Apprentice Wanted.

An active, intelligent, industrious lad, desirous of learning the Printing Business, can obtain a situation in this office, by making early application.

Wood! Wood!

☞A few cords of good oak and hickory Wood will be taken at this office in payment of subscription to the Star.

Are you Assessed!

If not, attend to it at once. Let every Whig voter in the county see that his name is on the Assessor's list at least TEN DAYS previous to the second Tuesday of October.

Meditation.

By the proceedings in the English Parliament received per the steamer Cambria, we learn that the British Government has offered to mediate between Mexico and the U. States. The statement was made by Lord Palmerston in reply to an inquiry of Lord Bentick, as to the intentions of her Majesty's Government in the matter.

REJECTED.—Advices from Washington state that at a meeting of the Cabinet on Wednesday the proposition of England, offering to mediate, was declined! The proposition of Mexico that we withdraw our land and naval forces previous to entering upon negotiations was also rejected.

World's Convention.

☞The steamer Cambria brings intelligence of the doings of that long talked of body, which assembled in London with the view of forming a "Christian Alliance." Its sessions were attended by a large number of distinguished Divines including about sixty delegates from the U. States—Among the persons who participated in the discussions of the Convention, we observe the name of our townsman, Rev. Dr. Schmucker. The friends of Dr. S. will be pleased to learn that he returns with improved health, and that he was expected to arrive at New York in the Great Western to-day.

Conforce Meeting.

In to-day's paper will be found the proceedings of the Whig Conferees, who met at Abbottstown on Saturday last. It will be seen that Dr. NES, of York, has been recommended to the support of all who desire a Repeal of the British Tariff, a Repeal of the iniquitous Sub-Treasury, and a return to the good old line of National Policy marked out by the Fathers of the Republic. The action of the Conferees will commend itself to the unanimous approval of our friends, and we pledge the Dr. such a support in this county as shall astound his political opponents. The issue is now fairly made up, and we hope to see it as fairly met: —NES AND PROTECTION TO AMERICAN INDUSTRY—RANKIN AND THE BRITISH TARIFF of 1846! Voters of Adams, which will you have an[y difficulty in choosing between them!

☞It will be seen that Resolutions in favor of Mr. COOPER as the Whig candidate for Governor were unanimously adopted by the Conferees.

Rock Creek Farm,

By reference to our advertising columns it will be seen that the "Rock Creek Farm," the Estate of Wm. McClellan, dec., will be offered for sale the last time on Tuesday the 6th of October next, and that it will *positively* be sold on that day. The Farm is a valuable one, and, from its desirable location and excellent improvement, presents unusual attraction to capitalists. Those desirous of making a profitable investment, would do well to attend the sale.

☞Our neighbor of the *Compiler* quotes the N. Y. Courier as originating the remark that the Pennsylvania Germans were "ignorant Dutch asses, without sense enough to judge right from wrong!" On the wrong track entirely. The Courier merely borrowed the imputation from Col. Stevens, the Locofoco U. S. Senator from Arkansas, now in debate before that body, and afterwards reiterated by the Charleston Mercury, the organ of Southern Free-trade Locofocoism. The saddle may as well be put on the right horse.

☞The notes of the Lewistown Bank are selling at a discount of 10 or 15 per cent. in Philad.

The Abolitionists of Chester county have determined not to nominate a county ticket.

Government Interference.

We invite the serious attention of our readers to the communication of "Berwick," in another column, in relation to a most dishonorable and censurable agency of one of the minions of power, who, leaving his post at Washington city, canvassed our county for several weeks previous to the meeting of the Locofoco Convention, in order to DEFEAT MR. M'CLEAN, who had rendered himself obnoxious to the British Free-trade Rulers at Washington by his manly and consistent support of the Tariff of 1842, and to secure the nomination of a FREE-TRADE MAN. The facts charged WE KNOW TO BE TRUE. We have the names of the parties, and DARE A DENIAL. We are but little disposed to interfere in the family quarrels of our political opponents; but when the General Government steps aside from its legitimate sphere and throws its pensioned agents into the political field, to control the deliberations of the people in their primary assemblages and crush those who may have too much manliness and honesty to resign the knee where thrift may follow fawning," it is high time that the people of all parties arouse themselves to a true sense of the official insolence that characterises their rulers, and shake off the servile despotism that is attempted to be imposed upon them, ere fetters shall have been applied to their thoughts or pollocks to their lips. What say the Democracy of Adams to this interference in their deliberations!

