two or three of the common kind, matic decoction, and two phials of the liniment, because the yielding of the spring on the sud- which accompanies it, and that it has banished The afflicted would do well to resort to this rem Your ob't. servant &c.

JOSEPH GETZENDANNER, M. D.

From the Frederick Times and Dem. Advocate

Highly Important to the Afflicted. It will no doubt be gratifying to our readers to learn the wonderful success which has attended Mr. P. O'Neill, in the use of his valuable Anti fling, and incomparable with the difference Rheumatic Medicine, which has been ascertained to be a specific not only in Rheumatism, but also N. B. Saddlers in the country can be in White Swelling, disease of the Hip Joint, Screen accommodated with Township or Shop fula, &c. &c. We are urged to make these re marks, not from the certificates of unknown per ons, but from our own knowledge of several im portant cures effected by his medicine, which have the public for the very liberal support extended to him, and would respectfully state that our worthy Post master, who, after years of suf-fering, has been relieved solely by the use of Mr. O'Neill's medicine—the Medical Faculty having tried every thing in vain. These are Miss Rohr's own statements. The high reputation of Mr. O'Neill's endorsers justify us in saying that their

statements merit universal credence.
From the Baltimore Chronicle. We are not in the habit of expressing an opin ion of the efficacy of Patent Medicines, but in the case of the above mentioned remedy for Rheuma tism, we feel called on, by principles of humanity to state that it has had the most surprising of fects. The inventor is a gentleman in whom the greatest reliance can be placed; but he has other than his own testimony in favor of the medicine which he offers to the public. Clergymen, phy sicians, and those who have been relieved, hav borne voluntary witness to its astonishing effica cy; and those who have the misfortune to be afflic with this distressing complaint may be assured of immediate relief by resorting to this remedy The following is from the Fredericktown Her

ald, edited by Wim. Ogden Niles, Esq. April 6th Mr. O'Neill's Rhoumatic Medicine, offered t the public in this day's paper, if we form an opin ous certificates in his possession from highly res spirits, a sensation of fluttering at the pit of the stomach, irregular transient pains in different parts of the body, costiveness, a dislike for society or which for years they have protected their limbs and bodies. Mr. O'Neill merits the gratitude of the afflicted, and the testimony of respectable physicians forbids those imputations which are generally attached to venders of panacens.

Dr. J. GILBERT, May 1, 1837.

Dr. Peters' Vegetable Pills

ANHE immense and increasing popularity these pills is another proof of the infallibili ty of the old adage that "truth is powerful and will prevail." Other pills are only puffed, but Dr Peters' are purchased and praised, & recommended until the demand for them has become almos

universal. Dr. Peters would impress this fact upon the public, that his pills are not a quack medicine, but a scientific compound of simples which has been profession in which he was regularly bred, and ience it is as popular with the regular faculty as with the people at large. One of the many peculiar virtues of the Vegeta-

ble Pills is, that while very powerful in its effects, it is particularly mild and gentle in its action.— Unlike the generality of medicines, its application is never attended with nausea or griping.

Dr. J. GILBERT, Agent. Gottysburg , Jan. 5, 1838.

PUBLICK NOTICES.

HEN a medicine comes before the public endorsed with the names of the medical profession and distinguished men, and warranted by the seal of uniform success, the proprietor makes no unreasonable demand upon the public when he claims for it a superior consideration.
PETERS' VEGETABLE PILLS.

Are undoubtedly entitled to distinction, luas much as many medical practitioners, who have witnessed their efficacy, freely admit their curative powers and pre-eminent virtues; and that they hould do so in opposition to their personal interest must be attributed to their candor or their unwillingness to condemn them in the face of all observation and the testimony of thousands. The proprietor does not pretond that his Pills will cure all diseases, but he does say, and has satisfied the incredulous that in all diseases where a cathartic or an aperiont Medicine is needed, if used according to the directions for a fair period of time, they will effect a speedy and certain cure, and this much is placed beyond doubt by the testimony and referencesof individuals already given

PETERS' VEGETABLE PILLS Are now regarded by those who have had an opportunity to decide upon their morits, as an incs-

imable PUBLIC BLESSING. More than two millions of boxes of these celebrated Pills have been sold in the United States

since January, 1835. Dr. Poters has received upwards of FIFTEEN HUNDRED CERTIFICATES, all given in consequence of the good done by his medicines; and it will at once be seen by this evidence that no remedy for the prevailing diseases of the Southern and Western states has ever been presented to the notice of the afflicted with stronger claims for their attention. Founded upon the surest and soundest of all principles, viz. actual experiment, these Pills have been wonderfully successful in restoring the sick to health, and in spite of doubts and prejudices, the use of them in those parts of the country, which the proprietor has been able o supply, has been rapidly extending. It is highencouraging to him that, among the list of those who have been either personally benefitted by thom, or have witnessed their effects on others, are the names of many of the most respectable and

intelligent men in the South; who have cheorfully given their written testimony to that effect. Without an exception in any age or country, no Medicine has spread with such rapidity and

rvon such universal satisfaction.
