DEMOCRATIC ANTI-MASONIC NOMINATION
FOR PRESIDENT,
Gen. Wm. Henry Harrison.
FOR VICE PRESIDENT,
Daniel Webster.

REMOVAL.

The Office of the "STAR & BANNER" has been removed this week, and is now situated near the Court House, and immediately opposite the Apothecary Store of S. H. Buehler, Chambersburg Street; entrance up stairs.

To the Patrons of the Star.

The present number commences the TENTH year since the "Star" was first established in Gettysburg; and scarcely three months have elapsed since the present Editor assumed the arduous and responsible duties attendant upon the publication of a newspaper, devoted to the principles of Anti Masonry, and opposed to the present ruinous Administration of our National, and State Government. To our numerous friends, who have during that short period, expressed their approbation of and sanctioned our best (though inexperienced) endeavours, to promote the interests of our common cause, we would say, that to the utmost of our abilities the interests of that cause shall continue to be supported and established; and if industry and a strict attention to the duties devolving upon us, merit and receive their commendation, they shall at all times be brought into requisition to obtain that purpose. To our new patrons (and we are happy to state that we have a goodly number of them) as well as to the old ones, we would say, that as the New Volume commences, our exertions shall be redoubled to make our paper both in a Literary, Miscellaneous and Political point of view, still more worthy of their generous patronage.

Respectfully yours
ROBERT S. PAXTON.

Those of our Subscribers who intend removing their places of residence on or about the first of April, will please inform us where they wish their papers to be sent after that time.

The report of the Committee and other important matter have crowded out Junius this week, we will probably find room for it in our next.

We intended to publish the whole of the appointments made by the late Baltimore Conference, this week, we find however, that we will have but a sufficiency of room to publish those of the North Baltimore District in which the Gettysburg circuit is included.

NORTH BALTIMORE DISTRICT.—A. Griffith, F. E.—North Baltimore—C. B. Tipton, J. Poisal. Great Falls—T. B. Sargent, A. A. Reese. Harford—W. P. Perryman, R. Emory. Shrewsbury—Isaac Collins, F. A. Harden. York—John L. Gibbons. Carlisle Station—T. C. Thornton. Carlisle Circuit—S. McMullen, J. Mitchels. Gettysburg—H. Furlong, J. M. Jones. Patapsco—W. H. Coffin, T. Sewell. Liberty—Thomas H. W. Munroe, B. Barry. Frederick City—J. H. Brown—Frederick Circuit—J. Cleary, T. A. Morgan. Montgomery—Richard Brown, J. W. Cronin. Codorus Miss.—Oliver Ege.

Next Baltimore Annual Conference to be held in Georgetown, March 11, 1840.

The last "Compiler," contains an article on the subject of the dismissal of William McClean, as a teacher, from one of the Public Schools. The dismissal of this man, is denominated an "act of tyranny," on the part of the School Directors; and it is alleged that the latter acted in the matter, without any fault having been found, with the person dismissed. From the whining tone of this article, we presume it was written by the party himself; and we are the more inclined to believe so, as the editor of the "Compiler," has, on more than one occasion referred to the delinquencies of the individual in question; and he can hardly help but know, that daily complaints were made, against the continuance of this man, in any responsible public station.

The Directors, or a portion of them at least, were not unaware of the impropriety of the example of rewarding, or of reposing any trust, or confidence in such men, as have been unfaithful or dishonest, in the performance of any public trust or duty. In the appointment of this individual, this principle was overlooked; and although often brought to the minds of the Directors, by citizens of the county, they neglected for a time—we suppose through a natural repugnance to discharge or offend—to do that which was obviously a duty, and which public opinion required.

About the competency of the individual,

we shall not now speak; it is enough for us to know, that he was once the County Treasurer, and that whilst acting in that capacity, he made use of several thousand dollars, of the public funds, for his private purposes, whereby the county was defrauded. This is enough to justify the Directors for turning him out, if not for putting him in. It is wrong, in any manner, to encourage or countenance Public Defaulters; the example is most pernicious; and our Directors are blameable for having assisted to set it. A b. w. all—we should not furnish to our schools, in the persons of our teachers an example to disregard the principles of honesty and morality. Our public schools should be nurseries of virtue; not seminaries, where vice is sown by example. We may have occasion to resume this subject.

Thomas C. Miller.

This man made a speech in the Senate, on the subject of the pay of the troops; and we presume such a specimen *artis loquendi*, was never before exhibited, in a legislative Body. The language in which the silly rhapsody of our "insane" Senator delivered exceeded in vulgarity, the *patois* of a Virginia negro! Even his *Loco Foco* friends were disgusted by the ignorance, which he manifested, of the common proprieties of language; and one of them exclaimed, on leaving the Capitol, "I did not think he was such an ignorant and vulgar ass!" This, however was no secret to us. We know Thomas C. Miller, to be an ignorant man, and vulgar in all his notions and feelings. Yet such a man is the Representative of almost 100,000 freemen!

