**Attention Farmers! THRESHING MACHINES.**

THE subscriber would invite the attention of the Agricultural community to the fact, that they are engaged in the manufacturing of

**Little's Patent THRESHING MACHINES,**

as also, a variety of other patents which they are disposed to sell upon such terms as will please all.

Now is the time to purchase.—Wheat and Rye are bringing good prices and are in great demand, and it will be good policy in Farmers to purchase Machines and get their wheat into market as early as possible. Call at WARREN & Co's Cheap Foundry and supply yourselves immediately.

**Important Notice!**

**COBEAN'S NEW PATENT COOK STOVE.**

THE Subscriber has just finished and put in operation a NEW PATENT COOKING STOVE, which he considers equal if not much superior to any other article of the same kind now in use. The wants of the community have been the cause which induced the inventor to take this matter in hand, and he flatters himself that he has accomplished that which others have failed to do, by producing an article which must and will be a great saving to every family that uses it. This Stove will suit large or small families and can be kept up with

**LESS FUEL and LABOR**

than the Hathaway or any other Stove now being used. Washing, Baking, Ironing, Cooking and in fact all the culinary operations of a large family can be kept going at one and the same time, without any extra trouble to the person attending it. Besides the saving of fuel, the difference in the prices of this stove is a material consideration, being at least twenty per cent. less than the "Hathaway" Stove.

A. COBEAN.  
April 26, 1845. 1f-9

**SUPERIOR COOK STOVE.**

THE attention of the public is respectfully called to S. BENTZ'S FARMER'S COOK STOVE as an article superior to any yet offered to the public for cooking purposes.

It was got up expressly to answer the wants of the Farmer, and will not fail to please all who may require a good sized COOK STOVE. One of the many advantages possessed by this Stove is, that water, apple butter, clothing, &c., can be boiled in a large copper kettle, at the same time whilst cooking is going for 20 or 30 persons. It is decidedly superior for baking, the heat being completely under the control of the cook who can apply it to the bottom as well as at the top of the oven, and thus bake with perfect regularity. It is unnecessary to give any further detail of its advantages. Please refer to the subjoined certificate from Wm. P. Elliot, Esq., Patent Agent, Washington City. Many testimonials equally flattering could be furnished, but this may suffice. Those who want a superior Cook Stove, will do well to try this article—they are warranted or no sale.

S. BENTZ.  
Washington, Md., May 10, 1843.

WASHINGTON, May 3, 1843  
To SAMUEL BENTZ, Esq.  
Dear Sir:—I have tried the Cooking Stove that you sent me, and am well pleased with its performance. My expectations are more than realized. I believe it will perform more cooking in less time, and with less fuel than any of the various Cooking Stoves that I have tried during the twenty five years connection with the Patent Office. Its merits need only be more generally known to insure its fame throughout the country. I am a long satisfied in the culinary department of my domestic establishment—for which I acknowledge myself indebted to your genius and enterprise.

I remain very respectfully, yours, &c.,  
WM. P. ELLIOT, Patent Agent