Withdrawn.

It is said that "there is many a slip 'twixt the cup and the lip," and so, no doubt, think Mr. Buchanan and his friends this time. Mr. M'Clean once beaten, all was deemed safe, and forthwith the Compiler ran up the Danner flag, calling upon the Democracy of York, at the risk of throwing the district into the hands of the "Federalists," to give in their adhesion. It was so given, and the Yorkers stood firm, and declared their determination to support Rankin, come what might. Thus stood matters until last week, when Mr. Danner, seeing nothing but defeat and disaster in the prospect, was compelled to beat a retreat; and accordingly, in Monday's Compiler, he abandons the field to Col. Rankin. It is generally understood that the York County Conferees were willing to nominate Mr. M'Clean, but that this proposition was at once declined by the Danner men, who preferred giving their support to a FREE-TRADE candidate in preference to an honest friend of Protection to American Industry.

Maine Election.

Returns of the recent election in Maine have been received from almost all the towns, and give us the gratifying assurance that Locofocoism has been completely routed in its strong hold. Mr. Dana, the Locofoco candidate for Governor, is elected by a majority against him of not less than FIVE THOUSAND—the vote standing Bronson, (Whig) 37,016; Dana (Loco) 30,226; Scattering 3,698. Neither candidate has a majority of the whole vote, there is of course no election by the people. It will be recollected that in 1841 Polk beat Clay in Maine 11,341, and had a majority of 6,505 over all others! Light is beginning to break in upon benighted Maine; another effort will emancipate her from the thraldom of Locofocoism.

The political complexion of the Legislature is as yet doubtful in consequence of a number of districts having failed to elect. We have returns of election to the House of 27 Whigs, 19 Locofocos, 1 Abolitionist, and 43 no choice—to the Senate probably 10 Whigs, and 7 or 8 Locofocos. The political character of the Legislature will of course depend much upon the result of the elections on second trial.

Hiram Belcher (Whig) is elected to Congress in the 3d district by a large majority; Messrs. Hammons and Wellman (Locos) probably succeed by small majorities. In the balance of the districts there is no choice.

Mormon War.

In a succeeding column we give the particulars of two engagements at Nauvoo between the Mormons and their enemies. However much disposed to condemn the absurdities of the Mormon religion, there can be but few right-minded persons who will not sympathise with them in their difficulties, and admire the manly courage displayed in defending their homes from the lawless aggressions of a lawless mob. A civil war has commenced, and much as we deprecate civil commotions, and upon all annuities over two hundred dollars, except those granted by this commonwealth and by the U. States, and upon ALL PROPERTY, REAL OR PERSONAL, (not taxed under existing laws) HELD, OWNED, USED OR OCCUPIED BY ANY PERSON, company, or corporation, in trust for the use, benefit, or advantage of any other person, company, or corporation, excepting always such property as shall be held in trust for other purposes—THREE MILLS UPON EACH AND EVERY DOLLAR OF THE VALUE THEREOF."

Farmers, Mechanics, and Working-Men, you will here perceive that a TAX is now levied upon EVERY SPECIES OF PROPERTY you happen to "own, use or possess"—whether it be your farms, or the product of your farms; whether it be your book accounts, or whether it be "flesh, fowl or fish"—all has been taxed to satisfy the voracious maws of the horde of cormorants who are feeding and fattening upon the patronage of the State Administration.

The public affairs of Pennsylvania have for years been under Locofoco misrule, and what has been the result? In sober seriousness, we would put the question to every individual who receives the visits of the tax-collectors in this county, what are the fruits of Locofoco Legislation? Have not your taxes been almost yearly increased, until they have now become almost intolerable? Let your every-day experience answer this question! And now cap the whole, the cattle in your stalls, the poultry in your yards, and the necessaries of life on your tables, are ALL subject to Taxation according to the Locofoco Tax Law, approved on the 28th day of April, 1840!

Is it not high time, Tax-payers of Pennsylvania, that you arouse yourselves from the unmanly apathy in which you have too long indulged, and speak in a voice of thunder to your unworthy and faithless public servants. Let the Ballot-box be your Trumpet through which to ring their doom in October next.

