SUFFER NOT!

When a CURE is guaranteed

IN ALL STAGES OF

SECRET DISEASES,

Self-Abuse, Nervous Debility, Strictures, Gleets, Gravel, Diabetes, Diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, Diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vita's Dance, and all diseases arising from a derangement of the Sexual Organs,

SUCH as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the face, Pain in the back and head, Female irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, *recovery is certain,* and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret Diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula, and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the diseases but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions and other affections of the skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering and consinguing them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self-Abuse that a permanent and speedy cure can be affected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of *Patent Medicines,* for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the *materia medica,* and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and females treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the United States or Canadas, by patients communicating their symptoms by letter.—Business correspondence strictly confidential. Address.

IMPORTANT DISCOVERY.

CONSUMPTION

AND ALL

DISEASES OF THE LUNGS AND THROAT

ARE POSITIVELY

CURABLE BY INHALATION,

WHICH conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent., for the Lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's graves.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after Inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; Inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air—is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.
