

THE GREAT DEMOCRATIC LIE—No lie within the memory of men now engaged in the field of politics, has been so consistently adhered to as that which said that the Democratic party was in favor of Freedom in Kansas. Although often refuted and exposed, it has been as often revamped, and many honest men have come to believe it true. It carried Pennsylvania, Illinois, Indiana and New Jersey in 1856, and it has given the piggish Democracy its show of triumph in the fall elections of 1857. But at last, the Democracy themselves have furnished a document that puts the question at rest forever. We refer to the Report of the Committee on Slavery in the Kansas Constitutional Convention, every member of which is a National Democrat. That report we published the other day, accompanied with the fact that it passed that intensely Democratic body almost unanimously. It is a fair and untrammeled expression of Democratic opinion of a body of Democrats without the taint of a single member suspected of Black Republicanism, sitting under the protection of the bayonets and cannon of the Federal power, and carrying out, doubtless, the wishes and embodying the principles of those in the North and South, for whom they act, and by whom they must be sustained. By-and-by perhaps the people will wake up to a knowledge of how much they have been deceived by the lying promises and pretenses of the falsest party that ever existed.—Pittsburg Gazette.

THE PAPER FOR YOUR FAMILY. MORRIS & WILLIS'S "Home Journal" for 1858. PUBLISHED WEEKLY AT TWO DOLLARS A YEAR.

THE first number of the new series will be issued on THE FIRST OF JANUARY next. THE HOME JOURNAL has become universal. There is few families of cultivated taste (for of the extent to which it has made home the most intelligent and attractive place)—who do not now receive it. It reads, we believe wherever run the gold threads of domestic happiness and true moral refinement, which are woven so thickly into the stronger and coarser web of our country's industry and energetic prosperity. The Home Journal is the speaker to the hearts of this busy nation, in the hours given to rest and relaxation. The first number of the new series will be issued on the first of January next. New subscribers can be supplied from that date; but immediate application will be necessary for such as desire to begin at the beginning. A home is hardly complete, we think we may safely venture to say, without the Home Journal, which, besides being a chronicle of the times, abounds in intelligence designed to enlighten an American home. Its editors (Geo. F. Morris and N. P. Willis) devote their entire time, skill and experience, to the task of giving, each week, everything worth knowing. They particularly keep an eye on all the whims and novelties of the day. The utmost pains are taken to present the facts and outlines of all news. In the literary department, we aim at sketches and readable criticism, and in our recollections of the productions of the vast newspaper world of Europe, we endeavor to avoid the tiresome and the local, and transfer to our columns the pick of English information and brilliancy, while we endeavor to select with a true sense of pure morals, true wit, and genuine humor.

The new feature for the coming year is one that we have long thought of presenting to our readers—the *Conversations of four very brilliant writers on regularly the Cosmos or the Gay World*. We have grudgingly exceeded the keeping of these most readable matters, ourselves—feeling certain that it was precisely the *Society gossip* which our subscribers required as an evergreen to the otherwise brimming cup—and, with some difficulty, we have obtained the consent of our four correspondents. It was only on one condition, however—that the *Conversations*, for each, should be strictly preserved. We agreed to this; but, as it is important to distinguish between their several Letters, we ventured to suggest *noms de plume*, such as we thought would be somewhat descriptive of their several veins of humor. The four ladies will therefore be introduced to the readers of the next volume of the Home Journal as:

MRS. JAPONICA JONES, MRS. AMELIA RAYNER, MISS LOTA RHEIN, MISS JUSTELLA SUMNER.

