

**PARLEY.**

IT SPOILS A MAN TO MARRY HIM. BY A MARRIED LADY. Believe me, dear girl, this maxim true, In precept and in practice too, That it spoils a man to marry him. The creature never ought to go Beyond a honey moon or so; If they survive that, they will show That it spoils a man to marry him.

When first he kneels before your feet, How soft his words! his looks how sweet! But it spoils a man to marry him. When once a late consent he'll ring, And get your finger in the ring, Oh! then he's quite another thing, It so spoils a man to marry him.

Have you a fancy!—You must drop it, A will, it may be!—You must lope it Before you think of marrying; And even if you venture then, Select the very worst of men; If not, nine chances out of ten, 'Twill spoil the wretch to marry him!

**SYNONYMY.** A Frenchman, who English would learn, Got hold of an old dictionary, But had not the sense to discern, How the meanings of words often vary; He found that "to squeeze" and "to press" Were both pretty much the same thing; So he thus a friend did address: "Pray squeeze that young lady to sing." Like most of the French, he was not At trifles accustomed to stickle; Soon in a fresh huddle he got, For he thought "to preserve" was "to pickle;" So thus he took leave at the door— "To see you, dear lady, I glad am, And till we meet happy once more, Kind Providence pickle you, madam."

**DANCING.**—"I am an old fellow," says Cowper, in one of his letters to Hurd, "but I had once my dancing days, as you have now, yet I could never find that I could learn half so much of a woman's character by dancing with her, as by conversing with her at home, when I could observe her behaviour, unobserved at the table, at the fire-side, and in all the trying circumstances of life." We are all good when we are pleased; but she is the good woman who wants no fiddle to sweeten her.

**MITCHELL, THE FORGER.**—The Baltimore Sun states that the papers found in the possession of Mitchell, the "honorable" forger, were cursorily looked through by the police authorities; but they were found to consist of little more than elaborate chronicles of illicit armours, in high places and low places, detailed with a precision and fulness truly disgusting. According to these autobiographical sketches, this distinguished "honorable" has long lived a life of low lewdness and debauchery which would disgrace a state prison convict.

According to an official statement, with regard to the Prison statistics of New York, it appears that in 1830, when the population of the State was 1,919,404, there were 1,069 convictions, which gives one conviction for 1,812 persons. In 1840, when the population was 2,432,635, there were 1,343 convictions, which gives one conviction for 1,811 persons.

**THE DIFFERENCE.**—A negro preacher once observed to his hearers at the close of his sermon, as follows:—"My obstinacious brethren, I find it's no more use to preach to you than it is for a grasshopper to wear knee buckles."

**LOVE & LAW.**—An exchange paper says that the difference between love and law, is this; in love the attachment precedes the declaration; in law, the declaration comes first. There is also another difference. In love, the Plaintiff generally pays the costs of suit and the damages if he succeeds in his action—whereas, in law, the defendant pays.

**GEN. WILLIAM HENRY HARRISON.** President of the United States, Died at Washington City, April the Fourth, In the year of Our Lord, One Thousand Eight Hundred and Forty One.

The foregoing is composed from the letters found in the following extraordinary words, which were the last ever uttered by our late Chief Magistrate. "Tis no more singular than true. "Sir—I wish you to understand the true principles of the Government—I wish them carried out—I ask nothing more."—Northampton Courier.

**REMARKABLE APPLICATION OF GALVANISM.**—At the last meeting of the Horticultural Society, a paper was read on an ingenious method of preserving plants from bugs and snails, by means of a piece of zinc four inches wide with a band of copper one inch wide fastened on the centre with fine nails. This being cut into convenient lengths and placed round the plants to be protected, the snail or bug crawls up the zinc until its horns touch the copper, when it immediately feels a galvanic shock and retreats, and as often as it makes the attempt it is shocked and driven back, the main body of the snail acting as a conductor of electricity.—English paper.

**Active Trade.**—On the 13th, inst., twenty-three steamboats and other vessels arrived at Buffalo from the lake. Among other articles on-board, there were 17,749 barrels of flour, 10,953 bushels of wheat, and over 3000 barrels of Pork.

