

John and Emma's Home-Gatherer.

We call the attention of our readers to the advertisement of Drs. Whitney & Curtis, in another column. The attention of invalids is particularly invited.

We are informed by a friend that this village is 1,743 feet above the level of the sea. We look down upon you all neighbors—look out for rolling stones.

There is corn of this year's growth in our village over one inch above ground already, notwithstanding the backwardness of the season. It is of common field growth at that.

Our neighbor of the McKeen Citizen is informed that our paper is not only a "living institution," but mailed regularly when we can get paper on which to print it. We couldn't think of "cutting" you, neighbor—but, how do you like our appearance this week, on the whole?

We have received the first No. of the New Castle Courant, late the Mercer Freeman, now edited and published by E. S. Durban, formerly of Franklin, Venango county. We regret to lose the aid of our old friend Clark, but we are consoled by the knowledge that the paper has got into as good hands as it has.

We would call the attention of Business men and others who have much money to handle, to the advertisement headed "25 Witnesses, or the Forger Convicted." We don't know how Dye can afford the work as so small a price. But we presume he knows his business and also how to let others know it, judging from the way he advertises.

"SQUIB" says the world is certainly coming to an end, for the woods are all in blaze. Our farmers seem generally disposed to take advantage of the dry weather to get rid of combustible rubbish on their farms. The hill-tops around us look beautiful in the evenings, with their crowns all ablaze.

We have received from Messrs. Rudd & Carlton, publishers, New York, a copy of "Dr. Antonio" by Ruffini. When we get more time and room we will notice it more particularly. The advertisement is crowded out in our hurry of getting on our new suit.

The weather is "awful" warm about now—a-days, and if it keeps on so for any length of time to come, we shall certainly have a long spell of weather by the time it is done with. There isn't that prediction, as is a prediction. Capt. R. we've beat you this time.

POSTSCRIPT.—We had a beautiful shower of rain, on Wednesday afternoon, with some lightning and thunder. The rain was very timely for crops.

At this season of the year it is always prudent (if not necessary) to take a few bottles of Hurley's Sarsaparilla. This invaluable medicine strengthens the system, renders the blood pure, circulation vigorous, and by keeping up these secretions, insures a healthy condition of body. To the aged or enfeebled, it is of incalculable benefit. Give it a fair trial.—San Francisco (Cal) Era.

Sold wholesale by Scheffelin, Bro. & Co., N. Y.; Russell, Scott & Co., Philadelphia, Pa.; Park, Cinn., O.; Wright & Co., N. O.; Bacon, Hyde & Co., St. Louis, Mo.; and all extensive drug merchants.

It is possible that no paper will be issued from this office next week, as we find it almost impossible to get paper in time. The scarcity seems general, and we are obliged to order ours from New York city, where the mills from which our supply is usually obtained send all they manufacture to fill contracts.—The Legal Advertisements, however, will require publication, and we will publish an Extra; so if our friends fail to receive a full paper they will know the reason.

We are making arrangements by which we will have a year's supply on hand shortly, and we feel confident in promising that no omissions will occur in future.

Our new Chair!—yes, reader, we have a splendid, nay, a magnificent, patent revolving pivot Editorial Chair, bran new, with morocco cushion, direct from the extensive chair-manufacture of M. W. King & Son, in New York. If you don't believe it come and see. In fact, the chair editorial is too nice to correspond with the rest of our furniture; but we have it nevertheless, and we are going to keep it, unless somebody is foolish enough to offer us two prizes for it, in which event, as money is very scarce with us, we might be constrained to part with it—that is the Chair. But if you want one like it, and don't know where to get it, read the advertisement of M. W. King & Son in another column, and you will be straightway informed.

Mrs. Stephens' Husband's New Month. by for June is on our table, and more full of interest than ever. This is the last number of the Second Volume, and of the first year. Some improvements are contemplated for the next volume by the publisher, Edward Stephens, 120 Nassau St., New York.

A large number of strangers are arriving in our place daily, attracted here by the fishing season. Come on gentlemen, if you don't catch many of our trout, you will see some romantic scenery hereabouts. There are plenty of trout, too, if you only know how to catch 'em—our suckers won't bite, so you have a clear coast.—Gentlemen from the cities are particularly invited to come, as our fresh mountain air will do you good. We have no "mountain dew" however.

