

ARRIVAL OF THE ACADIA. FIFTEEN DAYS LATER.

No certain news of the President steamship—Reports that the wreck had been seen—Great agitation in the Corn Law question in England—Espartero chosen Regent of Spain—The Chinese difficulties still unsettled.

Boston, June 2d, 1841. The British Royal Mail Steamship Acadia arrived at the Cunard wharf this morning, at one o'clock, and took us somewhat by surprise.

She has proved herself worthy of her fame; having made the passage in thirteen days and a half. She left Liverpool on the 19th and has had good weather most of the time; having seen only one iceberg.

The Great Western arrived at King's Road on the 14th, thus completing her home voyage in 13 days, and fairly beating the Columbia.

The steamship Columbia arrived at Liverpool on the 15th, having made the passage in fifteen days. She had good weather most of the way.

The Steamship President had not arrived and no certain tidings had been obtained from her. Every breeze from the broad Atlantic, to the anxious watchers, gave signs of woe that all was lost.

THE STEAMER PRESIDENT. No ray of hope remaining—Probable intelligence that the President has struck on an iceberg, and foundered—Tracks of the Wreck.

The schooner Corsair, Capt. Morsey, has arrived at Halifax, from Fortune Bay, N. F., in seven days. The Corsair reports that six days before sailing, a boat belonging to Fortune Bay arrived there from St. Pierre, the Skipper of which reported that a vessel from France arrived at that Island, which had picked up the Captain and sixteen seamen of an American Steamer, and had reported that fifty six other persons who had been in the Steamer, were lost; the said vessel had founde in consequence of running foul of an iceberg; the skipper stated that he had seen the captain of the Steamer at St. Pierre.

GREAT BRITAIN.—The business of the manufacturing towns still continue dull, and a great many workmen were out of employ.

The principal subject of excitement was the proposed repeal of the corn laws; but no definite action was had on the subject in Parliament.

CHINA.—An express in anticipation of the overland mail, arrived in London on the 6th ult, from which we learn that the China difficulty is still unsettled. Captain Elliot is severely censured by the English opposition papers for his dilatory conduct. The following epitome of the contents of the mail, we cut from the London Post of the 6th ult.—

The trade had not been re-opened on the 2d February, as agreed upon, and every thing was still in uncertainty. Keshen and Captain Elliot were humbugging one another, but it is said the Canton authorities were not pleased with the arrangement, and there was a rumor of Keshen being likely to be superceded.

Some think that a final settlement will not be obtained without further hostilities. It has been an ill-fated, ill-directed expedition, attended with a most unnecessary waste of British life, and nothing is yet really settled, so as to admit of the English venturing up to Canton.

Hong Kong had been proclaimed a British settlement. The smuggling of tea was active and easy, the article bad and dear. Two ships of London were nearly laden with them. On the other hand gentlemen from China say that there is plenty of tea in Canton, and they are confident in their opinion that tea will be expected this year as usual, the probability being that Captain Elliot will make any sacrifice to obtain that object. The troops in Chusan were still sickly.

A letter from China states in confirmation of the above that nothing was settled up to the 11th of February.

LOSS OF THE WILLIAM BROWN. Dreadful Shipwreck.—HAVRE, May 10. The Louis Philippe, New York packet ship has this moment arrived. Information having reached the town that some shipwrecked seamen were on board, the report became general that they belonged to the President, and the excitement was beyond all description. On the arrival in dock, however, a strong body of the gendarmes were in waiting, and immediately took into custody the mate and eight of the crew of the ship William Brown, bound from Liverpool to Philadelphia, which was sunk by an iceberg in the latter part of last month. It appears, from the vessel struck thirty-three passengers, the mate, and eight of the crew took to the long boat; the captain, three of the crew and eleven passengers, took to the jolly boat; all the rest sunk with the vessel. The boats parted in the night. Some days after the mate and crew determined (as they say) in order to lighten the boat to throw seventeen of the passengers overboard, which they accomplished, and some of the most horrid and revolting scenes took place. Some clung to the sides of the boat, praying for mercy; but their hands were cut off, and they were pushed into the deep. Fifteen ladies and two men remained in the boat. One hour after the massacre the Crescent fell in with the boat, and saved the survivors of this horrid deed. The passengers remained on board the Crescent; the crew arrived in the Ville de Lyon; they are now under examination before the American consul.—The result I will not fail to communicate to you, but you may rely on what I have already stated. The jolly boat has not been heard of. The dates of the Ville de Lyon have been anticipated by the Acadia.—Morning Post.

