

Teacher's Institute.

On Monday the 16th day of Nov. next, a Teacher's Institute will be opened at Coudersport and continue five days. The object of the Institute is, to give instruction in the most approved methods of teaching, and conducting the exercises of the School room. Six hours of the day will be occupied in reviewing those branches usually taught in our Common Schools, and giving instruction upon the method of teaching. There will also be a Session each evening, for the purpose of reading essays, and holding discussions on subjects connected with the advancement of the Common School interest.

The time has been limited to five days, so that every Teacher in the County can afford to attend. One week's board, and a small charge of three or four shillings for contingent expenses, will be all the necessary expense; and it is hoped, and expected that the Teachers throughout the County will make it convenient to attend. The undersigned will use every effort to secure board on reasonable terms.

Those who design to become members of the Institute, are requested to bring a full set of text-books, of such as are used in their school districts. The friends of education generally, are cordially invited to attend. The services of eminent, and experienced Teachers will be secured to give instruction and lectures during the Session of the Institute.

Those who design to attend, should be in Coudersport Saturday evening, and secure their boarding place, so as to be ready to commence Monday morning. By coming in at a late hour on the first day of the Institute, the whole day will be lost. A number of the Directors of the County have mentioned to me that they would like to have a general meeting for the purpose of discussing some questions of interest relating to their duties. I have therefore made arrangements that Thursday evening of the week of the Institute may be occupied in discussing the following questions:

FIRST: The importance of adopting a uniformity of text-books, not only in the School Districts, but throughout the County.

SECOND: The propriety of petitioning our State Legislature to reduce the number of Directors from six to three; and allow them a compensation for their services.

Directors, by attending this discussion on Thursday evening, will have a favorable opportunity also to witness the closing exercises of the Institute the next day.

Directors, and Friends of Education, shall we have a general meeting?

J. HENDRICK,

COUNTY ORDERS
TAKEN AT FACE,
In Exchange for Goods,

SCHOONMAKER & JACKSON'S,
COUDERSPORT, NOV. 4TH, 1857.

Notice to School Teachers.

The County Superintendent of Potter County will be at the following places, and at the times here specified, for the purpose of examining teachers, viz:

ULYSSES, Thursday, the 26th of November next, at the school-house in Lewisville.

HARRISON, Friday, Nov. 27th, at the Cummings school-house.

BINGHAM CENTRE, Monday, Nov. 30th, at the school-house.

OSWAYO VILLAGE, Wednesday, Dec. 2d, at the school-house.

SHARON, Thursday, Dec. 3d, at the school-house near the mouth of the Honeyoye.

HEBRON, Friday, Dec. 4th, at the Crandall Hill school-house.

ROULETTE, Saturday, Dec. 5th, at the red school-house near Mr. Weimer's.

PIKE, Tuesday, Dec. 8th, at the school-house near the mouth of the West Branch.

COUDERSPORT, Saturday, Dec. 12, at the Academy.

The examination at each of the above places is to commence at 10 o'clock, A.M. It is expected that all the teachers will make their arrangements to be at one of these places, whichever may be the most convenient. Those, however, who attend the Teacher's Institute during the entire session, will be examined and receive a certificate (if qualified) before leaving.

Each Teacher is also requested to furnish a reading-book of the kind generally used; also a pen and ink, together with at least two sheets of paper, as a portion of the answers, in the different branches, will be required in writing. As there are increased facilities for teachers to qualify themselves for the duties of their calling, the time has come for more thorough examinations.

The "Department of Common Schools" has issued new forms for certificates, both "Provisional" and "Permanent"; the State Superintendent has also given instruction to the County Superintendents to re-examine those teachers now holding Permanent certificates, and give new Permanent certificates to such as are worthy of them, and Provisional certificates to others; also to annul the Permanent certificates of those who do not submit to a re-examination.

These instructions will be complied with, and a higher standard of qualification will be required hereafter.

