If the Locomotive Gazette is desirous of letting its readers know the true state of affairs in Kansas, why don't it quote from Doctor Gibson's history of Geary's Administration.

The editor of the Warren Ledger was a great admirer of Governor Geary. Will he look through the book written by his private Secretary, and let its readers know what he thinks of it? If this is a faithful history of affairs in that Territory, wherein is Buchanan's administration an improvement on Pierce's?

How quick Wilmot's polite invitation to General Paeker to canvass the State with him in discussing the questions of the day, before the same audience, took the starch out of the brave champions of the Dred Scott decision. Poor fellows! They have adopted a platform which they have not the courage to defend before the people, when both sides can be presented.

Missouri Election.—The returns are not yet complete, but the Democrat says that unless stupendous frauds have been practiced by the State Secretary in canvassing the vote, Rollins is certainly elected by probably 1500 majority. The Slave-drivers will not stop at ballot-box stuffing if they can thus secure the Governorship to their candidate, however gross an outrage it may be on the people.

We beg to call the attention of our Merchants to the card of Messrs. ALLEN & WHITE—in which they offer superior inducements to Buyers of China, Glass and Earthenware at their establishment, No. 71 John Street, New York. We are confident from the enviable reputation which this house has acquired, that our Dealers will find it to their interest to give them a call when visiting New York.

What do those men hereabouts who supported Buchanan in the belief that he would do justice in Kansas, think of his appointment of that chief of the Borderphers, Captain Emory, as Lieutenant of the Land Office in the western district of Kansas? Read Gilson's description of this appointment of President Buchanan. We quote from page 111.

Emory and his company held their headquarters at Leavenworth City, whence they sailed into the surrounding country to "press," not to steal the horses, cattle, wagons, and other property of the free-state men, to whom they had become a terror! It was during these excursions that Major Sackett, of the United States Army, lodged in the road near Leavenworth City a number of ladies of men who had been seized, robbed, murdered, mutilated, and left unburied by the wayside. It was this same Emory and company that made the attack on Phillips's house, when Phillips was killed and his brother severely wounded. They were also present when the assassin of Hoppe brought in his reeking scalp, elevated upon a pole, and applauded the savage deed.

When the President of the United States was informed that armed bands were organizing in Missouri for the purpose of annulling the election in Kansas, and was asked to protect the ballot-box from this premeditated outrage, he turned a deaf ear to the information and the appeal. The apologists of the President excused this conduct by asserting that he had no power to protect the people of Kansas in their right to vote unmolested. But when the citizens of Lawrence were about to regulate "their domestic affairs" "in their own way," as the Kansas-Nebraska bill said they had a right to do, then the President's Governor in Kansas issues a proclamation forbidding the people of Lawrence from voting to organize a city charter, and marched eight hundred United States soldiers to arrest the Lawrence men who should attempt to do anything of the kind. And those same apologists of the President now say, charge bayonet on the rebels of Lawrence. Such is Doughface Democracy. It excuses the President for doing nothing when there was the most urgent necessity for action; but now, when the people of Kansas are able to protect themselves and defend their own ballot-boxes, it urges him to act with rigor to prevent the people from attending to their own domestic affairs. How many are there in this County who will sustain such conduct?

The Truth of History in Relation to Kansas.

We have endeavored to keep our readers well posted in the affairs of Kansas from the repeal of the Missouri Compromise to the present time. We are satisfied that we have given in the main a faithful and true history. We are confirmed in this impression, by the publication of a book entitled "GEARY AND KANSAS. Governor Geary's Administration in Kansas with a complete history of the Territory until July 1857." By JOHN H. GILSON, M. D., private Secretary of Governor Geary. Published at Philadelphia by Charles C. Rhoads.

Now as Governor Geary and Doctor Gilson, both went to Kansas violent National Democrats, and zealous champions of James Buchanan; it is hardly likely either of them would say anything except compelled to by the facts of history which favored the cause of freedom. We therefore ask National Democrats to buy and read Doctor Gilson's book, or, if you are unwilling to expend money for that purpose, ask some liberal democrat to loan you a copy; for we assure every man who desires to know the truth about Kansas and has doubts of the statements made by the Republican press, will procure a copy of this book. It only costs fifty cents, though it contains 348 pages of reading. We shall take great pleasure in forwarding all orders for the book free of charge.

Meanwhile we ask free Kansas democrats to look at the following extracts and make their own comments. This one is on the 28th page.

