Veranges! Lamers! VARIETY OF FIRST-RATE OR-RANGES, & LEMONS constantly · C. WEAVER. April 10, 1846.

EMORRHOIDS, OR PILES, is a a disease produced by local irritattion costiveness, purgative stimulants, undue determination of blood to the hemorrhoidal vessels by excessive riding or walking, or a congestive state of the liver, and often by

peculiarity of the constitution itself. It is usually considered under three forms, or varieties, as follows : Blind Piles, White Piles, and Bleeding Piles.

This disease is so common, and so very well known, that a description of its symptoms is not deemed necessary.

The success which has followed the use of the Embrocation in the cure of this disease, has been truly astonishing. Physicians now advice their patients to try it, as the only PILE MEDICINE. In addition to its being a positive reme-

dy for the piles, it never fails to cure that INTOLERABLE ITCHING, which is so very common, and has its location in the same parts as the piles. HEF Certificates of cures may be seen by

calling on his agent, in Gettysburg, S. H. BUEHLER.

OR the core of DEAFNESS, Pains and the discharge of matter from the Pars. Also, all those disagreeable noises like the buzzing of insects, falling of water, Whizzing of steam, &c., &c., which are symptoms of appreaching deafness, and also generally attendant with the disease. Many persons who have been deaf for ten. fifteen, and twenty years, and were obliged to use ear trumpets, have, after using one or two bottles, thrown aside their trumpets, being made perfectly well. Physicians

and Surgeons highly recommend its use. The application of the oil produces no pain, but on the centrary an agreeable sensation. The recipe for this medicine has been obtained from an Aurist of great reputation, who has found, from long observation, that deafness, in nineteen cares out of twenty, was produced either from a want cirction in the nerves of hearing, or a dryness in the ears; his object, therefore, was to find something that would create a healthy condition of those parts. After a ong series of experiments his efforts were at last crowned with success, in the discovery of this preparation, which has received the name of Scarpa's Compound

Accoustic Oil. Certificates of cures may be seen by calling on his agent, in Getty sburg. S. H. BUÈHLÉR.
