POETRY. From "The Cotter's Sunday." A WISH. O for a sweet, secluded spot

On some lone, lovely isle, Where all my cares might be forgot, And peace forever smile?

One kindred heart, I'd ask no more, My life my love to share; And that one heart within its core To nourish love and prayer.

There would we bloom, like sweet twin flowers, Beneath pure pleasure's ray;
And there at last, mid autum showers, Like flow rets fade away.

Our withered leaves, low in the tomb, Together mingling lie; The fragrance of our summer bloom Be wafted to the sky.

BRIDAL WISHES.

BT BARRY CORNWALL.

Sweet be her drerms, the fair, the young! Grace, beauty breathe upon her! Music, haunt thou about her tongue! Life, fill her path with honor !

All golden thoughts, all wealth of days, Truth, Friendship, Love surround her ! So may she smile till life be closed, And angel hands have crowned her !

flour, independent of other freight, We counted in our harbor this morning 170 canal hoats loaded with flour. These carry, as we learn at the collector's office, from 450 to 800 barrels each, averaging at least 600 barrels. This would make a totil of 102,000. "Add to this amount 10 large tow boats loaded, and several vessels loaded and loading, and it will make a total of about 150,000 barrels afloat. Many rods of the dock are covered four tier deep with flour-at least 300 barrels. Besides these items, immense tows have left for N. York for the last three days, and all our flour dealers have their warehouses packed, From these data, some idea may be formed of the immense amount of this all important article which has been poured into our

eity for the last eight or ten days." Speaking of the capabilities of the Western tates, the Albany Argus has the following paragraph :

"THE TEEMING WEST .- This name has been frequently given to the West, but it has never been so fully realized as during this fall. The arrival of 1,000,000 barrels of flour at the Hudson river in two months, is but an earnest of the future. It is hardly too much to say that the imagination can scarcely realize the fertility of the West. Michigan alone, under an aclive demand, could send 1,000,000 of barrels of flour to market; and yet that State does not comprise one-twentieth of the wheat land of the West, The amount of production is absolutely illimitable. It is ven now considered enormous when 2.-800,000 barrels of flour come down by the Erie canal in the season of 1845 : but that amount, if a market could be obtained.
