PROSPECTUS

Journal of the American Silk Society,

ETEIMONOGE ZANUN EDITED BY GIDEON B. SMITH.

PHIS Journal was established by the AMERICAN SILK SOCIETY, for the purpose of diffusing practical information on the CULTURE OF SILK in the United States. It has now been published one year, and may be considered a work of standard character. The first year's publication, comprising the first volume, contains a mass of valuable information, and it will be the object of the editor to make the second equal in all respects, if not superior, to the first. The important fact is now established beyond any question, that the people of the United States can make silk CHEAPER and BETTER than any other nation on the earth. It has been proved by unimpeachable testimony, that the entire cost of preducing silk ready for market, does not exceed Two DOLLARS AND TWENTY-FIVE CENTS PER POUND, and its lowest value is FOUR DOL-LARS AND FIFTY CENTS; also, that one ACRE of ground planted in morus multicaulis, will produce, the first year the trees are planted, J. B. Danner vs. Henry Hoke's Executors. FORTY EIGHT POUNDS OF SILK, leaving a Enoch Simpson rs. Frederick Bower. clear profit to the producer of ONE HUNDRED Jacob Settle rs. Freeland, Bailey & Co. AND EIGHT DOLLARS! It has also been proved that the children and females of any farmer's family can, with the greatest posoible ease, produce from fifty to a hundred

and philanthropists's work by inducing his friends and neighbors to enter their names upon the list of subscribers. The Journal of the American Silk Society is published monthly, in pamphlet form; each number contains thirty-two octave pages, printed on new type and handsome pa-

ESPECTFULLY calls the attention of his friends and the public generally. to the important and interesting fact, that he is fully prepared and qualified to cure the most inveterate cases of rheumatism.-The various diseases to which mankind are subject (if curable) can also be effectually and radically cured by him, safely and expeditiously, at moderate and reasonable charges, without subjecting the patient to the poisonous influence of minerals, such as mercury, arsenic, &c.

His remedies are mild, agreeable, and efficient, and operate in accordance with the laws of the animal economy.

Doctor F. Smith is ready at all times to attend patients at their houses. Patients living at a distance can be accommodated with board and medical attendance at moderate prices at his dwelling, in Carlisle street, the house formerly occupied by Dr. Berluchy.

Dr. Smith would also inform the public hat his mode of treatment will perfectly remove the bad effects remaining in the sysem, from the use of mercury or any other
