But in all these propositions they are dishonest; and even if they succeded in getting Harrison men to vote for their candidates, cording to their proposition, they would not vote as they had proposed, but would cheat our friends and vote the whole of their own ticket .--That their intention is to cheat, is proved, by the fact that one of these knaves is known to have made the same proposition, to at least ten individuals, after he had made an agreement of this and with one of our friends. But if there were no reason to apprehend knavery on the part of our opponents, such a system of "ewapping," is not only highly injudicious and
