DR. RELFE'S Botanical Drops.

It is of a person who has had a Fever Sore for more than twelve years, which has resisted the skill and medicines of the best Physicians-being applied to about five weeks since, I advised the use of fore purchasing: I take this opportunity to the Botanical Drops, and they have had a most surprising effect, having reduced the leg (which was dreadfully swollen) more than six inches in circumference, and I think will effect a perfect cure; I am now out of the Drops, and wish you to send me some by the bearer."

In 1831, an Agent writes, -"In another case (the Botanical Drops)undoubtedly had the happiest effect. In this instance the desease appeared to pervade the whole system. It was undoubtedly of a scrofulous nature. The glands in various parts became enlarged, hard and very painful, and became otherwise so affected with the disease as to be under the necessity of giving up business and confine himself to his room for several weeks; one or two of the swellings suppurated, and discharged a considerable quantity. The bones, the physician told him, were also materially diseased. It was precisely under these circumstances that he commenced the use of the Botanical Drops, andas he used nothintg else, (with the exception of some purgative occasionally) and perfectly restored to health, we are (of course) warranted in drawing the con