The Board of Canal Commissioners is the Arcean Stable that first requires cleansing at the hands of our citizens. None can gainsay that a complete renovation is strongly demanded in that apartment—the system of favoritism, which has too long been practised, must be abolished; and this can only be effected by voting FOR JAMES M. POWER, REFORM, AND THE TARIFF OF 1842, AND AGAINST WM. B. FOSTER, EXTRAVAGANCE, AND FREE TRADE!

☞The last *Compiler* speaks of economy and reform upon the Public Works in connection with the name of Wm. B. Foster. That would sound somewhat strange along the line of improvements, where familiarity with the CORRUPTION and EXTRAVAGANCE that have characterized the administration of Mr. Foster, has arrayed against him nomination large masses of his political friends.

Who is Right!

"If defects exist—if the interests of our State are not sufficiently protected by its present, *democratic* Pennsylvania can and at the hands of a democratic Congress, when that body shall assemble in December next, they can obtain relief or modification of it may be made as the wants of a great and powerful commonwealth shall require."

The above quote from the last article in the last *Compiler* intended to convince the faithful that the odious provisions of the British Tariff will be modified by the next Congress, if the dear people will only consent once more to send Locofoco Representatives to Washington. Now listen to what the N. York Globe, the organ of Locofocoism in N. York, says to this proposition, and then remember that the views of the Globe have been endorsed by the Washington Union:

"WE HAVE MADE UP OUR MIND TO STATE PLAINLY TO THOSE WHO WISH TO HOLD OUT ENDUCEMENTS TO PORTIONS OF THE DEMOCRACY OF PENNSYLVANIA, THAT THE NEXT CONGRESS WILL INCREASE THE DUTIES ON COAL AND IRON BEYOND THE WILL OCCUR. WE SAY TO PENNSYLVANIA, THAT THE NEXT CHANGE IN THE DUTIES OF IRON WILL BE MADE IN THE DESCENDING INSTEAD OF THE ASCENDING SCALE."

Mark this! people of Pennsylvania. Pass it round, and circulate it among your neighbors.

☞Some time since, Gov. Porter pardoned a criminal named *Wesley Flavell*, who had been convicted of homicide, upon the condition that he would leave the State. Flavell having lately returned, it was attempted to enforce the verdict, but he has been set at liberty by order of the Supreme Court of the State, which declares that a condition attached to a pardon is unconstitutional, and that on violating such conditions the verdict cannot be enforced.

☞The Administration at Washington is becoming quite restive under the fulfilment of Gen. Scott's predictions in regard to the war, which every unprejudiced intelligent man can see is likely to develope. The official organ is beginning to grumble at Gen. Taylor's delays, and *hopes* that old "Rough and Ready," will do something!

☞An immense mass meeting of the Whigs of Philadelphia was held on Wednesday last—Judge Sergeant presiding. A series of excellent resolutions were adopted, and the assemblage addressed by Messrs. Randall, Chandler, Morris, and others.

☞Jasper E. Brady, Esq. of Franklin county has been nominated as the Whig candidate for Congress in the district composed of Franklin, Perry, and Cumberland. Judge Herbison of Carlisle declines.

Another Tariff Man Overboard!

The Locofocos of Bucks county, like their brethren of Adams, have unhorsed the Free Trade banner, and intend bathing for the BRITISH TARIFF OF 1846! The Hon. John Ritner, member of Congress from that county, who with Mr. M'Clean, and the Pennsylvania delegation, voted to sustain the tariff of 1842, has been thrown overboard, and his place supplied by the nominee of Wm. Strong, a friend of the British Tariff! So we go! A queer "Democracy" this of our day, which proscribes men for advocating principles recognized by the government ever since its organization, and backs up with corruption at the head of the "Ticket. If the "Democracy" possess any popularity in Mr. Danner should secure to him thirty votes in the District, he will have done well, extremely well. Mark the prediction! I repeat it: If the Hon. John Ritner obtains 30 votes in the ballot box of Hamilton township, at the election on the second Tuesday of October next, I say it will go beyond the expectations of his most sanguine friends in the District. Danner was beaten here at a previous Election by A. B. Kurtz, and should he be a candidate this fall, he shall be polled[illegible]

A DEMOCRAT.

From Mexico and the Army.

☞Our last advices from the Army represent that Gen. Taylor was advancing his forces by detachments upon the road to Monterey. It was supposed that by the 6th of September the main body of the Army would have left Camargo. The rumors in regard to the position and intention of the Mexican forces in the vicinity of Monterey are very contradictory; some affirming that there would be no resistance to Gen. Taylor's advance, while others speak of a determination upon the part of the Mexicans to give battle.

