AGENTS GETTING RICH!

The union of EMERSON'S MAGAZINE and PUTNAM'S MONTHLY has given to the combined publication a circulation second to but one similar publication in the country, and has secured for it a combination of literary and artistic talent probably unrivaled by any other magazine in the world. During the first year, the sale in the trade and demand from subscribers exceeded 90,000 copies, and the numbers already issued of the consolidated work are universally conceded to have surpassed in the richness of its literary contents, and the beauty and profusion of their pictorial illustrations, any magazine ever before issued from the American press. Encouraged by these evidences of favor, the publishers have determined to commence the new volume in January with still additional attractions, and to offer such inducements to subscribers as cannot fail to place it, in circulation, at the head of American magazines. With this view they now announce the following splendid programme. They have purchased that superb and costly steel-plate engraving, "THE LAST SUPPER," and will present a copy of it to every three-dollar subscriber for the year 1858. It was engraved at a cost of over \$50,000, by the late celebrated A. L. Dick, from the original of Raphael Menges, after Leonardo Da Vinci, and is the largest steel-plate engraving ever executed in this country, being three times the size of ordinary three-dollar engravings. The first impressions of this engraving are sold at \$10, and it was the intention of the artist that none of the engravings should ever be offered for a less sum than \$5, being richly worth that amount. Thus every three-dollar subscriber will receive the Magazine one year—cheap at three dollars—and this splendid engraving, richly worth \$5; thus getting for \$3 the value of eight dollars.

Our small collection striking off the engravings immediately, yet it can hardly be expected that impressions so large a plate can be taken as fast as they will be called for by subscribers. We shall, therefore, furnish them in the order in which subscribers are received. Those who desire to obtain their engraving early and from the first impressions, should send in their subscription as early as possible. The engraving can be sent on a bill, by mail, or in any other manner, as subscribers shall prefer.

\$20,000 IN WORKS OF ART.
In addition to the superb engraving of "THE LAST SUPPER," which will be presented to every three-dollar subscriber for 1858, the publishers have completed arrangements for the distribution, on the 25th day of December, 1858, of a series of splendid works of art, consisting of one hundred rich and rare oil paintings, valued at from \$100 to 1,000 each. Also, 2,000 magnificent Steel-Plate Engravings, worth from \$3 to \$5 each, and 1,000 choice Holiday Books, worth from \$1 to \$5 each, making in all over THREE THOUSAND GIFTS, worth TWENTY THOUSAND DOLLARS.

In close \$3 to the publishers and you will commence receiving the Magazine by return mail. You will also receive with the first copy a numbered subscription receipt entitling you to the engraving of "THE LAST SUPPER," and a chance to draw one of these "THREE THOUSAND GIFTS."

Reasons why you should subscribe for EMERSON'S MAGAZINE For 1858.
First: Because its literary contents will during the year embrace contributions from over ONE HUNDRED different writers and thinkers, numbering among them the most distinguished of American authors.

Second: Because its editorial departments, "Our Studio," "Our Window," and "Our Ohio," will each be conducted by an able editor—and it will surpass, in the variety and richness of its editorial contents, any other magazine.

Third: Because it will contain, during the year, nearly six hundred original pictorial illustrations, from designs from the first American artists.

Fourth: Because for the sum of three dollars you will receive this splendid monthly, more richly worth that sum than any other magazine, and the superb engraving of "THE LAST SUPPER," worth five dollars.

Fifth: Because you will very likely draw one of the three thousand prizes to be distributed on the 25th day of December, 1858—perhaps one of the most valuable prizes in the market. Notwithstanding that the extraordinary inducements can hardly fail to accomplish the objects of the publishers without further efforts, yet they have determined to continue through the year.

