#### HORSE-POWER AND THRASHING MACHINES

THE Subscriber takes pleasure in an nouncing that he is now prepared to furnish the Farmers of Adams and Franklin Counties with the best HORSE POWER AND THRASHING MACHINES ever put in operation in either of the above counties.— The advantages of the Horse-Power are obvious from the fact, that a much greater velocity of the cylinder of the Machine is acquired by a slower walk of the horses than in any other Machine now in use, and having greater leverage and less friction requires lighter draught. The superiors y of the Thrashing Machine consists in that of Thrashing more grain in any given tme with four men to attend it, than the Machines now in use do with seven men to

attend them. The above powers and Machines are permanently constructed, and will wear much longer than any heretofore offered to the public. The Shops in which they are manufactured are Mount Maria Furnance, near Millerstown, Adams county, and at Indian Springs, near Waynesboro', Frank-

lin county, Pa-All orders will be thankfully received and promptly attended to at either of the above shops. Farmers and others would do well to examine the above, previous to purchasing elsewhere.
