The benofit I have received from this medicine, more especially his Expectorant, induces me to state my case to you, for the benefit of those who are afflic-

When a soldier in the American camp, in 1778, I, with many others, (owing to great exposure,) had a violent attack of disease of the Lungs, by which I was disabled from duty for a long time. Since that period until recently, I have never been free from a violent Cough and difficulty of broathing.
Your after year I have expectorated over a gill a day; often much more, and sometimes mixed with blood. For months together, night after night, I have had to sit or be belstered up to obtain my breath. The weakness and debility cauand by such constant expecteration, frequently brought me to a state bordering on death. It has been a matter of astonishment to my family and friends that I am here to write this to you. I have had skilful physicians to attend me, and avery thing done that was thought likely to give me relief, without any beneficial effect.
