From the Philadelphia Inquirer. Education. Mr. Stevens and the Children of Canal

Labourers.

One of the best and most philanthropi suggestions that we ever remember to have met with, is embodied in the following ex tract of a letter from the President of th Board of Canal Commissioners in Pennsylvania. The friends of education should act upon the hint forthwith. Carried out to the DEMOCRATIC ANTI-MASONIC NOMINATION extent to which it is capable, it cannot but be productive of immense benefit, and will be remembered with pleasure and gratitude by thousands, whom it is calculated to rescue from the bonds of ignorance, and place in the high road to usefulness and honour. Pennsylvania and her authorities have already taken a noble stand upon the patriotic subject of general education, and it affords us pleasure to notice every movement adapted to win still turther credi: for her on this score, and promote the mental and moral happiness of the rising generation.

To THE FRIENDS OF EDUCATION .- The condition of the children of laborers on canals and rail roads, in regard to their-exposure to temptation from idleness and want of instruction, calls upon the friends of education for some movement in their behalf. We know not (says the New York American) how we can better serve this cause, pear in due time. than by publishing a communication from Mr. T. STEVENS, President of the Board of Canal Commissioners, in Pennsylvania, an enlightened and untiring advocate of universal education.