Special Notices.

WHITE TEETH, PERFUMED BREATH and BEAUTIFUL COMPLEXION—can be acquired by using the "Balm of a Thousand Flowers." What lady or gentleman would remain under the curse of a disagreeable breath, when by using the "Balm of a Thousand Flowers," as a dentifrice, would not only render it sweet, but cause the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate their friends will never mention it. Beware of counterfeits. Be sure each bottle is signed FETTRIDGE & CO., N. Y. BOROUGH ORDINANCE.

AT A MEETING OF THE TOWN COUNCIL of the Borough of Coudersport, held Monday, the 25th day of May, A. D. 1857, it was Ordained:

Sec. I.—That Side-walks be made ten feet wide by the owners of Lots on each side of Main Street, from Water Street to the street leading to Crandall Hill.

Sec. II.—The said Side-walks on Main st. to be built of Plank five feet in width, plank to be laid in the center of the side-walk, and graded with gravel on both sides, making in all ten feet.

Sec. III.—That Side-walks be made on each side of East and West Streets, the whole length.

Sec. IV.—The Side-walks on East and West streets to be made of Plank, Gravel, or Flag, (at the option of the owner), laid in the same manner as on Main street, except across the Court House Square.

Sec. V.—That Side-walks be made on 1st, 2d, 3d, 4th, 5th, 6th and 7th Streets, on both sides, from East to West street.

Sec. VI.—The Side-walks on said streets to be built of plank, gravel, or flag, (at the option of the owner)—except around the Court House Square—ten feet in width, and when plank is used to be laid in the same manner as on Main Street.

Sec. VII.—The Side-walks around the Court House Square to be built, in all particulars, in the same manner as on Main Street.

Sec. VIII.—The Street-Commissioner is hereby ordered to superintend the building of said Side-walks, causing them to be built in accordance with the grade established by the Borough Surveyor, according to the specifications of this Ordinance.

Sec. IX.—The Borough Surveyor is hereby ordered to establish the grade on all streets on which Side-walks are to be built, and set stakes to guide owners of lots in making their side-walks.

Sec. X.—That written or printed notices be given to the owner or owners, or agent of such owner or owners of said lots, to make the side-walks opposite their respective lots.

Sec. XI.—If the said Side-walks are not built on or before the FIRST DAY OF AUGUST, next, then the Town Council shall let the same to the lowest and best bidder, giving at least two weeks' notice in the Potter Journal that Proposals will be received for the building of the said Side-walks in accordance with the provisions of this Ordinance, adding twenty per cent. to the cost of building said side-walks, and to be collected as debts of like amounts are collected by law.

Sec. XII.—That this Ordinance be published six times in the Potter Journal.

S. H. STORRS, Clerk of Council. Coudersport, May 25, 1857.—10-1-6t.

GREAT REVOLUTION IN MEDICAL SCIENCE.

The best Therapeutic Agent ever introduced.

DR. DICKINSON'S

MAGNETO-ELECTRIC MACHINE

is exciting the absorbing attention of the Medical Profession and a large portion of the intelligent laymen of the land. It is now clearly demonstrated that the lancet, mercury, and all other internal drug medication may be laid aside with perfect safety to the patient and abiding benefit to posterity. Wherever these machines have been introduced, they excite the highest wonder and praise. The apparatus is adapted to prevent, relieve and cure every disease incident to humanity, more particularly all those painful and formidable diseases which have for centuries baffled the profoundest learning and skill of physicians. From whatever cause there may be an excess or deficiency of the nervous fluid—producing an excess or deficiency of the acids and alkaline secretions—the magnetic principles of the system are deranged, and can only be safely restored to their normal condition by the application of magneto-electricity, by means of DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE. This apparatus will positively prevent, and speedily cure all other diseases, such as Consumption, Rheumatism, Palsies, Neuralgia, Spinal Diseases, and all other painful maladies, however hopeless and of long standing. They are eminently useful in all sexual and urinary disorders, particularly where the Constitution has been broken down and ruined by unnatural solitary habits to which too many of the young of both sexes are so lamentably prone.

DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE is without the dangerous complications of batteries and acids—which fact alone renders it superior to all others on the score of neatness, cleanliness, safety and utility.—It is, in fact, a handsome parlor ornament, may be applied by a child; and will last a life-time, to the great saving of Doctor's bills, &c.

PRICE OF THE MACHINE \$10.

It will be safely packed and sent to any part of the United States. Sold wholesale and retail at the Medical Office, No. 38 NORTH SEVENTH Street, Philadelphia. Address, A. C. DICKINSON, M.D.

WHISKERANDO!

La Salle's Original

ONE DOLLAR A BOX.

TRY IT! TRY IT!

PROF. GEO. H. DE BAR has recently returned from Europe, and while there, obtained from the celebrated French chemist, La Salle, at an enormous outlay, the receipt and exclusive right of the United States and Canada, to manufacture and sell this celebrated preparation called "Whiskerando," which has never been known to fail to cause Whiskers and Mustaches to grow luxuriantly and heavy, even on beardless faces, in two months after first application. To those persons whose hair or beards are light and wiry it recommends itself. A few applications will render it soft, thick and pliable. Frenchmen are noted for their beautiful Whiskers and Mustaches which many of them attribute to the excellence of La Salle's Whiskerando. Price \$1 per box; sent to any part of the United States or Canada per mail, upon the receipt of \$1.

CITIZENS OF POTTER COUNTY!

ARE YOU SICK? Are you troubled with symptoms of Impaired Constitution? Palpitation, with Nervous Debility, with Neuralgia, with Rheumatism, with mucous and nervous Indigestion, with Scrofula, with Eruptive Diseases in any form? And are you seeking for Health? If so, we beg of you to throw away those Drugs, they will do you no good; they effects are evil, and will only.

We have had charge of an Institution for the relief of the sick, in the Eastern part of New York, for the past ten years. During that time, we have prescribed for thousands, with a success for which we feel truly grateful, and the contemplation of which affords us much pleasure. We have not a doubt but one-half of the Chronic Diseases which have been brought to our notice, were induced by the swallowing of too many Drugs. Be cautious how you seek for salivation from disease, then, at the hands of the "drug vender." The Fathers and Professors of the Allopathic School are ready to testify, (and many have already done so) to the evils resulting from the drug system of Practice. Dr. BALLIE, whose reputation as a Physician and Surgeon was as unlimited as the disease, sickness and death of humanity, declared, after many long years of practice, "that he had no faith in drugs," and expressed as his firm belief, "that he had no faith in Physic, that if he could only know that his drugs had not killed more than he had been the means of restoring to health, he should feel more at peace, and could die happy." Such is the language of many of those Professors, who first taught as the principles and practice of the Allopathic school, "that better evidence do you ask of the inefficiency of drugs to cure disease, and of their poisonous influence upon the human system? Physicians whose names we have been accumulating wisdom from many years' practice and experience—and from such a fountain of knowledge and wisdom come the assurance, and there is no safety, no virtue, no health, to be found in taking drugs. Will you listen to their teachings? or will you consent to burden your stomach, and poison your strength, because you fear you may offend the dignity of some Esculapian. Who cries humbug! humbug! at every advance in Medical Reform? We can assure you from bitter, well-earned experience, that there is a better, a far more pleasant road to the haven of health, than to travel in that pathway which is strewn with drugs, or poisonous weeds. We will lead you along, by the running brook, which comes bubbling down the side of rocky Allegheny Mountains; it will quench your thirst, allay your fever, and when rightly applied, cleanse and purify your whole system, and restore you to the full enjoyment of health. It is nature's remedy, and one she always calls for and demands, when inflammation, Fever, or disease of any kind, threatens the destruction of our physical frame. We desire then to meet with all those who are suffering from disease of the Lungs; Acute or Chronic disease in any form; we are confident we can do them good. We have been sick too long, and suffered too much ourselves to have any desire to humbug the sick, to trifle with their confidence and happiness.—We trust all who have been sufficiently drugged, and desire a better practice, will call and make our acquaintance, and test our skill; we have hundreds of names and certificates from some of the most influential citizens of New York and adjoining States, which we shall be pleased to have all who are in pursuit of health, call and examine.

