from a violent Cough and difficulty of breathing. Your ufter year I have expectorated over a gill a day; often much more, and sometimes mixed with blood. For months together, night after night, I have had to sit or be belstered up to obtain my breath. The weakness and debility caused by such constant expectoration, frequently brought me to a state borderin on death. It has been a matter of astenishment to my family and friends that I am here to write this to you. I have had skilful physicians to attend me, and every thing done that was thought likely to give me rolief, without any beneficial effect. Last winter I had another severe attack of Intlamation of the Lungs, which I fully expected would be the last. I then considered my case as past the aid of medicine, when I was persuaded to call on Doctor Jayne. With the assistance of Divine Providence, through him, I was once more raised from my bed, but the coughing and wheezing wearied me day and night. He advised me to use his Expectorant. 1 did so, with a strong hope that, as it had cured many of my acquaintances of various diseases of the Lu gs, it might at least mitigate my sufferings. Need I say how gratified I felt? It has effectually cured me. As soon as I commenced taking it, I found it reached my case, and I began to breathe with more freedom. My expectoration became more easy, and my cough entirely left me. I now feel as well as ever I did in my life, and am better than I have been for the last sixty years: Lustoum-