WHAT IN MICHIGAN.—According to the census in Michigan, in 1839 produced one hundred and fifty thousand more bushels of wheat than the five States of Massachusetts, Connecticut, New Hampshire, Rhode Island and Vermont together.

VOLUME TWENTY-THREE. GODEY'S LADY'S BOOK AND Ladies' American Magazine.

Mrs. S. J. Hale and Mrs. Lydia H. Sigourney, Editors. Miss E. Leslie, a contributor to each number.

THE present volume commences with two Steel Engravings by A. L. Dick. Sunday Morning and the Sale of the Pet Lamb. Also, a beautiful coloured Fashion Plate.

This is an outlay for Embellishments unprecedented in this or any other country. The great beauty of the pictures will give pleasure to every lover of the beautiful, and it shall always be our aim to procure such subjects for the engraver as will, even without the poetical illustration, tell their own tale. While thus giving attention to that which pleases the eye, we will show that equal attention has been paid to catering for the mind.

Mrs. L. H. Sigourney, who has lately returned from Europe, has made such arrangements as will ensure us a supply of articles from the best Female Writers of England.

Mary Russell Mitford, Mrs. S. C. Hall, Maria Edgeworth, (their first contributions to an American periodical,) will each contribute to the Ladies' American Magazine; from the two last we now have articles on hand. The Hon. Mrs. Norton will also be a contributor.

While from abroad we are receiving such assistance as will serve to make an agreeable variety, we must not forget to mention that we are now publishing an article from an eminent writer of our own country—the author of "Losing and Winning," and "Sensibility." This tale we are certain will cause as great a sensation as did the publishing of "Losing and Winning," which was republished in half the papers of our country.

Let it not be forgotten that Miss Leslie contributes to the Lady's Book only. No other Magazine has articles from her pen. She commences in this No. another of those graphic sketches that give so much pleasure to our readers, "Leonilla Lynmore."

While paying a proper tribute to the great talents of the English ladies previously mentioned, be it remembered that we have our own Hale, Sigourney, Leslie, Parsons, Embury, Hentz, and a host of others, to mention which we have neither time nor space.

Godey's Lady's Book has been favored from the first with a list of writers that no other Magazine can equal. It has, also, what cannot be said of any other publication, Exclusive Contributors.

The list of subscribers is larger than any monthly publication in this or perhaps any other country.

Thier's History of the French Revolution. The subscriber will commence on the 1st of July the publication of Thier's History of the French Revolution. It will be published weekly, and be completed in sixty numbers of twenty-eight pages each. It will contain thirteen fine engravings on steel, by A. L. Dick, Esq., well known by his engravings in the Lady's Book. The paper is of the finest quality, large type, and a cover to each number. The sale in France of this book is unparalleled, forty thousand copies having been already sold, and a new edition called for.—Price per copy, \$7 50.

WAVERLY NOVELS. By WALTER SCOTT, for FIVE Dollars. Waverly Novels, with a fine portrait on steel of the author, will be furnished complete to the subscribers of the Lady's Book, on receipt of a remittance of \$5.

This is printed after the Edinburgh edition, revised by the author himself, which was published in forty-eight volumes, and cost seventy-two dollars, and will contain every word comprised in the Edinburgh edition.

The work will appear in weekly Numbers, comprising an entire novel, printed on good paper, and will be completed in twenty-five numbers, making five large octavo volumes. Title page and portrait will be printed with the work.

In all cases, the money for any of the above works must be positively received, before a copy is sent.