A court of Inquiry was about to be held to inquire into the particulars of the disgraceful Riot among the Georgia troops, in which Colonels Col. Baker and others were so seriously wounded. *Whisky*, as usual, was at the bottom of the difficulty.

The Steamship Arab, the vessel which carried the intelligence of the battle of Resaca, arrived at New Orleans on the 9th inst. The most important news by the Arab, is a statement that Mexico *had declined the overtures of peace made by this country.* Of this, however, there is no certainty. Santa Anna had left Vera Cruz on his way to the city of Mexico. His reception was by all accounts enthusiastic as was anticipated. It was rumored that the Army stationed at San Luis Potosi had again declared in favor of Paredes! But little is known of Paredes, as the conduct of a gentleman in the midst of hostilities, except what may be gathered from the significant fact that he was permitted by Com. Connor to pass the blockade. When the Arab, with Santa Anna on board, arrived before Vera Cruz it was boarded by the lieutenant of the St. Mary's, who, after a short interview with Santa Anna, re-appeared on deck and *gave permission to the owners of the Arab to pass the blockade.*

COMMUNICATED.

To the Voters of Adams County.

Fellow Citizens—We have united in calling you in the affairs of our County that it should meet a crisis of unusual importance, and we rely upon you of necessity by the General Government and, by its agents, to sustain the tariff of 1842, and AGAINST the FREE TRADE tariff of 1846. Let us then, as one man, rally around the standard of the Constitution, and, in the exercise of the elective franchise, crush the monster of corruption, which has already commenced closing its doors of our work-shops, and deprived of employment hundreds, nay, thousands of the honest people of our land. Determined to face one of the foes to a level with the waning fortunes of the slave-bound South, no pains were spared, no means left untried, to secure the defeat of the one law, and the successful passage of the other; and to prevent the repeal of the counter measure, THE MISRULE OF THE GOVERNMENT WERE SENT OUT to do the dirty bidding of their masters, and I *secure the election of members of Congress* who would have their head to the vile god of Power, and sustain the anti-Tariff law of '46. Yes, fellow-citizens, it is the most unscrupulous of party proscription, who exercised by the most exorbitant representation of glaring falsehood—industriously dispersed with the utmost and promptness of their behavior—and sacrificed the worthy labors of the Whigs at the shrine of the foreign merchandising capitalist, and the free trade theories of the South. This distinctive characteristic of our people are Democracy and Patriarchy, but the former cannot flourish, nor can the latter be sustained, in a land of bound unfettered at, and deep wounded, be inflicted with impunity, by parochial hands, on that liberal enterprise which are essential to a successful practice of the great principles of political economy. The only hands by which the interests of production encounters wealth and prosperity, have been foremost, or, if not foremost, distinguished, in order to benefit political manipulations, and subvert the cause of desirable deliverance. The Panic of 1837 was in no small degree brought on by the same unscrupulous and short-sighted policy, and experience had been bought to operate in its reconstruction; it afford a revenue sufficient for the economical purposes of government; it gave bread and profitable employment to a class of citizens formed exclusively for the discharge of duties, from by whom the necessaries of the land are held, (for what would a country be without labourers?). Under its auspices, fostered and nourished by a prudent and paternal system of legislation we were fast reaching the golden term prosperity, as well as the Tariff of 1842 and other measures referred to in those proceedings, to suffer no trifling obstacle to keep them from the polls, but to rally in favor of JAMES M. POWER of Bucks county, the acknowledged popular and efficient candidate of all the true friends of Pennsylvania interests.

Resolved, That the proceedings be signed by the President and Secretary, and published in all the Whig papers of the district.

From Nauvoo.

Battle between the Mormons and Anti-Mormons!

By the St. Louis Republican of the 11th inst. we learn that a battle took place between the Mormons and the anti-Mormons, on the 11th.

It appears that the antics, (who had encamped the day previous within three miles of the city of Nauvoo,) on the morning of the 11th took up their line of march for the city.

On ascertaining the movements of their foes, the Mormons beat to quarters, mustered between three and five hundred men, and went forth to meet their adversaries.

The antagonistic parties met about one mile east of the Temple, when a battle commenced.

The "Saints" and the "Gentiles", fired upon each other for about two hours, but the distance was so great that their leaden missiles were materially deprived of their death-dealing propensities.