An English paper says that Fanny Elliot is 30 years of age and has a son 16. The Army of the United States is composed of 10,000 men, said to be well disciplined. The support of each man costs \$400 a year.

**ALBANY LOCK HOSPITAL.**  
**SYPHILIS.**

*Omnis Principis obsta.*  
ENCOURAGED by the uniform success attending his peculiar method of treatment, for the prevention and cure of venereal complaints, and confirmed by the experience of many years in a widely extended practice, sensible also of the happy effects resulting to the community, from having confined himself entirely to the study and care of a class of diseases which there is every reason to deplore are too prevalent.

**Dr. COOKE** continues to direct his sole attention to the treatment of every disorder that occurs from imprudence, whilst under the influence of intemperance or any other baneful excitement, and to the cure of those dreadful maladies, which too often arise therefrom. These sometimes commence in a most simple form, and through neglect or injudicious treatment afterwards assume a more aggravated state of disease, occasioning abscess elevation, nodes, caries of the bones, pseudo syphilis, cancer, prostatic old age, and too often end in a protracted incurable state of miserable existence.

**Dr. COOKE** though professing exclusively the study and cure of these particular complaints, deems it proper to inform his friends and the public in general, in justice to his professional character, that he was properly educated and regularly initiated into every branch of the profession as a general Practitioner in Europe.

**Dr. COOKE** may be consulted therefore at all times, as usual at his offices, which are properly fitted up and arranged for confidential consultation. Country patients residing at a distance—and all other patients who prefer writing instead of a personal interview—can be treated with equal success on describing minutely their case by letter, and enclosing a remittance for advice and medicine. There will be no difficulty in sending packages to any part of the United States, and the medicines will be securely packed, carefully protected from observation, and sent without delay to the place appointed.

**PROPOSITION WORTH CONSIDERING.**

To induce persons to act as agents for procuring subscribers to the **RIFLE** we submit the following proposition:  
For \$35 we will send one hundred copies to not more than ten addresses.  
For \$15 forty copies to not more than four.

For \$5 twelve copies to one address. This will afford over twenty-five per cent to agents for their trouble, and as every one can procure one hundred or more subscribers, in their own neighborhood, he will be doing a fair business in these hard times. Any one to make it a business for a month could procure two or three thousand at least, as no body will refuse to pay fifty cents for a paper for six months during so exciting a campaign as the approaching one will undoubtedly be.

**Garlegant's Balsam of Health,**

Prepared only by the sole proprietor, **JOHN S. MILLER, Frederick, Md.**

THE subscriber has just received a further supply of this valuable medicine, which has gained a celebrity which few other articles has ever received in so short a time as this; the sale of which, has constantly increased, and will continue to increase, as its merits are made known. This celebrated **BALSAM OF HEALTH**, is a medicine and vegetable compound, warranted a safe and effectual remedy for the cure of Dyspepsia, and for the whole train of diseases resulting from, and connected with a disordered condition of the stomach and liver, or derangement of the digestive functions. As a family medicine it stands unrivalled, and should be possessed by all heads of families, particularly, by all those that are subject to a constipation of the bowels: it operates as a gentle aperient, gives a tone and action to the stomach and bowels, and enlivening and invigorating the whole system. This Balsam of Health does not contain a particle of Mercury, but it is composed altogether of vegetable matter, which renders it perfectly harmless, and it is no hindrance to business, nor any proper customary employment and habits. The proprietor could give a great many certificates of cures performed by this medicine in this advertisement, if it did not occupy so much room; therefore he deems it quite unnecessary, as all those who wish to see them can, by applying to his agent in this place.