ALBANY LOOK HOSPITAL. SYPHILIS. Omnes Principiis obsta. ENCOURAGED by the uniform success attending his peculiar method of treatment, for the prevention and cure of venereal complaints, and confirmed by the experience of many years in a widely extended practice; sensible also of the happy effects resulting to the community, from having confined himself exclusively to the study and cure of a class of diseases which there is every reason to deplore are too prevalent. Dr. COOKE continues to direct his sole attention to the treatment of every disorder that occurs from impudence, whilst under the influence of intemperance or any other baneful excitement, and to the cure of those dreadful maladies, which too often arise therefrom. These sometimes commence in a most simple form, and through neglect or injudicious treatment afterwards assume a more aggravated state of disease, occasioning abscess ulceration, nodes, caries of the bones, pseudo syphilis, cancer, prostrated old age, and in a protracted incurable state of miserable existence. Dr. COOKE though professing exclusively the study and cure of these particular complaints, deems it proper to inform his friends and the public in general, in justice to his professional character, that he was properly educated and regularly initiated into every branch of the profession as a general Practitioner in Europe.

Dr. COOKE may be consulted therefore at all times, as usual at his offices, which are properly fitted up and arranged for confidential consultation. Patients who prefer writing instead of a personal interview can be treated with equal success on describing minutely their case by letter, and enclosing a remittance for advice and medicine. There will be no difficulty in sending packages to any part of the United States, and the medicines will be securely packed, carefully protected from observation, and sent without delay to the place appointed. OFFICES No. 8 Norton street, near Green street, Albany, New York. May 5, 1840. 1y.

LOG CABIN RIFLE. A PROPOSITION WORTH CONSIDERING. To induce persons to act as agents for procuring subscribers to the RIFLE we submit the following proposition. For \$25 we will send one hundred copies to not more than ten addresses. For \$15 forty copies to not more than four. For \$5 twelve copies to one address. This will afford over twenty-five per cent agents for their trouble, and as every one can procure one hundred or more subscribers, in their own neighborhood, he will be doing a fair business in these hard times. Any one to make it a business for a month could procure two or three thousand at least, as no body will refuse to pay fifty cents for a paper for six months during so exciting a campaign as the approaching one will undoubtedly be. Address, H. MONTGOMERY, Harrisburg, Pennsylvania. March 30, 1841. 3t-1

Garlegant's Balsam of Health, Prepared only by the sole proprietor, JOHN S. MILLER, Frederick, Md.