In the "Chambersburg Whig" we see a list furnished by a correspondent of that paper, showing the number of British vessels of war, and merchantmen captured and destroyed by the American arms during the last war with that nation. 62 vessels of war, mounting 870 guns, 654 merchant ships, mounting 2500 guns, 610 Brigs, mounting 2400 guns, 520 schooners, mounting 600 guns, 135 sloops, few armed, 750 vessels besides the above (recaptured) mounting 2500 guns. The whole amounting to 2452 vessels, and 9679 guns.

From Maine.

The first intelligence conveyed to Britain in relation to the Maine business was taken out by the great Western, and the subsequent proceedings on the Frontier, including the proceedings of the American Congress, were taken by the steam packet Liverpool. Parliament was then in session, and it is probable that intelligence of such interest produced a momentary panic in the stock market, especially with regard to American securities, if it did not induce some specific movement on the part of the Government. The latter indeed is highly probable. It is believed that England will by every means in her power, consistent with her own character the condition of the popular sentiment, and the portion of her Ministry, avoid and deprecate a conflict as well because the philosophy, feeling, and policy of her statesmen are averse to such a cause, as because she has enough to do with her own immediate dominions, and is unwilling to afford Russia, any pretext for accomplishing her ambitious designs in the East. Accounts from Banger up to the 16th of March, states that all was quiet at that time, and the opinion was that there would be no fighting done at present. 24 pieces of Artillery had arrived at Augusta on the 21st inst. The number of British troops concentrating on the frontier amounts to about 3000.

In the New York house of Assembly a day or two ago, Mr. Taylor made a report, agreeing with the sentiments expressed by the Governor in his message on the subject, deprecating the horrors of war, but sustaining with unflinching determination the claims of the U. States to the territory in dispute, it was unanimously adopted. The New York Commercial Advertiser says, we have reason now more than ever to believe that there will be no war. Nor can Gov. Fairfield and his whole Legislature bring it about. We speak not at random when we predict that there will be a Mediation. France if necessary will proffer her services as mediator, as England did in the recent difficulties with Munseer. Mark our words.

The Boston Transcript of Tuesday says, that by passengers in the steamer Banger, which left the Penobscot yesterday, we learn that all is quiet in that city, even unto dullness. No War, no Shingles, no sleighing, all flat. At Augusta, again, the legislature met for the last time at half past 5. Moreover orders were received there for the Oxford and Cumberland troops, of which we have heard so much to return home forthwith. This we take it ends the war for the present.

The Germantown Telegraph says—"We would advise persons who contemplate growing nutherry trees this season, and have not yet procured their trees, to exercise the utmost care in making their purchases. They should reject the French tree entirely, at whatever price offered, and particularly stipulate in their contracts, the part of the country where the tree was raised."

PRESIDENTS OF THE UNITED STATES.—The Savannah Georgian of Friday, the 15th inst., says, "Ex President Jackson to-day completes his 72d year—having been born on the 15th of March, 1767. General Washington died in his 68th year; Mr. Adams, the elder, in his 91st; Mr. Jefferson, in his 84th; Mr. Madison, in his 86th; and Mr. Monroe, in his 73d year. Ex-President J. Q. Adams is now in his 74th or 75th year; Mr. Van Buren is 57 or thereabouts."

THE SCHOOL SYSTEM OF PENNSYLVANIA.—The late School Superintendent, Mr. Barrows, states, in his report, that of the ten hundred and twenty-seven districts in the state, eight hundred and seventy five have already accepted the system. That in those there are at least five thousand schools and two hundred and thirty thousand scholars; and that since the introduction of the system, the cost of instruction is only one half what it was before the Common School System went into operation.

IMPORTANT FROM WISCONSIN.—The Legislature met at Madison on the 22d ult. The Governor delivered his message, which touches among other things, the subject of the Winnebago Indians. It is anticipated from sundry indications that there will be difficulty this spring, as they are determined not to leave the country at the time stipulated in the treaty. They are making hostile preparations. The Governor recommends that the War Department be immediately memorialized for arms and ammunition, and for five companies of Dragoons. The Governor will take the responsibility, in case of emergency, of raising volunteer companies, which he will lead in person for the protection and defence of exposed settlements.

THE GREAT PRESBYTERIAN CASE DECIDED.

After the charge of Judge Rogers to the jury yesterday morning, in this important case, the jury retired at about 11 o'clock, and in little more than half an hour, returned into Court with a Verdict in favor of the New School, or Relators.

We have since heard that the Respondents have moved for a new trial [Phila. Inq.]

MARRIED.