It is hoped that the friends of education, and Directors especially, will be present at the examinations. A Lecture will be delivered at either of the above places, on any subject relating to Common School education, on the evening of the day of examination, if desired.

J. HENDRICK,
County Superintendent of Potter County.

The Giant of the Monthlies!

HARPER'S MAGAZINE.

ONE HUNDRED AND SEVENTY THOUSAND Copies are now issued of Harper's New Monthly Magazine. The Publishers have endeavored, by a well-directed use of the abundant resources at their command, to render it not only the cheapest but the most attractive and useful Magazine for popular reading in the World; and the extent to which their efforts have been successful is indicated by the fact that it has attained a greater circulation than any similar periodical ever issued.

Special efforts will be made to render it still more interesting and attractive during the coming year. The new Volume will commence with the DECEMBER Number. No labor or expense will be spared to render it in every way, and in all departments, still more worthy of the unparalleled favor with which has been received.

The Terms upon which HARPER'S MAGAZINE is supplied are as follows, for Cash:

One Copy for One Year, \$3.00
Two Copies for One Year, 5.00
Three or more Copies One Year, (each) 2.00
And on *Lib. Copy*, gratis, for every Club of Ten Subscribers.

* * * Persons residing in the British Provinces will remit Twenty-six CENTS, in addition to Subscription, for American Postage.

OPINIONS OF THE PRESS.

"Harper's Magazine aims to give the best reading, no matter where it may come from, and whenever its conductors can procure from American authors better literary matter than they can find elsewhere, they get it, and they pay prices for it which would astonish some of the English Magazines."—*N. Y. Daily Times*.

This popular Magazine, while it does all that is lawful to court popularity, never descends to cater for it by ministering to opinions or propensities injurious to good morals or social order. Though not exclusively a religious work, it is always auxiliary to Bible truth and sound morality."—*N. Y. Christian Advocate and Journal*.

Each number containing as much matter as a volume of *Maryland's History of England*, and sold at the ridiculously low price of twenty-five cents.—*London Times*.

The most popular and successful periodical ever issued.—*New Orleans Delta*.

* * * The Postage upon "Harper's Magazine," when prepaid quarterly, in advance, at the office where it is received, is Twenty-six CENTS a year.

EMERSON'S MAGAZINE
AND
PUTNAM'S MONTHLY.

40,000 Subscribers to Start With.
EXTRAORDINARY OFFER!

The Publishers are happy to announce that in the Union of these favorite Magazines, the best literary and artistic talent of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.

It will aim to present in its pages the choicest productions of American thinkers and writers, and the best efforts of American artists. It will be purely national in its character. In its criticism it will aim to be just and truthful, and will be careful to preserve and cultivate that wholesome moral and religious tone so highly cherished by the American people, and so essential to the welfare of the race.

We shall endeavor, by a sagacious use of the extensive resources now at our command, to make a Magazine that, in the richness of its literary contents, and in the beauty and profuseness of its pictorial illustrations, shall outstrip any publication ever before produced in this country.

The new issue commences with the OCTOBER number, which is now ready. It is filled with the choicest productions of some of the most brilliant writers of the day, and is embellished with forty-four splendid original engravings. It appears in a new dress, embracing an elegant classical design on the cover, and the entire work presents the most attractive appearance. It is pronounced by all who have seen it to be the most beautiful specimen of a Magazine ever issued in this country.

IMPORTANT DISCOVERY.

CONSUMPTION

AND ALL
DISEASES OF THE LUNGS AND THROAT
ARE POSITIVELY
CURABLE BY INHALATION.

WHICH cures the remedies to the cavities in the lungs through the air-passages, and coming in direct contact with the disease, neutralizes the tubercular matter, always the cough, causes a free and easy expiration, breaks the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent. For the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's graves.

Truly the quarter of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling remedies. Thus, inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of emulsion will rouse the system when fainting or prostrated by disease. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air—is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.
