A HOMESTEAD FOR \$10!

923 Farms for Sale in the Valley of Virginia at \$10 Each.

THESE Farms are situated in Botetourt county, Western Virginia, in one of the healthiest regions in the world, as has been demonstrated by recent statistics. The northern portion of the tract lies within five miles of Knoxville and James River Canal, the southern portion within eight miles of the Virginia and Tennessee railroad. The main road from Fincastle to Sweet Springs runs through the centre of it. These farms will be sold by subscription. The tract will be divided into 923 shares, ranging as follows:
1 Farm of 200 Acs., containing iron and lead.
2 Farms "100 " each."
4 " 50 " "
6 " 30 " "
10 " 20 " "
20 " 10 " "
30 " 8 " "
50 " 5 " "
100 " 4 " "
200 " 3 " "
500 " 2 " "

These shares will be sold at \$10 each, and a numbered certificate to any one making application. One-half of the purchase money will be required before the division when the numbered certificate will be given—the other half before the delivery of the deed, after the division. Thus it will be perceived that each subscriber or purchaser is sure of getting a two-acre lot at a very trifling price, whilst at the same time he has a chance of getting a valuable farm. The division to take place on the first day of March, 1868, unless the shares should all be disposed of before said time. Due notice will be given when and where the division will be made, so that those who desire can be present.

These lands are surrounded by some of the most famous mineral springs in the State, and are in the midst of a deeply picturesque and magnificent country. The title is good, having lately been conveyed by the State to the present proprietor. Some portions of the tract are well timbered, and other portions contain iron, lead and coal. It possesses a strong and good soil, like most lands in the Valley. The two-acre lots are all in one body in a central and eligible portion of the tract. These lands are sold at a price below their actual cost, in order to induce settlement. For full particulars, circulars apply to

IMPORTANT DISCOVERY.

CONSUMPTION

AND ALL DISEASES OF THE LUNGS AND THROAT ARE POSITIVELY

CURABLE BY INHALATION,

WHICH conveys the remedies to the organs in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, deals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed joy. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent. For the Lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering attending this fearful disease, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's graves.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps of alike the brave, the beautiful, the powerful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. This, surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after Inhalation remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain. Inhalation, the ordinary burning gas will destroy life in a few hours. The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation is the fact that sickness is always produced by breathing foul air—it is this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? During eighteen years' practice, many thousands suffering from disease of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferer had been pronounced in the last stages, which fully sustains me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and thorough investigation. My perfect acquaintance with the nature of tubercles, etc., enable me to distinguish, readily, the various kinds of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain pathological and microscopical discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Canada by post, accompanied with their symptoms in letter. If the case would pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

AYER'S

CHERRY PECTORAL,

For the rapid cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

TO CURE A COLD, WITH HEADACHE AND SORENESS OF THE BODY. Take the Cherry Pectoral on going to bed and wrap up warmly, to sweat during the night.

FOR A COLD AND COUGH, take in morning, noon and evening, according to the directions on the bottle, and the difficulty will soon be removed. None will long suffer from this trouble when they find it can be so readily cured. Persons afflicted with a seated cough, which breaks them of their rest at night, will find by taking the Cherry Pectoral of going to bed, they may be sure of sound, unbroken sleep, and consequent refreshing rest. Great relief is afforded by it in cases of whooping cough, and an ultimate cure, is afforded to thousands who are thus afflicted, by this invaluable remedy. The Cherry Pectoral will cure them if they can be cured. Numerous agreeable effects in these cases, many find themselves unwilling to forego its use when the necessity for it has ceased.

TO SINGERS AND PUBLIC SPEAKERS this remedy is invaluable, as by its action on the throat and lungs, when taken in small quantities, it removes all hoarseness in a few hours, and wonderfully increases the power and flexibility of the voice.

ASTHMA is generally much relieved, and often wholly cured by Cherry Pectoral. But there are some cases so obstinate as to yield entirely to medicine. The Cherry Pectoral will cure them if they can be cured. BRONCHITIS or irritation of the throat and upper portion of the lungs, may be cured by taking Cherry Pectoral in small and frequent doses. The uncomfortable oppression is soon relieved.

FOR CROUP. Give an emetic of antimony, to be followed by large and frequent doses of the Cherry Pectoral, until it subsides the disease. If taken in season, it will not fail to cure.

WHOOPING COUGH may be broken up and soon cured by the use of Cherry Pectoral. THE INFLENZA is speedily removed by this remedy. Numerous instances have been noticed where whole families were protected from any serious consequences, while their neighbors without the Cherry Pectoral, were suffering from the disease.

FOR CONSUMPTION in its earliest stages, it should be taken under the advice of a good physician if possible, and in every case with a careful regard to the printed directions on the bottle. If judiciously used, and the patient is carefully nursed meantime, it will seldom fail to subdue the disease.

For seated CONSUMPTION of the Lungs, the CHERRY PECTORAL should be given in doses adapted to what the patient requires and can bear. It always affords relief, and so unfrequently cures patients that were considered past hope. There are many thousands scattered all over the country, who feel and publicly proclaim that they owe their lives and present health to the Cherry Pectoral.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing has its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is true that the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American Peasant, to the palaces of European Kings.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and projected by law from counterfeits, consequently can be relied on as genuine without adulteration.

Prepared and sold by **JAMES C. AYER,** Practical and Analytical Chemist, Lowell, Mass. Sold by **SEITH & JONES** and **D. W. SPENCER,** Coudersport, and by country merchants and druggists everywhere. 10-25-4m

GREAT REVOLUTION IN MEDICAL SCIENCE.

The best Therapeutic Agent ever introduced.

DR. DICKINSON'S

MAGNETO-ELECTRIC MACHINE is exciting the absorbing attention of the Medical Profession and a large portion of the intelligent laymen of the land. It is now clearly demonstrated that the lancet, mercury, and all other internal "drug medication" may be laid aside with perfect safety to the patient and abiding benefit to posterity. Wherever these machines have been introduced, they excite the highest wonder and praise. The apparatus is adapted to prevent, relieve and cure every disease incident to humanity,—more particularly all those painful and formidable diseases which have for centuries baffled the profoundest learning and skill of physicians.

From whatever cause there may be an excess or deficiency of the nervous fluid—producing an excess or deficiency of the acids and alkaline secretions—the magnetic principles of the system are deranged, and can only be safely restored to their normal condition by an application of magneto-electricity by means of **DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE.** This apparatus will positively prevent, and speedily relieve and cure Consumption, Scrofula, Rheumatism, Palsies, Neuralgia, Spinal Diseases, and all other painful maladies, however hopeless and long standing. They are eminently useful in all sexual and urinary disorders, particularly where the Constitution has been broken down and ruined by unnatural solitary habits to which too many of the young of both sexes are so lamentably prone.

DR. DICKINSON'S MAGNETO ELECTRIC MACHINE is without the dangerous complications of batteries and acids—which had alone rendered it superior to all others on the score of neatness, cleanliness, safety and utility.—It is, in fact, a handsome parlor ornament, may be applied by a child, and will last a life-time, to the great saving of Doctor's bills, &c.

PRICE OF THE MACHINE \$10. It will be safely packed and sent to any part of the United States. Sold wholesale and retail at the Medical Office, No. 38 NORTH SEVENTH Street, Philadelphia. Address, **A. C. DICKINSON, M.D.**
