When r soldier in the American camp, in 1778, I, with many others, (owing to great exposure,) had a violent attack of disease of the Lungs, by which I was disabled from duty for a long time. I have had skilful physicians to attend me, and every thing done that was thought likely to give me relief, without any beneficial effect. Last winter I had another severe attack of Inflamation of the Lungs, which I fully expected would be the last. I then considered my case as past REV. JOHNATHAN GOING, D. D.
