# Selected Miscellany.

### THE QUILTING. BY ANNA BACHE.

The day is set, the ladies met, And at the frame are seated ; In order placed, they work in haste, To get the quilt completed. White hugers fly, their tongues they ply, And annuale their labors, By counting beaux, discussing clottes, Or talking of their neighbors.

"Dear, what a pretty frock you've on"-"I'm very glad you like it." "I'm told that Miss Hicgmicon Don't speak to Mr. Micet." "I saw Miss Bell the other day, "F Young Green's new gig adorning !"-"What k ons your sister Ann away ?" "She went to town this morning."

" 'Tis time to roll'-"my needle's broke" "The time to roll —"may needle s ords "So Martin's stock is selling ;" " "Hamisa's wedding gown's bespoke"— "Lend me your scizsors, Ellen." : "That match will never come about"-"Now don't fly in a passion ;" 

The quilt is done, the tes begun-The beaux are all collecting ; The table's cleared, the music heard-His partner each selecting. The matry band in order stand. The dance begins with vigor; And rapid feet the measure beat, And trip the mazy figure.

Unheeded fly the moments by, Old Tare himself seems dancing, Till night's dull eye is op'd to spy The s eps of morn advancing. Then closely stowed to each abode The carriages 20 tilting ; And many a dreath has for its theme, The pleasnres of "The QCILLING"

## AYER'S PILLS

A YEAK S **L'ILLAS**, A NEW and singularly 'successful remedy for the a cure of all Billious diseases — Costiveness, Ind-zestion, Jaundice, Dropsy, Rhéumatism, Feves, Kout, Hunnors, Nervousness, Irritability, Indamma-tions, Headache, Pains in the Breast, Side, Bæe, and Limbs, Fenale Coinplaints, &c., &c. Indeed, very few are the diseases in which a Pargative Med-cine is not more or less required, and much sisk-ness and suffering might be prevented, if a hars less-but effectual Cathartic were more freely used. No person can feel well 'while a costive habit of body prevails ; besides it soon generates serious and often fatal diseases, which might hyre been avoided by the timely and judicious use of a good purgaire. This is alike true of Colds, Feverish symptoms, and Billious derangements. They all tend to become er produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable 'omily physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that, demand. An extensive trial of its virtnes by Physicians, Profe-sors, and Patients, has shown results surpavingsors, and Fatients, has shown results surpaying any thing hitherto known of any mediaine. Cares have been effected beyond belief, were they not sub-stantiated by presents of such exalted position and character as to forbid the suspirion of untruth.

Among the many enginest gentlemen who have testified in favor of these Pills, we may mension: DR. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the
