THE CAMOMILE PREPARATION. of Dr. Evans, of New York, is undeniably entitled to this enviable distinction; for whilst no medical authority in existence condemns it, every medical, work which alludes to it, and every medical practitioner that is acquainted with st, freely acknowledges its pre-eminent virtues; and that the latter should do so in opposition to their personal interests, must be attributed either to their candor and love of truth, or to their u willingness to fly in the face of all observation and the testimony of thousands.

Dr. W. EVANS does not pretend that his Camomile Pills will cure all diseases. He frankly and conscientiously admits that they will not. He lays no claim to the discovery of the "Philosopher's Stone, and covery of the "Philosopher's Stone, and most halo. This much is placed beyond doubt, on oath; and for this much Dr. W. Evans can conscientiously request confidence. QUACKS AND THEIR DESTRUCTIVE NOSTRUMS.—The united testimony of physicians throughout the United States has fully proved the fact that Peters' Vegetable Pills are the only true Vegetable Pills which will a and the test of analyzation; hence the proprietor would most earnestly urge them to the notice of those who have been in the habit of using, as cathartics or aperients, the destructive and irritatting quack pills so generally advertised, and which are at best but slow consumers of the vital functions, and murderous agents, even to the

It is true that cathartic and apprient medicines are often required, but the nicest discrimination hould always be observed in the selection; and if this be done, nothing injurious can result from their use.

To produce this much desired result, Dr. Pe ters has made it his study for several years, and feels proud to say he has succeeded at length far females of relaxed norves; in every case of boyond his expectations. The object of his pills delirium tremens, or that disease which is to supercede the necessity of a frequent recourse to injurious purgatives, and to offer a medicine safe, cortain, and pleasant in its operation.
