

Selected Miscellany.

From the N.Y. Eve. Post. Two kinds of Piety. The following lines may be objected to by some for a seeming irrelevance of language.

For the Evening Post. A few years since a powerful revival of religion was witnessed at Uldtown, Maine. Among the converts was an Indian of the Penobscot tribe. Soon after his conversion, Peol attended a prayer-meeting, and was called upon to tell his experience.

Thrilling Scene in Secret Session in the Senate. The Ohio State Journal relates, apropos to the assault upon Edward Everett by the Richmond South.

Henry Clay, during the speech of Mr. King was walking in the rear of the President's chair, listening all the while to the speech, and when Mr. King came to the part we have rendered emphatic, he came round to his place, and taking up the words of Mr. King, he drew himself up to his full height, and pointing his long and skinny forefinger at the Alabama Senator, his eye flashing fire, and his whole frame trembling with excitement, he thundered out in the fullness of his magnificent voice.

Report of this scene in the United States Senate was ever published. It occurred in secret session; but it was known at the time that something of the kind had taken place. It was not until the summer or autumn 1854, that we, in company with Thurlow Weed, passed over from Cincinnati to Covington, to pay our respects to ex-Governor Morehead, who resided in Covington at that time, but who has since been gathered to his fathers—that we heard the whole scene described.

A Gentleman.—Show me the man who can quit the brilliant society of the young to listen to the kindly voice of age—who can hold cheerful conversation with one whom years has deprived of all charms; show me the man who is willing to help the deformed, who stands in need of help, if the blush of Helen mantled on his cheek; show me the man who would no sooner look rudely at the poor girl in the village, than at the well-dressed lady in the saloon; show me the man who treats unprotected maidenhood as he would the heiress, surrounded by the powerful protection of rank, riches and family; show me him who avoids the libertine's side—who slurs him as the blasphemous and traitor of his mother's sex—who scorns, as he would the coward, the defender of a woman's reputation; show me the man who never forgets for an instant the delicacy and respect that is due to woman, in any condition or class, and you show me a true gentleman.—Chas.

There is perhaps no pain so acute, no sentiment so humiliating to the heart of woman, as the consciousness of awakening distrust, when she most deserves to have inspired confidence.

IMPORTANT DISCOVERY. CONSUMPTION AND ALL DISEASES OF THE LUNGS AND THROAT CURABLE BY INHALATION.

WHICH conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration from the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to give a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent.

Medicines with full directions sent to any part of the United States and Canada by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs, and enable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

AYER'S CHERRY PECTORAL, For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

TO CURE A COLD, WITH HEADACHE AND SORENESS OF THE BODY. Take the Cherry Pectoral on going to bed and wrap up warm, to sweat during the night.

WHOPPING COUGH may be broken up and soon cured by the use of Cherry Pectoral. THIS INFLUENZA is speedily removed by this remedy. Numerous instances have been noticed where whole families were protected from any serious consequences, while their neighbors without the Cherry Pectoral, were suffering from the disease.

FOR CONSUMPTION in its earliest stages, it should be taken under the advice of a good physician if possible, and in every case with a careful regard to the printed directions on the bottle. Judiciously used, and the patient carefully observing meantime, it will seldom fail to subdue the disease.

For settled CONSUMPTION of the Lungs, the Cherry Pectoral should be given in doses adapted to what the patient requires and can bear. It always affords relief, and is unfrequently cured patients that were considered past hope. There are many thousands scattered all over the country, who feel and publicly proclaim that they owe their lives and present health to the Cherry Pectoral.

SUFFER NOT! When a CURE is guaranteed IN ALL STAGES OF SECRET DISEASES.

Self-Abuse, Nervous Debility, Strictures, Gleet, Gonorrhea, Diarrhoea, Diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrophulousness in the Joints and Ankles, Diseases of the Lungs, Throat, Nose and Ears, Ulcers upon the Body or Limbs, Cancer, Dropsy, Epileptic Fits, St. Vit's Dance, and all diseases arising from a derangement of the Sexual Organs.

Such as Nervous Trembling, Loss of Memory, Lash of Power, General Weakness, Dimness of Vision with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the face, Pain in the back and head, Female irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than you can believe can be effected by any other remedy, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure.

The medicines are pleasant without coloring, cause no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which was quite as promising to me as afflicted, who may place their trust in me for a perfect and most speedy cure. Secret Diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrophulousness, and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the diseases but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

But should the disease and the treatment not cause death, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrophulous, Tetters, Ulcers, Eruptions in other affections of the skin, Erysipelas, and Lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

SELF-ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business and all earthly happiness, and leaves the sufferer to consumption and a train of evils more to be dreaded than death itself.

From whatever cause there may be an excess or deficiency of the nervous fluid—producing an excess or deficiency of the acids and alkaline secretions—the magnetic principles of the system are deranged, and can only be safely restored to their normal condition by an application of magneto-electricity, by means of DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE.

DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE is without the dangerous complications of batteries and acids—which fact alone renders it superior to all others on the score of neatness, cleanliness, safety and utility.

It is, in fact, a handsome parlor ornament; may be applied by a child; and will last a life-time, to the great saving of Doctor's bills, &c.
