ADVERTISEMENTS.

DACKS AND THEIR DESTRUCTIVE UNOSTRUMS .- The united testimony of physicians throughout the United States has fully

proved the fact that Peters' Vegetable Pillsaro the only true Vegetable Pills which will stand the test of analyzation; honce the proprietor would most earnestly urge them to the notice of those who have been in the habit of using, as catharties or aperients, the destructive and irritatting quack pills so generally advertised, and which are at best but slow consumers of the vital functions, and murderous agents, even to the most hale. It is true, most of them produce a purgative effect, and sometimes transient relief; ut in most cases they injure the digestive organs, and an habitual resort to thom must termi-

nate in confirmed dyspepsia. It is true that cathartic and aperiont medicines are often required, but the nicest discrimination should always be observed in the selection; and if this be done, nothing injurious can result from their use.

To produce this much-desired result, Dr. Po ters has made it his study for several years, and feels proud to say he has succeeded at length far beyond his expectations. The object of his pills is to supercede the necessity of a frequent recourse to injurious purgatives, and to offer a modicine safe, certain, and pleasant in its operation. Propared by JOS. PRIESTLY PETERS, M.

More Conclusive Proofs of the Efficacy of Dr. Wm. Evans' Camomile Pills. Liver Complaint cured by Dr. William Evans

Camomile Tonic and Aperient Pills. RS. LYTLE, of Mount Joy, Lancaster county, Pa. Completely restored to health, by Dr. Evans' Camomile Pills. Her symptoms were great pain in her right Her symptoms were great pain in her right side, could not lie on her left side without an aggravation of the pain, disturbed rest. Extreme debility, pains in the head, loss of appetite, palpitation of the heart, giddiness and dimness of sight, languor, with other symptoms indicating great derangement in the functions of the liver. Miss Lytlo, daughter of the atoresaid Mrs. Lytle, has also been restored to health by the same invaluable medicine. Her symptoms were extreme nervousness, attended with severe pain in her side, sickness of the stomach eructations, &c. Mrs. Lytle has the pleasure of informing the public that numerous cases similar to her own, (in her vicinity,) have been restored to health by the same in valuable medicine.

"The True Riches of Life is Health.'

We know that Health, and the ability to labor is the wealth of the great mass of the people in this as in most other countries. To preserve, therefore, that health by NATURAL monns, is a grand moral and political scheme, to fulfil which requires our utmost attention.

THE unparallel reputation which Peters' Pills have acquired as a Medical Restorative, is the most unquestionable proof that can be given of their immense importance to the afflicted, in al most every class of diseases. The number of let. tors received from patients recovering through their means is really prodigious, and the complaints which they have cured are almost as varied as they are numerous. But still there are some in which they are more especially beneficial than in others; and among those may be named the too often fatal complaints of the stomach and bowels, such as Cholic, Flatulence, and Indiges. tion, for which they are not only a cortain but an immediate cure.

It is well known that from the disarrangemen of the stomach and bowels, arise nine tenths of all the maladies of adult and declining life; that this is the foundation of Flatuloncy, Spasmodic Pains Indigestion, Loss of Appetite, &c. and that those in their turn give birth to Dropsy, Liver Com-200 bags Rio Coffee, (part strong scented) plaint, Comsumption, and habitual lowness of spirits; therefore Peters' Pills being the very best medicine which has ever been discovered for the incipient disenses of the intestines, are necessari ly the surest preventives of those droadful, and al so general disorders, which embitter mature life, and drag so many millions to untimoly graves. In speaking thus Dr. Peters arrogates nothing to himself that has not been conceded by the pub lic. He is no needy quack or unknown specula-tor, who comes before the world as his own herald and witness, but is placed in a responsibility of situation by the patronage which he has on joyed for years, and which is increasing to ar extent unprecedented in the annals of medicine that makes him careful to assert nothing which is not borne out by the most infallible proof, and hence he does not fear to be put to test in any thing which he has promised respecting his Pills

Dr. Peters is most happy to be able to state, on the authority of a great number of regular physi-cians, that wherever his Vegetable Pills have been introduced, they have almost superceded the doption of mercureal experiments. for their pe cultar faculty in sweetening the blood, and stim ulating it to expel all noxious juices, and in giv-ing strength and tone to the nerves, provents dis-