THE GREAT LIBRARY OFFER.
To any person who will get up a club of twenty-four subscribers, either at one or more post-offices, we will present a splendid Library, consisting of over Forty Large Bound Volumes, embracing the most popular works in the market. The club may be formed at the club price, Two Dollars a year, without the engraving, or at the full price, Three Dollars, with the engraving of the Last Supper to each subscriber. List and description of the Library, and specimen copy of the Magazine, will be forwarded on receipt of 25 cents. Over 100 Libraries, or 8,000 volumes, have already been distributed in accordance with this offer, and we should be glad of an opportunity to furnish a Library to every clergyman, to every school teacher, or to some one at every post-office in the country.

AGENTS GETTING RICH.
The success which agents are meeting with is most astonishing. Among the many evidences of this fact, we are permitted to publish the following:

You are at liberty to publish this statement, if you like, and to refer to any of the parties named.
DANIEL GREGG, Centerton, Mo.
With such inducements as are offered, anybody can obtain subscribers. IMPORTANT DISCOVERY.
CONSUMPTION
AND ALL DISEASES OF THE LUNGS AND THROAT ARE POSITIVELY CURABLE BY INHALATION.

WHICH cures the rhinitis, the catarrh, the inflammation of the lungs, the tubercular matter, and coming in direct contact with the diseased membrane, causes a free and easy expectoration, and the lungs, purified by the blood, impart renewed vitality to the nervous system, giving rest to the system and energy to the individual, so that he is able to resume his usual mode of life. It is as much under the control of medical treatment as any other formidable disease; and in a vast number of cases can be cured in the first stages, and 80 per cent. in the second; but in the third stage it is impossible to save more than five per cent. to bid defiance to medical skill. Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering, attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's graves.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life; for it spurs neither age nor sex, nor sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality through the eye system. This surely it is more rational to expect greater good from medicines entering the circulation of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after Inhalation remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a link may be cut without the slightest pain. Inhaling the ordinary burning gas will destroy life in a few hours. The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation is the fact that sickness is always produced by breathing foul air—is not this positive evidence that power medicines, carefully prepared and judiciously administered through the lungs, should produce the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish readily the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Canada by registered communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

AYER'S CHERRY PECTORAL,
For the rapid cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

TO CURE A COLD, WITH HEADACHE AND SORENESS OF THE THROAT. Take the Cherry Pectoral on going to bed and wrap up warm to sweat during the night.
FOR A COLD AND COUGH, take in morning, noon and evening, according to the directions on the bottle, and the difficulty will soon be removed. None will long suffer from this trouble when they find it can be so readily cured. Persons afflicted with a seated cough, which breaks them of their rest at night, will find by taking the Cherry Pectoral on going to bed, they may be sure of sound, unbroken sleep, and consequent refreshing rest. Great relief from suffering from an ultimate cure, is afforded to thousands who are thus afflicted, by this invaluable remedy.

From its agreeable effects in these cases, many find themselves unwilling to forego its use when the necessity for it has ceased.
TO SINGERS AND PUBLIC SPEAKERS this remedy is invaluable, as by its action on the throat and lungs, when taken in small quantities, it removes all hoarseness in a few hours, and wonderfully increases the power and flexibility of the voice.
ASTHMA is generally much relieved, and often wholly cured by Cherry Pectoral. But there are some cases so obstinate as to yield entirely to no medicine. The Cherry Pectoral will cure them if they can be cured.
BRONCHITIS or irritation of the throat and upper portion of the lungs, may be cured by taking Cherry Pectoral in small and frequent doses. The uncomfortable oppression is soon relieved.

FOR CROUP. Give an emetic of antimony, to be followed by large and frequent doses of the Cherry Pectoral, until it subdues the disease. If taken in season, it will not fail to cure.
WHOOPING COUGH may be broken up and soon cured by the use of Cherry Pectoral.
THE INFLUENZA is speedily removed by this remedy. Numerous instances have been noticed where whole families were protected from any serious consequence, while their neighbors without the Cherry Pectoral, were suffering from the disease.

