THE melancholy effects of which our obituaries painfully exhibit, have for some years been increasing to an alarming extent. The dreadful ravages of these complaints have in a vast number of cases been arrested, by the use of Dr. Relfe's Asthmatic or Consumptive Pills, which have proved one of the most useful medicines ever yet discovered, for complaints of the Lungs generally. This medicine has restored a large number of persons, from the very borders of the grave, to health and society, who had been given over by their friends, and in many instances even by their Physicians, as past relief! Among a large number of cases of cure by the use of this invaluable medicine, the following are gresented to the public.

PHILADELPHIA, August 16th, 1838. Mr. ATKINSON-Dear Sir: A few weeks ago I noticed in your paper, an account of the surprising offects of Jayno's Carminative, in restoring a great number of passengers on board a Missis sippi-steamboat, to perfect health who were uffec-ted with Bowel Complaint. I was glad to see you notice it so kindly; you may rest assured it deserves the praise bestowed upon it. The bonofit I have received from this medicine, more especially his Expectorant, induces me to state my case to you for the benefit of those who are afflicted in the same way. It has been my misfortune, sir, to labor under a cough and asthmatical oppression, for more than talf a century. When a soldier in the American camp, in 1778, I, with many others, (owing to great exposure,) had a violent attack of disease of the Lungs, by which I was disabled from duty for a long time. Since that period until recently, I have never been free from a violent Cough and difficulty of breathing. Your after your I have expectorated over a gill a day; often much more, and sometimes mixed with blood. For months together, night after mmediate suffocation, but was perfectly cured night, I have had to sit or be belstered up to obby using this Expectoraut." Mrs Dilks, of Sa. tain my breath. The weakness and debility caused by such constant expectoration, frequently brought me to a state bordering on death. It has been a matter of astonishment to my family and friends that I am here to write this to you. I have had skilful physicians to attend me, and every thing done that was thought likely to give me relief, without any beneficial effect. Last winter I had another severe attack of Inflamation of the Lungs, which I fully expected would be the lust. I then considered my cuse as past the aid of medicine, when I was persuaded to call on Doctor Juyne. With the assistance of Divine Providence, through him, I was once more raised from my bed, but the coughing and wheezing wearied me day and night. He advised me to use his Expectorant. I did so, with a strong hope that, as it had cured many of my acquaintences of various diseases of the Lu gs, it might at least mitigate my sufferings. Need I say how gratified I felt? It has EFFECTUALLY CURED me. As. soon as I commenced taking it, I found it reached my case, and I began to breathe with more freedom. My expectoration became more easy, and my cough entirely left me. I now feel as well as ever I did in my life, and am better than I have been for the last sixty YEARS. Last summer I spit a great deal of blood; now, thank God, I am perfectly cured. Now, Sir, after suffering so long, and finding at last such signal relief from