"By the proposition to grant two new territories instead of one, as at first proposed, and to all the inhabitants of each to determine for themselves whether slavery should or should not be admitted, it was intended and so understood, that Nebraska should be free and Kansas a slave state. This was beyond all question, the object and meaning of the Kansas-Nebraska bill of Mr. Douglas, and it was so regarded, as all its acts show, by the late administration. This, in fact, is the only excuse, although by no means a sufficient one, that can be offered in extenuation of the outrages that have subsequently been committed against free-state settlers. Many members of the pro-slavery party, believing it to have been a matter understood and fixed by certain contracting powers and the heads of the general government, that Kansas was to become a slave state, in order to keep up

an equilibrium of northern and southern sectional and political interests, conscientiously supposed that instead of its being a criminal offence, it was not only justifiable, but a virtue, to persecute, even to death, all northern people who should enter the territory with a disposition to defeat or thwart that object. All such were regarded as intruders, whom it was proper to remove at all hazards and by whatever means, however cruel or oppressive, that could be employed. This sentiment was not confined to Kansas and the adjoining State of Missouri, but was entertained by persons high in authority elsewhere, and especially at the seat of the federal government. By many it was freely acknowledged and boldly avowed.

That corroborates Senator Mason's statement that the Missouri Compromise was repealed in the expectation that it would secure Kansas to Slavery.

The following is from the 321 page, and shows why Reeder was removed, and Leecompte retained in office in this Territory.

At the time Reeder was appointed governor, Samuel Dexter Leecompte was chosen Chief Justice, and Bush Johnson and Sanders N. Johnson Associate Justices of the Supreme Court of the Territory. Judge Leecompte immediately affiliated with the most ultra of the pro-slavery men; declared himself warmly attached to their "peculiar institution;" received their unqualified approbation; applauded their acts; addressed their meetings; and went quite as far as the most exorbitant could possibly expect or desire. Judge Johnson was a slaveholder, and brought his slaves with him into the territory. But he was a just and conservative man, disposed to act fairly and honorably toward all classes of citizens, and disapproved of many of the outrages that were being so wantonly committed against the "abolitionists." His conduct was conciliatory, and he sought rather to preserve peace among the citizens than aid in promoting contention and strife. Judge Johnson took no part whatever in the prevailing disturbances.

The two latter named gentlemen were removed from office at the same time and upon the same pretence as Governor Reeder. They were charged with having speculated in the half-breed Kaw lands; the charges being founded upon the fact that they had stipulated for the purchase of those lands on the condition of being able to obtain the consent of the government.

Chief Justice Leecompte is still retained, though he was one of the early squatters upon the Delaware Trust Lands, in which he now owns a valuable estate near Leavenworth City, and has acquired considerable property in sundry pro-slavery towns. Leecompte, the capital, received his name as an acknowledgment of his fidelity, zeal, and devotion to the party by which it was founded.

The places of Judges Emory and Johnson were filled by the appointment of Sterling G. Cat, Esq., of Alabama, and J. M. Burrell, Esq., of Pennsylvania. Judge Cat, has followed closely in the footsteps of Leecompte. Judge Burrell, after remaining a short time in the territory, and becoming disgusted with the outrages and official malfeasance, it is supposed, to which he was compelled to be a witness, without having the power to remedy, returned to his home at Greensburg, where he died in October, 1856. Judge Thomas Cunningham, of Beaver county, Pennsylvania, was appointed his successor; but he, too, after visiting the territory, resigned without ever entering upon the duties of his office.

These extracts will show the character and value of the book. Next week we shall show what the present National Administration is doing in Kansas.

THE ILLUSTRATED GYMNASTIC.—This is the title of a new book by R. T. TRALL, M. D., now being published by FOWLER AND WELLS, of New York. The work comprehends considerable more than the title expresses; for it contains not only an exposition of Gymnastics proper, but also the applications of Gymnastic, Calisthenic, and Vocal Exercises to the development of the whole body, the proper training of weak and defective organs, and to the cure of disease. Special Medical Gymnastics for particular ailments and infirmities have a prominent and important place. Linn's system of KINEPATHY, as developed by its author and practiced by Rath, George, and others, is extensively treated of. Brief instructions are given in the various "manly exercises," as Swimming, Sailing, Rowing, Riding, etc.; and not the least valuable part of it is the analysis of the rudimental sounds of the English language, with the instructions predicated thereon, to enable the student to obtain full command of the respiratory apparatus, and acquire fluency and power of Voice and Speech.

All departments of the work are profusely illustrated with engravings. It is a book for the Individual, the Family, the Club, and the School. It will be completed in two numbers. Price for the work complete, \$1 25. Address FOWLER AND WELLS, 308 Broadway, New York.