**DR. JAYNE'S EXPECTORANT.**—This is the most astonishing and wonderful cure that have ever been known. All who have ever used it for Asthma, Coughs, Spitting of Blood, Hooping Cough, Croup or Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain and Soreness of the Breast, difficulty of Breathing, and every other disease of the Lungs and Breast, can and do attest to its usefulness. Bronchitis, a disease which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of Consumption, is always cured by it. The usual symptoms of this disease (Bronchitis) are Coughs, Soreness of the Lungs or Throat, Hoarseness, Difficulty of Breathing, Asthma, Hectic Fever, a spitting up of Phlegm or mator, and some times blood. It is an inflammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run through every part of the Lungs. This Expectorant immediately suppresses the Cough, Pain, Inflammation, Fever and Difficulty of Breathing, and produces a free and easy Expectoration, and a cure is soon effected.

It always cures Asthma—two or three large doses will cure the Croup or Hives of Children, from fifteen minutes to an hour's time. It immediately subdues the violence of Whooping Cough; and effects a speedy cure. Hundreds who have been given up by their physicians as incurable with "Consumption," have been restored to perfect health by it.

**REV. JOHNATHAN GOING, D. D.** President of Granville College, Ohio, says—"I was laboring under a severe cold, cough and hoarseness, and that his difficulty of breathing was so great that he felt himself in imminent danger of immediate suffocation, but was perfectly cured by using this Expectorant." Mrs. Dilks, of Salem, N. J. was cured of Asthma, of twenty years standing, by using two bottles of this medicine.—Mrs. Ward, also, of Salem, was cured of the same complaint by one bottle. A young lady, also of Salem, who was believed by her friends to be far gone with Consumption, was perfectly restored by three bottles. Dr. Hamilton, of St. James, North Carolina, was greatly affected by a cough, Soreness and soreness of the lungs, and on using a bottle of this medicine, found permanent relief.

The following certificate is from a practicing Physician, and a much respected Clergyman of the Methodist Society, dated  
Modest Town, Va. August 27, 1839.  
Dr. Jayne—Dear Sir—I have been using your Expectorant, extensively, in my practice, for the last three months, and for all attacks of cold, inflammation of the lungs, consumption, asthma, pains and weakness of the breast, it is decidedly the best medicine I have ever tried.

Very respectfully yours,  
**R. W. WILLIAMS, M. D.**  
Numerous other certificates might be added, out the above are considered sufficient evidence of its great usefulness.

**JAYNE'S**  
**CARMINATIVE BALSAM**

IS a certain, safe and effectual remedy for Dysentery, Diarrhoes, or Loosness, Cholera Morbus, Summer Complaint, Cholera, Griping Pains, Sour Stomach, Flatulency, &c. &c. and all Spasmodic and Nervous Diseases, as sick and Nervous Headach, Hyetaria, Cramp, &c. &c.

This is one of the most efficient, pleasant and safe compositions ever offered to the public for the cure of the various derangements of the stomach and bowels, and the only article worthy of the best confidence for curing Cholera Infantum or Summer Complaint; and in all the above diseases it really acts like a charm.

All persons are requested to try it, for there is "no mistake" about its being one of the most valuable family medicines ever yet discovered.—It has cured thousands, and certificates have been received from Physicians, Clergymen, and families of the first respectability, bearing the strongest testimony in its favour, too numerous to publish.

cines ever devised for the restoration and preservation of the Hair, nothing has been found equal to Jayne's Hair Tonic. It seldom fails to restore the hair to health and beauty. Many who were bald a few months ago, can now exhibit luxuriant heads of hair by the use of it.

Copy of a letter from Dr. S. S. Fitch, Philadelphia, May 10, 1839.  
Dr. Jayne—Dear Sir—I feel that I can hardly say enough to you in favor of the Hair Tonic, prepared by you. My hair had been falling off about two years, and had become very thin threatening speedy baldness, when I commenced using this remedy. In about one week it ceased to fall off.

I have used it now about three months, and have as full and thick a head of hair as I can possibly desire. I have recommended it to a number of my friends, who all speak well of it. If faithfully employed, I have no doubt of its general success. I must add, that before using the Tonic, I had tried almost all the various articles employed for the hair, such as the Macassar Oil, Oil of the different preparations of Bears Oil, Vegetable Hair Oil, &c. &c. without experiencing much, if any benefit.

Respectfully yours, **S. S. FITCH,**