THE subscriber has just received a further supply of this valuable medicine, which has gained a celebrity which few other articles have ever received in so short a time as this; the sale of which, has constantly increased, and will continue to increase, as its merits are made known. This celebrated Balsam of Health, is a medicinal and vegetable compound, warranted a safe and effectual remedy for the cure of Dyspepsia, and for the whole train of diseases resulting from, and connected with a disordered condition of the stomach and liver, or derangement of the digestive functions. As a family medicine it stands unrivalled, and should be possessed by all heads of families, particularly by all those that are subject to a constipation of the bowels, indigestion to the stomach and bowels, and uninvigorating and invigorating the whole system. This Balsam of Health does not contain a particle of Mercury, but it is composed altogether of vegetable matter, which renders it perfectly harmless, and it is no hindrance to business, nor any proper customary employment and habits. The proprietor could give a general account of the diseases cured by this medicine in this advertisement, if it did not occupy so much room; therefore he deems it quite unnecessary, as all those who wish to see them can, by applying to his agent in this place. DR. JAYNE'S EXPECTORANT.—This invaluable medicine is daily effecting some of the most astonishing and wonderful cures that have ever been known. All who have ever used it for Asthma, Coughs, Spitting of Blood, Hooping Cough, Croup or Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain and Soreness of the Breast, Difficulty of Breathing, and every other disease of the Lungs and Breast, can and do attest to its usefulness. Bronchitis, a disease which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of Consumption, is always cured by it. The usual symptoms of this disease (Bronchitis) are Coughs, Soreness of the Lungs or Throat, Hoarseness, Difficulty of Breathing, Asthma, Hectic Fever, a spitting up of Phlegm or matter, and sometimes blood. It is an inflammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run through every part of the Lungs. This Expectorant immediately suppresses the Cough, Pain, Inflammation, Fever and Difficulty of Breathing, and produces a free and easy Expectoration, and a cure is soon effected. It always cures Asthma—two or three large doses will cure the Croup or Hives of Children, in fifteen minutes to an hour's time. It immediately subdues the violence of Whooping Cough; and effects a speedy cure. Hundreds who have been given up by their physicians as incurable with "Consumption," have been restored to perfect health by the early use of this medicine. JOHNATHAN GOING, D. D. President of Granville College, Ohio, says—"I was laboring under a severe cold, cough and hoarseness, and that his difficulty of breathing was so great that he felt himself in imminent danger of immediate suffocation, but was perfectly cured by using this Expectorant." Mrs. Dilks, of Salem, N. J. was cured of Asthma of twenty years standing, by using two bottles of this medicine. Mrs. Ward, also, of Salem, was cured of the same complaint by one bottle. A young lady, also of Salem, who was believed by her friends to be far gone with Consumption, was perfectly restored by three bottles. Dr. Hamilton, of St. James, South Carolina, was greatly affected by a cough, Soreness and soreness of the lungs, and on using a bottle of this medicine, found permanent relief. The following certificate is from a practicing Physician, and a much respected Clergyman of the Methodist Society, dated Most Town, Va. August 27, 1838. Dear Sir—I have been using your Expectorant, extensively, in my practice, for the last three months, and for all attacks of cold, inflammation of the lungs, consumption, asthma, pains and weakness of the breast, it is decidedly the best medicine I have ever tried. Very respectfully yours, R. W. WILLIAMS, M. D. Numerous other certificates might be added, but the above are considered sufficient evidence of its great usefulness. Prepared only by Dr. D. Jayne, No. 20 South Third street, Philadelphia. Price 50 cts. Where also may be had Dr. Jayne's Carminative Balsam for the cure of Bowel Complaint, &c.—Tonic Vermifuge, for the removal of Worms, &c.—Sanative Pills, for Dyspepsia, Liver Complaints, and Female Diseases, &c. Also, Jayne's Hair Tonic, for the removal of Baldness and preservation of the Hair. For sale at the Drug Store of S. H. BUEHLER. Gettysburg, Feb. 18, 1840.

This is one of the most efficient, pleasant and safe compositions ever offered to the public for the cure of the various derangements of the stomach and bowels, and the only article worthy of the least confidence for curing Cholera Infantum or Summer Complaint, and all the above diseases. It really acts like a charm. All persons are requested to try it, for there is "no mistake" about its being one of the most valuable family medicines ever yet discovered.—Hundred! nay thousands, of certificates have been received from Physicians, Clergymen, and families of the first respectability, bearing the strongest testimony in its favour, too numerous to publish.

CERTIFICATES. This is to certify that I have used Dr. Jayne's Carminative Balsam very extensively in Bowel Complaints, and have not the least hesitation in declaring it superior to any preparation that I have met with, for the relief of those diseases. WILLIAM STEELING, M. D. Physician to the Cumberland, N. J. Almshouse. Bridgeton, July 19, 1836.

Dr. D. Jayne,—Dear Sir—Having made use of your Carminative Balsam in my family, and finding it to be admirably adapted to the complaint for which it is intended, I take pleasure in recommending it to the use of my friends and the public generally, believing those who are afflicted with any of these complaints will find relief in the use of this valuable medicine. ATTENTION BALD HEADS. NO APPOINTMENT FOR WIGS. Of all the remedies ever devised for the restoration and preservation of the Hair, nothing has been found equal to Jayne's Hair Tonic. It is so admirably adapted to the hair that it will grow thick and curly. Many who were bald a few months ago, can now exhibit luxuriant locks of hair by the use of it. Copy of a letter from Dr. S. S. FITCH. PHILADELPHIA, May 10, 1839.