Dr. CURTIS will spend a portion of his time the coming season with his friend CHAMBERLAIN, at Ellensburg. Mr. CHAMBERLAIN keeps a Public House, where those of our sick friends who may desire it, can obtain board on most reasonable terms. To be sure, Mr. CHAMBERLAIN'S house will not compare with the Astor House of New York, Bagot's Hotel of Africa, or the Hotel de Rome. Nor would the business of that portion of the State support any such costly arrangements. But you will find a clean house, a clean bed, and a good cook, and what the house lacks in finery, fashion and beauty, is more than made up in that spirit of contentment and cheerfulness which is ever being thrown out from the large, warm and sympathetic hearts of our host and hostess. Good attendants, whose business it shall be to give treatment, and wait upon the sick, may be found here that will cheerfully do everything in their power for the comfort of the sick. We shall be ready at all times to visit the sick in any part of the country. If, on examination of the patient, we do not find the best of evidence that we can cure or greatly benefit them, we shall hold out no inducements for them to spend their time or money in pursuing our treatment. We shall endeavor at all times to give a candid opinion in relation to the disease of our patient.

Drs. WHITNEY & CURTIS. Wellsville, May, 1857.

GREAT EXCITEMENT!

TREMEUDOUS RUSH!

Another Cargo of Goods at

THE OLD REGULATOR.

YOU might as well undertake to dam up the waters of the Niagara with bulrushes, as to try to convince the multitude that there is any other place in town where they can get such great bargains in the line of

GROCERIES & PROVISIONS,

as at the Old Regulator which has so long been the Great Emporium of Trade in this flourishing City of Allegheny. Now we have come to the conclusion that there is only one way to sell Goods, and that is to let the people know we have them to sell, and sell them at prices which will be an inducement to those in want to buy of us; and for this purpose we have chartered a column in the Journal where we intend to keep the people posted as to what may be found at our establishment.—Every body knows, (or at least ought to know) where the Old Regulator is; and for the benefit of those who don't know, and who wish to know, we will just inform them that it is located right on the

RAILROAD,

only a few rods from the Depot, and is always open for customers and all who wish to save 25 per cent. in purchasing the necessities of life; for it is the only place in town where you can expect to have a little change left after purchasing your necessary supplies, and understanding the common assertion of every one that they sell cheaper than their neighbors, we don't boast of selling goods at or below cost, but we have adopted as our standard "Live and Let Live," and to sell as cheap as the cheapest; for when people advertise to sell below cost, you may easily conclude that they are only "throwing out bait." In order that the people may know what we keep to stock, we will enumerate a few of the most important articles,

GROCERIES.

Any one examining our stock of Groceries, we are confident will at once come to the conclusion that a better and more complete assortment cannot be found in this section, consisting of

SUGAR, TEA, COFFEE, MOLASSES, SYRUPS, PEPPER, SPICE, GINGER, GLOVES,

Mustard, Saleratus, Cinnamon, Pepper-Sauce, Catsup, Yeast and Soap Powders, Vinegar, Oil, Camphine, Fluid, Chewing and Smoking Tobacco, Snuff, Segars, Candy, Nuts, Raisins, Crackers, Herring, Soap, Candles, and an endless Variety of other articles which it is unnecessary to mention, may be found in this department, and which will be sold at a trifling advance from cost to ready pay.

PROVISIONS.

Just take a look at our large stock of Provisions, and see if we have not got the where-withal to relieve the numerous wants of the needy, and enough to keep you all from starving through the long and dreary winter. It is impossible for us to enumerate one half the articles we keep, in a single advertisement, but we will mention a few of the most important, which may be found in abundance and in great variety, consisting of

PORK, HAMS, FISH, BUTTER, CHEESE, LARD, SALT, CORNED BEEF, DRIED BEEF, SHOULDER, FLOUR,

CORN MEAL, BUCKWHEAT FLOUR, DRIED APPLES, DRIED PLUMS, POTATOES, OATS, BEANS, SALT,

and a host of other articles in the line of provisions. Also kept constantly on hand a good assortment of

WOODEN AND WILLOW WARE

such as Brooms, Wash-tubs and Boards, Mop, Dinner Boxes, Brushes, &c., together with a general assortment of Stone Ware, which we will sell very cheap for cash. A general invitation is extended to all, and to the people of Potter County in particular to call at the Old Regulator before purchasing elsewhere.