Every one knows how a tea-table or evening circle is enlivened, by the coming in of an intelligent man, who knows all the new ideas afloat, and tells them, briefly, gayly, and off-hand, in the way of ordinary conversation. Each person gives you the substance of the daily papers, in three or four sentences—tells you the plan and moral of a new book in a few words—gives the essence of a sermon, the sense of a public speech, the key to a public character, the spirit of an article in a review, the novelty in fashion, the last turn in politics—all briefly, and all without detail or summary—leaving it with you, as material for your own discussion and gossip. This is just what we propose to do for the Home Journal for 1858. We mean to jot down, for our readers, in the fewest words possible, every new idea that falls in our way. As we read, as people drop in and talk, we look about in our walks, we shall be on the look-out for ideas and novelties—giving them in the briefest shape. Formerly, we used to lay such memoranda aside, to write about if we should find time—now, we shall give them to our readers, to discuss for themselves. In this way, the subscriber to the Home Journal will stand a chance to get hold of, in new shape or other, every new idea that is going.

The other popular features of the paper will be continued—Sketches of Belles, Portraits of Public Characters, descriptions of stirring scenes in New York, news of fashion and many other phases of gay and literary society, any new fun or new folly—in short, a picture of the world as it passes. We have scarce thought it necessary to mention, however, what our readers well understand, that we take care also to chronicle and advance every interest of benevolence and moral improvement, and strive hard to make the Home Journal no less useful and improving than it is entertaining and original.

TERMS.—For one copy, \$1; for three copies, \$3; for one copy for three years, \$5—always in advance. Subscribers without delay. MORRIS & WILLIS, Publishers, 101 Fulton Street, New York.

IMPORTANT DISCOVERY. CONSUMPTION AND ALL DISEASES OF THE LUNGS AND THROAT ARE POSITIVELY CURABLE BY INHALATION.

WHICH conveys the remedies to the cavities of the lungs through the air passages and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to give a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the third stage; but in the third stage it is impossible to save more than five per cent. for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering attendant; this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone, and a corresponding number elsewhere, of the present population of the earth, eighty millions are destined to fill the Consumptive's graves.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption, the cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; Inhaling the ordinary burning gas will destroy life in a few hours. The inhalation of ammonia will rouse the system when fainting or prostrated. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air—is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? During eighteen years practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully attests the fact that consumption is no longer a fatal disease. My treatment of consumption is original and founded on long experience and a thorough investigation of perfect acquaintance with the nature of tubercles, etc.—enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This facility, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted disease, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Canada by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

AYER'S CHERRY PECTORAL, For the rapid cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

TO CURE A COLD, WITH HEADACHE AND SORENESS OF THE THROAT. Take the Cherry Pectoral on going to bed, and wrap up warm, to sweat during the night. FOR A COLD AND COUGH, take in morning, noon and evening, according to the directions on the bottle, and the difficulty will soon be removed. None will long suffer from this trouble when they find it can be so readily cured. Persons afflicted with a seated cough, which breaks them of their rest at night, will find by taking the Cherry Pectoral on going to bed, they may be sure of sound, unbroken sleep, and consequent refreshing rest. Great relief from suffering, and an ultimate cure, is afforded to thousands who are thus afflicted, by this invaluable remedy.

From its agreeable effects in these cases, many find themselves unwilling to forego its use when the necessity for it has ceased. TO SINGERS AND PUBLIC SPEAKERS this remedy is invaluable, as by its action on the throat and lungs, when taken in small quantities, it removes all hoarseness in a few hours, and wonderfully increases the power and flexibility of the voice.

ASTHMA is generally much relieved, and often wholly cured by Cherry Pectoral. But there are some cases so obstinate as to yield entirely to no medicine. The Cherry Pectoral will cure them if they can be cured. BRONCHITIS or irritation of the throat and upper portion of the lungs, may be cured by taking Cherry Pectoral in small and frequent doses. The uncomfortable oppression is soon relieved.

FOR CROUP. Give an emetic of antimony, to be followed by large and frequent doses of the Cherry Pectoral, until it subsides the disease. If taken in season, it will not fail to cure. WHOOPING COUGH may be broken up and soon cured by the use of Cherry Pectoral. THE INFLENZA is speedily removed by the use of Cherry Pectoral. Numerous instances have been noticed where whole families were protected from any serious consequences, while their neighbors without the Cherry Pectoral, were suffering from the disease.