THE Louisville, Ky. Courier, of a recent date states that a contract has been made to deliver 1,000 barrels of flour in that city next March, for \$1.50 per barrel.

Another Store and Tin Store has just been opened on Eighth-st., next door to J. Schnabel & Co., by J. W. Spritt, from Pennsylvania. We noticed an arrival of good looking stoves on Thursday, and saw in his shop a new and very convenient style of cupboard for culinary purposes, the sides of which were perforated in plates, thus admitting of complete ventilation while keeping out flies, &c.

We find the above clever notice of our former townsman in the Shelbygan (Wis.) Times, and copy it in order that his friends here may know of his whereabouts; and doings.—Friend SMITH, you must advertise liberally in the Times if you would do a fair business. It will always increase your sales 50 or 75 per cent if you keep your business prominently before the public, in the columns of a good newspaper.

An exchange paper says that a wreath of walnut leaves, suspended in a room, will drive out flies, and that they will not enter the room again until the wreath is withered. The experiment is worth trying.

A BIG SALARY.—Mr. Moran, the new President of the New York and Erie Railroad Company, is to receive a salary of twenty-five thousand dollars a year—exactly what is paid the President of the United States, and more, probably, than is paid to any other functionary.

OREGON.—The Constitutional Convention of Oregon consists of 42 Unionists and 18 Republicans. The local papers announce it as the intention of the majority to submit to the public a separate clause in the constitution establishing Slavery.

The Republicans of Crawford County, have made their nominations, as follows:—Assembly, R. P. Miller; Sheriff, Wm. A. Hurst; Prathony, Henry B. Beatty; Recorder, B. B. Cummings; Clerk of Courts, Foster Gehr; Treasurer, Joseph C. Hays; (editor of Journal); County Commissioner, Wm. Hotchkiss.

REMEDY FOR DIARRHÆA.—The following is said to be very efficacious:—Take a handful of strawberry leaves and pour on them half pint boiling water, let it remain one hour and drink the tea. If you cannot get boiling water, chew and swallow the juice. This is a most valuable and efficient remedy. It rarely fails to give immediate relief and performs a permanent cure.

REWARDING TRAITORS.—JOHN K. CALHOUN, of Armstrong, and G. NELSON SMITH, of Cambria, members of the last House of Representatives who held the FORNEY nomination and supported FOSTER for the Senate, have been nominated by the Democrats of their respective counties for re-election. The Democratic people seem to sympathize with these traitors.

Men commit every grade of crime in violation of law; therefore, vile men should be licensed by community to perpetrate those crimes! Is not the argument as good in one case as the other?—Wisconsin Chief.

HENRY DIXON CRAZE.—The Albany Evening Journal says that the explanation of the preference of Henry Dixon for Slavery over Freedom, about which so much noise has been made, is that Dixon has become a fanatic, probably from grief under the inflictions of Slavery. A gentleman from Rochester recently found him in Georgia and found him as crazy as a loon. It will be remembered that Dixon's master denied possession of him until he found he could probably sell him at a good price. He offers him now at \$700. His value, if of sound mind, would be twice that sum!

TURKISH FEEDING AND BUTTER MAKING.—My manner of feeding turkeys is this: When taking them out of the ground I dress them close, cutting off all roots and fibres. It is the tap-root and its appendages that impregnate the milk and butter in a great measure. You of any one may tell this by chewing them; and they will leave a pungent taste in the mouth. The next operation is—I cut them as long as twenty-four hours before feeding, and throw a handful of salt over them when cut, so that what smell remains passes off in the atmosphere; and last, I never or very seldom feed milk after-milking.—Correspondence of the Country Gentleman.

Emerson's United States Magazine for August is on our table rather late this month, but it was truly welcome when it came.

The Fall term of the Condersport Academy will open on Monday next (24th inst.). A large number of Students are expected, and it is hoped that those who design to enter will be present the first day of the term. Competent Teachers have been engaged for the ornamental branches, Piano Music and Drawing, also for instruction in the French language. Those preparing for teachers in our Common Schools will receive special attention.

The Vital Fluid enters every organ of the body through the circulation, distributes the nutritive principle to every texture and the source of every secretion. In a word, it is the life of man. How important, then, that it should be kept in a pure and healthy condition. Murray's Sarsaparilla is known to possess properties which become assimilated with the blood, disinfecting it of disease, and restoring exhausted nature to pristine vigor.—Columbia (Texas) Herald.

To School Directors.—The Superintendent of Common Schools of this State has given notice that new districts will be furnished with copies of the School Architecture; but not old districts which have already been supplied, unless for satisfactory reasons. When the retiring Secretary of a Board appropriates the Architecture to his own use, and refuses to return it, the Board should bring suit against him to recover it, or its value. He would also be indictable for larceny. The book is the property of the district, and not of the Secretary, or any member of the Board.