Dr. Jayne,—Dear Sir—I feel that I can hardly say enough to you in favor of the Hair Tonic, prepared by you. My hair has been falling out, and I had become very thin, and had been threatening speedy baldness, when I commenced using this remedy. In about one week it ceased to fall off. I have used it now about three months, and have as full and thick a head of hair as I can possibly desire. I have recommended its use to a number of my friends, who all speak well of it. If faithfully employed, I have no doubt of its general success. I mean to continue the use of the Tonic. I had tried almost all the various articles employed for the hair, such as the Macassar Oil all the different preparations of Bear's Oil, Vegetable Hair Oil, &c. &c. without experiencing much, if any benefit. Respectfully yours, S. S. FITCH, No. 172 Chestnut street.

The Rev. LEONARD FLETCHER, Pastor of the Baptist Church, Great Valley, Pa. who has been using three bottles of the Hair Tonic, and has now a fine growth of new hair over all that part of his head where he was bald, writes—"My hair is growing finely. I assure you." L. FLETCHER. West Chester, Pa. March 2, 1839. Prepared only by Dr. D. Jayne, sole proprietor, No. 20 South Third Street, Philadelphia. Price \$1 a bottle. For sale at the Drug Store of S. H. BUEHLER. Gettysburg, Feb. 18, 1840.

COUGH, ASTHMA, SPITTING OF BLOOD of Sixty Years Standing, cured by Dr. Jayne's Expectorant! PHILADELPHIA, August 16th, 1838.

Mr. ATKINSON—Dear Sir: A few weeks ago I noticed in your paper, an account of the surprising success of Jayne's Carminative, in restoring a great number of passengers on board a Mississippi steamboat, to perfect health who were affected with Bowel Complaint. I was glad to see you notice it so kindly; you may rest assured it deserves the praise bestowed upon it. The benefit I have received from this medicine, more especially his Expectorant, induces me to state my case to you, for the benefit of those who are afflicted in the same way. It has been my misfortune, sir, to labor under a cough and asthmatical oppression, for more than half a century. When a soldier in the American camp, in 1778, I with many others, (owing to great exposure), had a violent attack of disease of the Lungs, by which I was disabled from duty for a long time. But more or less of this kind has since occurred, from a violent Cough and difficulty of breathing. Year after year I have expected over a gill a day; often much more, and sometimes mixed with blood. For months together, night after night, I have had to sit or be bolstered up to obtain my breath. The weakness and debility caused by such constant expectation, frequently brought me to a state bordering on death. It has been a matter of astonishment to my family and friends that I am here to write this to you. I have had skillful physicians to attend me, and every thing done that was thought likely to give me relief, without any beneficial effect. Last winter I had another severe attack of inflammation of the Lungs, which I fully expected would be the last. I then considered my case as past the aid of medicine, when I was persuaded, on the advice of a friend, to try the assistance of Divine Providence, through him, I was once more raised from my bed, but the coughing and wheezing worried me day and night. He advised me to use his Expectorant. I did so, with a strong hope that, as it had cured many of my acquaintances of various diseases of the Lungs, it might at least mitigate my sufferings. Need I say how gratified I felt? It has effectually cured me. As soon as I commenced taking it, I found it to be my relief, and I began to breathe with more freedom. My expectation became more easy, and my cough entirely left me. I now feel as well as ever I did in my life, and am better than I have been for the last sixty years. Last summer I spit a great deal of blood; now, thank God, I am perfectly cured. Now, Sir, after suffering so long, and finding at last such signal relief from Jayne's Expectorant, I feel anxious to inform my fellow sufferers who have been afflicted with this kind of disease, that they may be freed from this their affliction. I think this worthy a place in your paper, you will oblige me by noticing it. NICHOLAS HARRIS, SEN. No. 35 Lombard Street. For sale at the Drug Store of S. H. BUEHLER. Gettysburg, Feb. 18, 1840.
