PLATE certificate of Agency, signed in writing proved the fact that Poters' Vegetable Pulls are with a pen by mo; and which certificate requires the only true Vegetable Pills which will stand the test of analyzation; hence the proprietor would most earnestly urge them to the notice of those who have been in the habit of using, as cudate is not WRITTEN, it is COPPERPLATE. there was nave been in the destructive and uritation of aperients, the destructive and uritations. functions, and maiderous agents, oven to the most hele. It is true, most of them produce a purgative effect, and sometimes transient relief; but in thost cases they injure the digestive or gans, and an habitual resort to them must termi

nate in confirmed dyspepsia.
It is true that cathartic and apprent medicines are often required, but the n-rest discrimination hould always be observed in the selection; and if this be done, nothing injurious can result from

their use. To produce this much desired result, Dr. Pe ters has made it his study for several years, and ecls proud to say he has succeeded at length far beyond his expectations. The object of his pills is to supercede the necessity of a frequent recourse to injurious purgatives, and to offer a medicine safe, certain, and pleasant in its operation.

"The True Riches of Lite is Health."

away. We know that Health, and the ability to lab r is the wealth of the great mass of the people in this as in most other countries. To preserve, therefore, that health by NATURAL means, is a grand moral and political scheme, to fulfil which re quires our atmost attention.

THE unparallel reputation which Poters' Pills have acquired as a Medical Restorative, is the nost unquestionable proof that can be given of their immense importance to the afflicted, in al nost every class of diseases. The number of letters received from patients recovering through their means is really prodigious; and the complaints which they have cured are almost as varied as they are numerous. But still there are ome in which they are more especially beneficial than in others; and among those may be named he too often fatal complaints of the stomach and nowels, such as Cholic, Flatulence, and Indiges. tion, for which they are not only a certain but an immediate cure.
It is well known that from the disarrangement

of the stomach and howels, at ise nine tenths of all the maladies of adult and declining life; that this s the toundation of Flatulency, Spasmedic Pains Indigestion, Lors of Appetite, &c. and that those in their turn give birth to Dropsy, Liver Complaint, Commumption, and habitual lowness of spirits; therefore Peters' Pills being the very best medicine which has ever been discovered for the incipient diseases of the intestines, are necessari 'y the surest preventives of those dreadful, and al so general disorders, which embitter mature life, and drag so many millions to unfinitely grayes. In speaking thus Dr. Poterstariogates mothing

to himself that has not been conceded by the public. He is no needy quick or unknown apoculator, who comes before the world as his own her ald and witness, but is placed in a respensibility of situation by the patronage which he has enjoyed for years, and which is increasing to an extent unprecedented in the annuls of medicine, that makes him careful to assert nothing which not borne out by the most infallible proof, and hence he does not fear to be put to test in any thing which he has promised respecting his Pills. Dr. Paters is most happy to be able to state, on the authority of a great number of regular physiwhorever his Vogetable Pills huve been introduced, they have almost superceded the adoption of mercureal experiments, for their pe culiar faculty in sweetening the blood, and a imulating it to expel all noxious juices, and in giving strength and tone to the nerves, prevents disase from acquiring that strength which must be of wider, if at all, by dangerous remedies.