We would call the attention of our readers to the advertisement of the American Safety-Paper Manufacturing Company of New York. The paper they propose to sell, if what it claims to be, and we have reliable assurance that it is, should be brought into general use, and especially by public officers for public records. We are authorized to receive orders for paper at the published prices, and can receive only cash orders. We have a sample of the paper in our possession to which we invite the attention of those wishing to purchase.

The Pennsylvania Farm Journal heretofore published at Philadelphia by Samuel Elysen & Co.; has been discontinued for want of a proper support. We regret to make this announcement, for the Farm Journal was one of the best Agricultural periodicals in the country, and particularly zealous in behalf of the farming interests of Pennsylvania. A first class journal we think should have been liberally supported in this state without any outside subscribers—but it seems to have failed. The publishers have made arrangements by which the subscribers will receive five numbers of the Agriculturalist; an excellent paper published by Orange Judd, 191 Water St., New York, in lieu of the Farm Journal, commencing with the August number.

On Sabbath last a week, Rev. James A. Woodward, pastor of the Episcopal Church of this place, preached his farewell sermon, preparatory to removing to South Farm, La Clare Co., Ill., there to take charge of a church. We regret the departure of Mr. Woodward, whose brief sojourn among us has won him many friends here, and who would have affected much for the cause of religion in this section had he remained with us. We wish him a generous support in his new charge, and we are sure he will never lack for friends where he is known.

Ray, Wm. H. Shaw, of the M. E. Church, preached his farewell sermon last Sabbath to a large and appreciative audience, preparatory to attending the Annual Conference at Lo Roy, N. Y., which meets soon. Mr. Shaw had won many true and good friends here, who wish him to sincerely regret the necessity for his removal from among us, by the requirements of the discipline of the Society.

By the above removals we are left entirely without a pastor until the conference sends us one. Rev. Robert Adair, Secretary of the Presbyterian Home Missionary Society at Philadelphia, preached two excellent sermons in the Presbyterian Church, last Sabbath. He left for home on Monday, seemingly much pleased with our people, and promising to send us a Presbyterian preacher as soon as three weeks. We hope he may.

We have a lengthy and interesting letter from S. A. SLATE, formerly of this county, and now in Michigan, which we are reluctantly compelled to defer until next week for want of room. We hope he will continue his favors.

ADMINISTRATOR'S SALE.

In pursuance of an order of the Orphans' Court of the county of Potter, there will be exposed to public sale at the Court House in Condersport, on THURSDAY, the 22d day of September, 1857, the following described real estate, situate in the township of Sharon, in said county: Bounded on the north by the highway leading from Millport to Gabriel Barues, on the east by lands of J. Barnes and Gabriel Barnes, on the south and west by lands of Mann & Nichols, containing eight acres more or less, about two acres of which is improved, and on which is erected one frame house and one frame barn—also some fruit trees thereon. CHAS. S. JONES, Administrator of the estate of JURY LYMAN, deceased. 10-10.

A Perfect Security against all manner of Fraud by Counterfeiting on Paper.—To Prevent Photographs and Analistic Counterfeits, Engraves, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the new Chemical Paper in America, invented and patented in England by HENRY GUYSS, a celebrated chemist and officer in the British Army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Messrs. Brothers, (extensive and skillful photographers, 233 Broadway N. Y.) The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks, 35 cts. 7 1/2 lb.

Bank Bills, \$18 for 1000 sheets.

Bills of Exchange, \$25 for 1000 sheets.

Promissory Note, 40 cts. 7 1/2 lb.

Sign & Time Drafts, \$25 for 1000 sheets.

Insurance Policies, 40 cts. 7 1/2 lb.

Railroad Stocks & Bonds, 40 cts. 7 1/2 lb.

Bank and State Stocks, 40 cts. 7 1/2 lb.

Bonds and Mortgages, 40 cts. 7 1/2 lb.

Wills and Deeds, 40 cts. 7 1/2 lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. 7 1/2 lb.

For Indentures and Agreements, 40 cts. 7 1/2 lb.

All State and County Records should always be printed or written on this Paper, as the chemicals inserted in the pulp not only prevent rotting or transfer, but make it lasting as time.

The Southern Climates it is excellent, and much superior to any other; as the moisture of the climate does not destroy it—the properties inserted in the pulp being a preventive in all the southern states; Cuba, the West Indies and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this Paper make it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J. of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall Street. 10-10-3mo.