Having somewhat appeased their wrath, the belligerents drew off, each party returning to its original position in the morning.

In the direction of Carthage, numbers of the Anti-Mormons, in which the latter made certain propositions, which he said if the Mormons would accede to, all difficulties would be adjusted. Those were:

1st. The Mormons to surrender up their arms. 2d. All their agents, who may remain to dispose of their property, must leave, and Col. Singleton, the leader of the Anti-Mormons, in which the latter made no farther to be selected to take supervision of all writs, serve and settle the same between the parties, &c.

These propositions were agreed to by the Mormons, but when submitted by Col. Singleton to the officers of the Anti-Mormons, they rejected them. Col. S. and Gen. Chittenden immediately threw up their commands, both declaring that the Mormons had shown a willingness to make peace, highly creditable to them as a people, and they no longer had any farther part against them. Col. Brockman was then elected to the command of the assailing force, and the fight mentione[illegible]above was the result.

LATER.

Another Battle at Nauvoo—The Anti-Mormons again forced to Retreat.

The St. Louis papers recieved by the Western mail bring the particulars of another battle between the contending parties at Nauvoo. The hostilities, since the previous action, had erected an entrenchment, and mounted six cannon upon it. The Antics on approaching to the attack, fired two 6 pound balls into the camp and then prepared a parley, but the Nauvoites refused, saying that the time for talking had passed.

The battle then recommenced with artillery, continuing for nearly an hour, and closing with musketry. The attacking party were then driven off at every point, and they finally encamped in the Spring leader, Anderson, and his son, were killed, with two others. The Antics acknowledge but six wounded—one mortally.

Another attack was anticipated—Great suffering existed at Nauvoo on account of the scarcity of provisions. Ammunition was also scarce.

The Mormon force is estimated at from five to six hundred, but one informant states that they have very little ammunition, and are almost entirely destitute of provisions. He thinks that their destitution of provisions and ammunition must yet render them an easy conquest, although many of them, men and women, swear they will die on the soil before they will be driven away. Many additional accounts of distress and alarm to be witnessed in the city is truly appalling—women and children frantically running through the streets with their husbands in the field, and they without home or refuge from the storm.

In many cases the bills found by the Antics are gathered up by the women and carried to the Mormon camp to be used again. Such of the women and children as can, have crossed the river Montrose. Many of the new citizens have also gone over.

Arrival of the Steamer Cambria.

The Steam Ship Cambria arrived at Boston on Friday morning last. The grain crops of England have been gathered, and will be an average. Potatoes are every where a failure.

Conservative Presidents and Vice Presidents of the French Chambers were elected by large majorities, and the Ministry has a working majority of 120.

The British Iron trade is improved, in view of the opening of the markets of the U. States, under the new American Tariff.

The Cambria brought 113 passengers, among them the Hon. Washington Irving, Minister from Spain; D. Maynard, bearer of Despatches; the celebrated Cruikshanks, the Caricaturist, &c.

MARRIED,

On the 1st inst. by the Rev. John Ulrich, Mr. Daniel Reever, to Miss Elizabeth Meals—all of this county.

On Thursday last, by the Rev. J. Seibler, Mr. Isaac Brenneman to Miss Margaret Myers, both of Adams county.

A Peculiar feature of this School is that none more than 12 or 14 Young ladies are admitted as boarding pupils; they are received as members of the family of the Principal, and from the smallness of their number every unusual facilities are afforded for the cultivation of proper sentiments and habits, as well as for mental improvement. The assistant teachers are from the Wyeth and Mount Holyoke Seminaries, of Mass. The location of the school is elevated, healthful, and half a mile from Gettysburg. The course of studies is as extensive as at any other school and the terms low. Oakridge Female Seminary.

A Peculiar feature of this School is that none more than 12 or 14 Young ladies are admitted as boarding pupils; they are received as members of the family of the Principal, and from the smallness of their number every unusual facilities are afforded for the cultivation of proper sentiments and habits, as well as for mental improvement. The assistant teachers are from the Wyeth and Mount Holyoke Seminaries, of Mass. The location of the school is elevated, healthful, and half a mile from Gettysburg. The course of studies is as extensive as at any other school and the terms low. Further information can be obtained upon application by letter or otherwise to the Principal (Prof. Hasp) at Gettysburg. The next session will commence Nov. 2d.
