FLOOD IN THE ALLEGHANY.—Forty-eight hours constant heavy rain, and still raining (Thursday) morning, has made the Alleghany river higher than it was at any time during the Spring flood. There is a prospect of a destructive flood.

Mr. Miles White, of Eulalia, in this county, on Tuesday last exhibited to us a Cucurbit of his growing, which weighed seven pounds and one ounce, and measured 16 inches length and 14 inches in circumference. We fling a challenge to the nation.

Mr. Tracy Scott of Port Allegany, McKean Co., has laid upon our table five potatoes, of a new species called the "Foot Potato," the largest of which weighed 26 oz., and the others averaging about 23 oz. He raised from three bushels of seed, about 40 bushels of potatoes, all of which he is going to replant next season. They are an excellent eating potato, as they are dry, and unaffected by the rot.

MURDER.—John Carroll murdered Robert P. Riley by choking him to death, at Scottsville, Alleghany county, Va., on the 20th. They were drinking and playing cards, and Riley had won a dollar from Carroll. Both have very needy families.—*Ex. Paper.*

AYE, hundreds of murders occur yearly having their origin in the same cause—the maddening cup—and yet society embraces the real murderers, and frowns upon all who are brave enough to defend religion, morality and humanity.

PAY YOUR LITTLE BILLS.—Nothing helps the money market more than the prompt payment of little bills. It keeps up trade, keeps money moving, helps the banks, and makes everybody feel good.—When everybody holds on to all the money he gets because he fears the times are going to be worse, he helps to make them so.

Teacher's Institute.—On Monday the 16th day of Nov. next, a Teacher's Institute will be opened at Coudersport and continue five days. The object of the Institute is, to give instruction in the most approved methods of teaching, and conducting the exercises of the school room. Six hours of the day will be occupied in reviewing those branches usually taught in our Common Schools, and giving instruction upon the method of teaching. There will also be a Session each evening, for the purpose of reading essays, and holding discussions on subjects connected with the advancement of the Common School interest. The time has been limited to five days, so that every Teacher in the County can afford to attend. One week's board, and a small charge of three or four shillings for contingent expenses, will be all the necessary expense; and it is hoped, and expected that the Teachers throughout the County will make it convenient to attend. The undersigned will use every effort to secure board on reasonable terms. Those who design to become members of the Institute, are requested to bring a full set of text-books, of such as are used in their school districts. The friends of education generally, are cordially invited to attend. The services of eminent, and experienced Teachers will be secured to give instruction and lectures during the Session of the Institute.

Co. Supt. of Potter County.

Chills and Fever.—This distressing disease often proves obstinate and of long duration in this climate, and not unfrequently resist almost every mode of cure; also by the extreme debility, thereby induced, often give rise to other chronic complaints. Farr's Agree Tonic or Quinine Substitute, manufactured by Thos. A. Hurley, is the most reliable remedy extant.—*Record, Westchester, Pa.*

IMPORTANT DISCOVERY.

CONSUMPTION

CURABLE BY INHALATION,

WHICH conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, always the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second;