FOR CONSUMPTION of the Lungs, the Cherry Pectoral should be given in doses adapted to the patient's requirements and can be kept. It always affords relief, and not only cures patients that were considered past hope. There are many thousands scattered all over the country, who feel and publicly proclaim that they owe their lives and present health to the Cherry Pectoral.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic merits and the unmistakable relief conferred on thousands of sufferers, could originate and maintain in the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is fraud upon the public to pretend that any one medicine will infallibly cure still there is abundant proof that the Cherry Pectoral cures not only a general ailment, but almost invariably cures the inhalation for which it is employed.

As time makes these facts widely and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American Peasant, to the palaces of European Kings.

The Cherry Pectoral is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

Prepared and sold by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass.
Sold by SEITH & JONES and D. W. SPENCER, Coudersport, and by country merchants and druggists everywhere. 10-2-1m.

GREAT REVOLUTION IN MEDICAL SCIENCE.
The best Therapeutic Agent ever introduced.
DR. DICKINSON'S
MAGNETO-ELECTRIC MACHINE
is exciting the absorbing attention of the Medical Profession and a large portion of the intelligent laymen of the land. It is now clearly demonstrated that the lancet, mercury, and all other internal "drug medication" may be laid aside with perfect safety to the patient and abiding benefit to posterity. Wherever these machines have been introduced, they excite the highest wonder and praise. The apparatus is adapted to prevent, relieve and cure every disease incident to humanity—more particularly all those painful and formidable diseases which have for centuries baffled the profession learning and skill of physicians.

From whatever cause there may be an excess or deficiency of the nervous fluid—producing an excess or deficiency of the acids, or alkaline secretions—the magnetic principles of the system are deranged, and can only be safely restored to their normal condition by an application of magneto-electricity, by means of DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE. This apparatus will positively prevent, and speedily relieve and cure Consumption, Scrophula, Rheumatism, Pains, Neuralgia, Spinal Diseases, and all other painful maladies, however hopeless and of long standing. They are especially useful in all sexual and urinary disorders, particularly where the Constitution has been broken down and ruined by unwholesome habits to which too many of the young of both sexes are so lamentably prone.

DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE is without the dangerous complications of batteries and acids—which fact alone renders it superior to all others on the score of neatness, cleanliness, safety and utility. It is in fact, a handsome portable ornament, may be applied by a child; and will last a life-time, to the great saving of Doctor's bills, &c.

Of all diseases; the great first cause of Suffering from neglect of Nature's laws.
SUFFER NOT!
When a CURE is guaranteed IN ALL STAGES OF SECRET DISEASES,
Self-Abuse, Nervous Debility, Stricture, Gleet, Gravel, Diabetes, Diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrophula, Taints in the Blood and Ankles, Diseases of the Lungs, Throat, Nose and Ears, Ulcers upon the Body or Limbs, Cancer, Dropsy, Epileptic Fits, St. Vitus's Dance, and all diseases arising from a violation of the Sacred Organs.

SUCH as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision, and all the ailments which precede the cure, Loss of Sight, Weakness, Dyspepsia, Liver Disease, Bruisings upon the face, Pain in the back and head, Female irregularities and all impure discharges from both sexes. It matters not from what cause the disease originated, how long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians, and resisted the most careful and judicious use of the best medicines. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may have despaired under my cure, a perfect and most speedy cure. Secret Diseases are the greatest causes of suffering, and they are the first cause of Consumption, Scrophula, and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the disease but ruin the constitution, blighting the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the sufferer, after the disease of death, remain in the hands of the sufferer, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrophula, Tetters, Ulcers, Eruptions on other affections of the skin, Erysipelas, Throat and Lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

SELF-ABUSE is another formidable enemy to health, for nothing else is the dread catalogue of human diseases causes so destructive a drain upon the system, drawing in thousands of victims through all the few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the judicious use of Self-Abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snarls in the columns of the public prints to catch and rob the unwary sufferer that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums termed "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrosive Sublimates, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease, disorganizes the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object in view, and that to make money regardless of consequences.
Irregularities and all diseases of males and females treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the United States or Canada, by patient communicating their symptoms by letter. Business correspondence strictly confidential. Address,