FOR CONSUMPTION in its earliest stages, it should be taken under the advice of a good physician if possible, and in every case with a careful regard to the printed directions on the bottle. If judiciously used, and the patient is carefully nursed meantime, it will seldom fail to subdue the disease. For settled CONSUMPTION of the Lungs, the Cherry Pectoral should be given in doses adapted to what the patient requires and can bear. It always affords relief, and not unfrequently cures patients that were considered past hope. There are many thousands scattered all over the country, who feel and publicly proclaim that they owe their lives and present health to the Cherry Pectoral.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained fidelity by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is fraud upon the public to pretend that any one medicine will infallibly cure, still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably cure the maladies for which it is employed. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted from the log-cabin of the American Peasant, to the palaces of European Kings.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration. Prepared and sold by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass. Sold by SMITH & JONES and D. W. SPENCER, Coudersport, and by country merchants and druggists everywhere. 10-25-4m.

GREAT REVOLUTION IN MEDICAL SCIENCE.

The best Therapeutic Agent ever introduced.

DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE is exciting the attention of the Medical Profession and a large portion of the intelligent laymen of the land. It is now clearly demonstrated that the lancet, mercury, and all other internal "drug medication" may be laid aside with perfect safety to the patient and abiding benefit to posterity. Wherever these machines have been introduced, they excite the highest wonder and praise. The apparatus is adapted to prevent, relieve and cure every disease incident to humanity,—more particularly all those painful and formidable diseases which have for centuries baffled the profoundest learning and skill of physicians.

From whatever cause there may be an excess or deficiency of the nervous fluid—producing an excess or deficiency of the acids and alkaline secretions—the magnetic principles of the system are deranged, and can only be safely restored to their normal condition by an application of magneto-electricity, by means of DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE. This apparatus will positively prevent, and speedily relieve and cure Consumption, Scrofula, Rheumatism, Palsies, Neuralgia, Spinal Diseases, and all other painful maladies, however hopeless and of long standing. They are eminently useful in all sexual and urinary disorders, particularly where the Constitution has been broken down and ruined by unnatural solitary habits to which too many of the young of both sexes are so lamentably prone.

DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE is without the dangerous complications of batteries and acids,—which facts render it superior to all others on the score of neatness, cleanliness, safety and utility.—It is, in fact, a handsome parlor ornament, may be applied by a child; and will last a life-time, to the great saving of Doctor's bills, &c. PRICE OF THE MACHINE \$10.

It will be safely packed and sent to any part of the United States. Sold wholesale and retail at the Medical Office, No. 35 NORTH SEVENTH Street, Philadelphia, Pa. Address, A. C. DICKINSON, M.D. 10-1-57.

SUFFER NOT! When a CURE is guaranteed IN ALL STAGES OF SECRET DISEASES.

SECRET DISEASES, Self-Abuse, Nervous Debility, Stricture, Gleet, Gravel, Diabetes, Diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Joints, Diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancer, Dropsy, Epilepsy, Fits, St. Vitia's Dance, and all diseases arising from a derangement of the Sexual Organs.

SUCH as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the face, Pain in the back and head, Female irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or arsenic. During twenty years of practice, I have rescued from the jaws of Death many thousands, who in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret Diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula, and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the disease but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the victim, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions on other affections of the skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

SELF-ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its strength from the victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, and all earthly happiness, and leaves the sufferer, wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victim of Self-Abuse that a permanent and speedy cure can be effected, and with the abandonment of noxious practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious swindlers in the columns of the public prints to catch and rob the unwary sufferer that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums of the "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Opium, Sublimated Mercury, and a deadly preparation of mercury and a deadly poison which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and unscrupulous persons, who do not understand even the philosophy of the materia medica, and are equally as destitute of any knowledge of the human system, having no object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and females treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures.
